What time is the 3:00 parade? Why does a child need to be 40 inches tall to ride a roller coaster? What happens when the president of France gets lost inside Pirates of the Caribbean? A former employee, or "cast member," at Walt Disney World's Magic Kingdom answers these and other questions while sharing humorous stories about working inside the world's most popular theme park. "Stories from a Theme Park Insider" takes you inside the park's famous tunnels and backstage for a look at how theme parks really work, and the funny moments and embarrassments that can happen when your work is someone else's vacation.

She was a smart, snappy, light-hearted girl who knew it all at fourteen and let television audiences everywhere know it. Now a woman in her late twenties, her searching blue eyes are more serious, but mostly amused by the people around her. The gap-toothed smile that made her seem younger than she really was is gone, but she still lightens up the room. Her unpredictable wardrobe

rocks just like when she was a kid, but her fashion sense has evolved and it makes men and women turn their heads. After leaving high school early, Clarissa interned at the Daily Post while attending night school. At the ripe old age of twenty-two she had it made - her own journalism beat (fashion, gender politics and crime), an affordable apartment in FiDi and a livable wage. She was so totally ahead of the game. Ah, those were the days! All three of them. Remember the Stock Market Crash of 08? Remember when people actually bought newspapers? All of Clarissa's charming obsessions, charts, graphs, and superstitions have survived into adulthood, but they've evolved into an ever-greater need to claw the world back under control. Her mid-twenties crisis has left her with a whole set of things she can't explain: an ex-boyfriend turned stalker, her parents' divorce, a micro relationship with the cute coffee guy, java addiction, "To-Flue Glue," and then there's Sam. Where's Sam anyway? Things I Can't Explain is about knowing it all in your teens and then feeling like you know

nothing in your twenties. It is an entertaining and must-read sequel to all fans of Mitchell Kriegman's Nickelodeon TV show, Clarissa Explains It All. [Fit2Fat2Fit](#) Cosimo, Inc. The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the

U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. He has since written three books on the subject including Plunder: Investigating Our Economic Calamity (Cosimo Books, 2008),

and *The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail* (Disinfo Books, 2011), a companion to his latest film *Plunder The Crime Of Our Time*. He can be reached online at www.newsdissector.com.

Billboard *Insiders' Guide* Written by a practicing emergency physician, The

White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types

and amounts of insurance
 Decide when to buy a house and how much to spend on it
 Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor
 Avoid investments which are designed to be sold, not bought
 Select advisors who give great service and advice at a fair price
 Become a millionaire within five to ten years of residency graduation
 Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes
 Protect your hard-won assets from professional and personal lawsuits
 Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die
 Minimize your tax burden, keeping more of your hard-earned money
 Decide between an employee job and an independent contractor job

This book is directed toward several audiences. First, it is designed for

university courses in HRD. We argue that every HRD academic program needs a course that teaches the foundations of the field. Second, HRD researchers will find the book thought-provoking and useful as a guide to core research issues. Third, it is written for reflective practitioners who actively seek to lead the field as it grows and matures. Finally, almost every practitioner will find parts of the book that will add depth to their practice.
