 Jocelyn est musicien de jazz, sa femme Patricia professeur de philosophie. Un voyage à Cuba permettra aux deux Québécois de découvrir un peuple, une riche culture et des musiciens courageux qui sauront les toucher et les faire réfléchir sur leur propre réalité musicale. Qu’est-ce qu’un artiste ? Dans quelle situation les musiciens québécois se débattent-ils ? Qu’y a t-il de si différent entre La Havane, Holguin ou Montréal ? Avec leur complice guitariste Pascal, ils chercheront des réponses au son de la timba havanaise, accompagnée de mets créoles, d’odeurs de fleurs, de café et d’alcools de canne à sucre... Sur fond d’amitiés, de découvertes et de mélodies, Michel Mongeau signe une belle réflexion sur le monde du spectacle, des arts et de la musique. Guidée par la passion et l’ouverture d’esprit, une quête de l’harmonie composée sans fausse note, aux airs de bouillon de cultures.

 In 1909 the poet Filippo Tommaso Marinetti published the founding manifesto of Italian Futurism, an inflammatory celebration of "the love of danger" and "the beauty of speed" that provoked readers to take aggressive action and "glorify war--the world's only hygiene." Marinetti's words unleashed an influential artistic and political movement that has since been neglected owing to its exaltation of violence and nationalism, its overt manipulation of mass media channels, and its associations with Fascism. Inventing Futurism is a major reassessment of Futurism that reintegrates it into the history

of twentieth-century avant-garde artistic movements. Countering the standard view of Futurism as naïvely bellicose, Christine Poggi argues that Futurist artists and writers were far more ambivalent in their responses to the shocks of industrial modernity than Marinetti's incendiary pronouncements would suggest. She closely examines Futurist literature, art, and politics within the broader context of Italian social history, revealing a surprisingly powerful undercurrent of anxiety among the Futurists--toward the accelerated rhythms of urban life, the rising influence of the masses, changing gender roles, and the destructiveness of war. Poggi traces the movement from its explosive beginnings through its transformations under Fascism to offer completely new insights into familiar Futurist themes, such as the thrill and trauma of velocity, the psychology of urban crowds, and the fantasy of flesh fused with metal, among others. Lavishly illustrated and unparalleled in scope, Inventing Futurism demonstrates that beneath Futurism's belligerent avant-garde posturing lay complex and contradictory attitudes toward an always-deferred utopian future.

An exploration of the political dimensions of forgiveness and repentance from Jacques Derrida. Perjury and Pardon is a two-year seminar series given by Jacques Derrida at the École des hautes études en sciences sociales in Paris during the late 1990s. In these sessions, Derrida focuses on the philosophical, ethical, juridical, and political stakes of the concept of responsibility. His primary goal is to develop what he calls a “problematic of lying” by studying diverse forms of betrayal: infidelity, denial, false testimony, perjury, unkept promises, desecration, sacrilege, and blasphemy. This volume covers the seminar’s second year when Derrida explores the political dimensions of forgiveness and repentance. Over eight sessions, he discusses Hegel, Augustine, Levinas, Arendt, and Benjamin as well as Bill Clinton’s impeachment and Nelson Mandela and Desmond Tutu’s

testimonies before the Truth and Reconciliation Commission. The seminars conclude with an extended reading of Henri Thomas's 1964 novel *Le Parjure*.

Partout où des enfants de moins de 3 ans sont pris en charge, se posent pour les adultes qui les encadrent des questions concrètes sur les méthodes d'éveil, sur le contenu des activités et sur leurs attitudes éducatives. Dans la première partie, l'auteur transmet son regard d'éducatrice et de

formatrice sur les modes d'accueil, sur les attentes des parents et sur les questionnements des professionnels de la petite enfance. Dans la seconde partie, elle partage des idées d'activités sensorielles, motrices, manuelles, symboliques et langagières en les accompagnant d'éléments de réflexion qui visent à préserver la valeur du jeu spontané et le besoin de jouer pour jouer.

Born in 1911 in Paris, Louise Bourgeois was raised in a household that famously included her father's mistress, who was also Louise's nanny. She studied philosophy and mathematics before turning to art in 1934, and over the next few years studied at various art academies and in the atelier of Fernand Léger, among others. She moved to New York in 1938 with her new husband, American art historian Robert Goldwater. Her first U.S. showing was in a print exhibit at the Brooklyn Museum, and over the next 50 years, she exhibited consistently in solo and group shows. In 1982, Bourgeois was the subject of the first retrospective ever given to a woman artist at The Museum of Modern Art, New York, and her work has remained in the spotlight ever since.

Much of what we see expressed in the church today is built on more than just the New Testament. It's built mostly on the Old Testament, Church culture, and Paganism. If we are to succeed in making disciples of all nations then we must go back to the "template" we find in the Bible. Let the reformation begin!
