*CultureShock! Vietnam* Duke University Press  
 The Routledge Encyclopedia of Language Teaching and Learning is an authoritative reference dealing with all aspects of this increasingly important field of study. Offering a comprehensive range of articles on contemporary language teaching and its history, it has been produced specifically for language teaching professionals and as a reference work for academic studies at postgraduate level. In this new edition, every single entry has been reviewed and updated with reference to new developments and publications. Coverage has been expanded to reflect

new technological, global and academic developments, with particular attention to areas such as online and distance learning, teacher and learner cognition, testing, assessment and evaluation, global English and teacher education. Themes and disciplines covered include: Methods and materials, including new technologies and materials development Contexts and concepts, such as mediation, risk-taking in language learning and intercomprehension Influential figures from the early days of language teaching to the contemporary Related disciplines, such as psychology, anthropology and corpus linguistics It covers the teaching of specific languages, including Japanese, Chinese, Arabic and African languages, as well as English, French, German and Spanish. There are thirty five overview articles dealing with issues such as communicative language

teaching, early language learning, teacher education and syllabus and curriculum design. A further 160 entries focus on topics such as bilingualism, language laboratories and study abroad. Numerous shorter items examine language and cultural institutions, professional associations and acronyms. Multiple cross-references enable the user to browse from one entry to another, and there are suggestions for further reading. Written by an international team of specialists, the Routledge Encyclopedia of Language Teaching and Learning is an invaluable resource and reference manual for anyone with a professional or academic interest in the subject.

*"Homo Religiosus" in Mircea Eliade*  
 Bloomsbury Publishing USA

The bestselling author of No Logo shows how the global "free market" has exploited

crises and shock for three decades, from Chile to Iraq. In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. The Shock Doctrine retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

*Trauma and Migration* Marshall Cavendish International Asia Pte Ltd  
Part ethnography, part history, and part memoir, this volume chronicles the complex past and dynamic present of an ancient Mizrahi community. While intimately tied to the Central Asian landscape, the Jews of Bukhara have also maintained deep connections to the wider Jewish world. As the community began to disperse after the fall of the Soviet Union, Alanna E. Cooper traveled to Uzbekistan to document Jewish life before it disappeared. Drawing on ethnographic research there as well as among immigrants to the US and Israel, Cooper tells an intimate and personal story about what it means to be Bukharan Jewish. Together with her historical research about a series of dramatic encounters between Bukharan Jews and Jews in other parts of the world, this lively narrative illuminates the tensions inherent in maintaining Judaism as a single global religion over the course of its long and varied diaspora history.

**Zhang Hongtu** Marshall Cavendish International Asia Pte Ltd  
Dr. Mindy Thompson Fullilove, a clinical psychiatrist, exposes the devastating outcome of decades of urban renewal

projects to our nation's marginalized communities. Examining the traumatic stress of "root shock" in three African American communities and similar widespread damage in other cities, she makes an impassioned and powerful argument against the continued invasive and unjust development practices of displacing poor neighborhoods.

*Dispatches from Pluto* Harper Collins  
This guide to understanding the culture of conversation is by one of America's foremost linguistic anthropologists. In a fascinating journey through the meaning of language--and the relationship of language to culture--Michael Agar sheds new light on the oceans of language, showing how to keep afloat even when faced with something that seems overwhelmingly foreign.

**CultureShock! Saudi Arabia** SAGE Publications

CultureShock! Cambodia provides all the essential information one needs to make settling into this once war-torn country as painless as possible. Benefit from the practical advice provided including how to find accommodation and employment, which schools to put your children in as well as the documentation required when applying for the various facilities and licences. Discover what to do when encountering monks with mobile phones and how to ride a motorcycle taxi Cambodian-style. Learn more about the Cambodian people and understand the irony behind their warm and friendly nature. Grasp the basics of the Khmer language and browse through the list of places to explore especially the infamous Angkor Wat. CultureShock! Cambodia is a valuable guide for anyone who wants to visit or stay in this beautiful country of Cambodia.

CultureShock! Korea is a compelling, elegantly-written and funny guide for anyone planning a stay in South Korea. Can you tell your bibimbap from your gimbap? Why is age such a big deal when addressing people? Do people really give bathroom tissue and laundry detergent at housewarming parties? What's so appealing about noraebangs? When introduced to someone, do you shake hands, bow or do both? And why do Koreans cheer you on by exclaiming, "Fighting!?" Whether you're in South Korea to do business, seek pleasure or find your inner Hallyu diva, if you are lucky enough to find yourself on this peninsula where stunning natural scenery meets hyper-modern cities, get the most out of your stay with this essential and fun-to-

read guide.

*New Yorkers: A City and its People in Our Time* Metropolitan Books

CultureShock! Saudi Arabia provides an insight into living and working in a kingdom where Islam governs almost every aspect of life. Uncover the true psyche of the Saudi people—the men clad in their thobes and gutra and women in their abayas—and their unique way of life, a lifestyle which foreigners may find alien and a challenge to cope with. Containing valuable information not only on the practical aspects of settling in, this book will give tips on how best to integrate into Saudi society. Learn about Saudi laws and be aware of what might get you thrown in jail or under the executioner's axe.

CultureShock! Saudi Arabia is essential for anyone who wants to fully understand this Islamic country and get the most out of his or her stay in the kingdom.

*CultureShock! Korea* W. W. Norton & Company

Culture Shock! Vietnam aims to be the definitive account of the country for travellers or those relocating to the country. Based primarily on the author's first-hand experience in Vietnam, the book leads the reader on a journey that covers every aspect of arrival, settling in, integrating with local culture, and grappling with a wholly foreign language and customs. The book doesn't turn a blind eye to the country's warts, and it's also not tourist-minded propaganda. Culture Shock! Vietnam simply presents Vietnam and its challenges for what they are, and provides useful strategies for adapting.

*Language Shock* Marshall Cavendish International Asia Pte Ltd

CultureShock! Portugal is every reader's guide to living, working and adapting to life in this beautiful, charming country. Packed full of useful information, this book will answer all your questions and provide you with much, much more. Find out how to obtain a work visa, how to enrol your children in the schooling system, where to live, and what to bring from home. As well as providing the practical information essential for anyone moving to a foreign land, this book guides you through the picturesque countryside, from vineyards to almond groves. Visit old-fashioned villages where bar owners know their patrons and grocers know their customers. Discover how the work environment ticks and what is important to the Portuguese people. For anyone wanting to truly understand and experience what it is like to live in Portugal, CultureShock! Portugal is a must read.

From Newbery Honor- and Coretta Scott King Author Award-winning, New York Times bestselling author Renée Watson comes a heartwarming and inspiring novel for middle schoolers about finding deep roots and exploring the past, the present, and the places that make us who we are. All Amara wants for her birthday is to visit her father's family in New York City--Harlem, to be exact. She can't wait to finally meet her Grandpa Earl and cousins in person, and to stay in the brownstone where her father grew up. Maybe this will help her understand her family--and herself--in new way. But New York City is not exactly what Amara thought it would be. It's crowded, with confusing subways, suffocating sidewalks, and her father is too busy with work to spend time with her and too angry to spend time with Grandpa Earl. As she explores, asks questions, and learns more and more about Harlem and about her father and his family history, she realizes how, in some ways more than others, she connects with him, her home, and her family. **The Psychology of Culture Shock**

Vintage

This book charts an evolution in gay identity within American reality television and documentary film. Through focusing on the performative potential of gay men, it examines the emergence of the independent gay citizen as a bold new voice rejecting subjugation within the media. Through examining productions as diverse as *An American Family*, *Tongues United*, *Silverlake Life*, *The Real World*, *Paternal Instinct*, *Trembling Before G-D*, *Queer Eye for the Straight Guy*, and many others, this book explores how gay people as teens, devoted couples, parents, inspiring individuals and influential producers have contributed to the progression of gay identity in domestic

arenas. These portrayals are played out while discussing AIDS, race, religion, the development of same-sex family forms, the issues of procreation and gay marriage and the changing views of gay men as both creative producers and responsible social agents. In these forms of entertainment, gay social actors as political agents challenge dominant ideas, and invent new social worlds.

Some Places More Than Others Marshall Cavendish International Asia Pte Ltd

This important multivolume work sheds light on current—and future—research on cultural universals and differences in personality in their evolutionary, ecological, and cultural contexts. How does culture impact personality traits? To answer that question, the three volumes in this set address current theory and research on culture and personality in an effort to determine how people differ—and how they are alike. Detailed chapters by scholars from around the world unveil a fascinating picture of the relationship between culture and important aspects of personality. They also address the accuracy or meaningfulness of trait comparisons across cultures and the methods and limitations of research on the subject. As most psychological research is conducted on participants from Western industrialized countries, a work that includes a wide range of cultures not only fosters a more complete understanding of human personality, but also broadens perspectives on value systems and ways to live. Each of the three volumes concentrates on distinct areas of research, exposing the reader to the diverse theoretical and empirical approaches and topics in the field. Volume 1 focuses on the cross-cultural study of personality dispositions or traits. Volume 2 examines the relationship between culture and other important aspects of personality, including the self, emotions, motives, values, beliefs, and life narratives, as well as aspects of personality and adjustment associated with biculturalism and intercultural competence. Volume 3 looks at evolutionary, genetic, and neuroscience perspectives on personality across cultures along with ecological and cultural influences. In addition to providing readers with a thorough analysis of current and future directions for research, this unrivaled work brings together multiple perspectives on personality across cultures, thereby promoting a more integrative understanding of this important topic.

*Interaction and Identity* Indiana University Press

This landmark book, the concluding

volume of D. W. Meinig's magisterial series *The Shaping of America*, presents the story of America's interwoven history and geography from 1915 to 2000. The author describes decades of enormous national growth and change in his characteristic engaging style, and through more than seventy original maps he ingeniously depicts diverse twentieth-century trends and developments. The book addresses the expanding nation's progress in terms of the automotive revolution; neotechnic evolution; access to air travel; growth of instantaneous forms of communication, including telephones, television, and the Internet; and such political events as World War II. Meinig relates these developments to social and geographic trends, among them patterns of urban migration, regionalism, metropolitanization, the beginnings of the urban megalopolis, shifts in ethnic and religious populations, and, on a more global scale, transformations in America's connections with Europe, Asia, and Latin America. A masterful synthesis of twentieth-century history and geography, this book offers unprecedented insights into the shaping and reshaping of the United States over the past century.

*CultureShock! Chile* Yale University Press

The corresponding Teacher's Guide is a page-by-page supplementary resource that gives you additional activities to enhance the student's learning opportunities by using cross-curricular materials including discussion questions, reproducible vocabulary, science, geography and math activities. Each Teacher's Guide turns you into the expert—we've done all the research for you! This comprehensive resource enhances the many dramatic learning opportunities students can gain from reading this mystery by Carole Marsh. The supplementary Teacher's Guide includes:
 

- A chapter guide of additional information, trivia, historical facts, and more to help teachers be "Experts!"
- Activity ideas that make the book come dramatically to life for young readers!
- The author's additional comments and thoughts about the subject
- Some reproducible activities
- Great out-of-the-box ideas for activities.

The Mystery in New York City Teacher's Guide Routledge

Incorporates over a decade of new research and material on coping with the causes and consequences that instigate culture shock, this can occur when a person is transported from a familiar to an alien culture.

*CultureShock! Portugal* Springer

This book provides an overview of recent

trends in the management of trauma and post-traumatic stress disorders that may ensue from distressing experiences associated with the process of migration. Although the symptoms induced by trauma are common to all cultures, their specific meaning and the strategies used to deal with them may be culture-specific. Consequently, cultural factors can play an important role in the diagnosis and treatment of individuals with psychological reactions to extreme stress. This role is examined in detail, with an emphasis on the need for therapists to bear in mind that different cultures often have different concepts of health and disease and that cross-cultural communication is therefore essential in ensuring effective care of the immigrant patient. The therapist's own intercultural skills are highlighted as being an important factor in the success of any treatment and specific care contexts and the global perspective are also discussed. *Bukharan Jews and the Dynamics of Global Judaism* Psychology Press  
Winner of the 2021 Brooklyn Public Library Literary Prize A symphony of contemporary New York through the magnificent words of its people—from the best-selling author of *Londoners*. In the first twenty years of the twenty-first century, New York City has been convulsed by terrorist attack, blackout, hurricane, recession, social injustice, and pandemic. *New Yorkers* weaves the voices of some of the city's best talkers into an indelible portrait of New York in our time—and a powerful hymn to the vitality

and resilience of its people. Best-selling author Craig Taylor has been hailed as “a peerless journalist and a beautiful craftsman” (David Rakoff), acclaimed for the way he “fuses the mundane truth of conversation with the higher truth of art” (Michel Faber). In the wake of his celebrated book *Londoners*, Taylor moved to New York and spent years meeting regularly with hundreds of New Yorkers as diverse as the city itself. *New Yorkers* features 75 of the most remarkable of them, their fascinating true tales arranged in thematic sections that follow Taylor's growing engagement with the city. Here are the uncelebrated people who propel New York each day—bodega cashier, hospital nurse, elevator repairman, emergency dispatcher. Here are those who wire the lights at the top of the Empire State Building, clean the windows of Rockefeller Center, and keep the subway running. Here are people whose experiences reflect the city's fractured realities: the mother of a Latino teenager jailed at Rikers, a BLM activist in the wake of police shootings. And here are those who capture the ineffable feeling of New York, such as a balloon handler in the Macy's Thanksgiving Day Parade or a security guard at the Statue of Liberty. Vibrant and bursting with life, *New Yorkers* explores the nonstop hustle to make it; the pressures on new immigrants, people of color, and the poor; the constant battle between loving the city and wanting to leave it; and the question of who gets to

be considered a “New Yorker.” It captures the strength of an irrepressible city that—no matter what it goes through—dares call itself the greatest in the world.

**Handbücher zur Sprach- und Kommunikationswissenschaft** Marshall Cavendish International Asia Pte Ltd  
It used to be widely accepted amongst anthropologists that when they conducted fieldwork with foreign cultures they experienced something called ‘culture shock.’ This book will argue that ‘culture shock’ is a useful model for understanding an important part of human experience. However, in its most widely-known form, the stage model, ‘culture shock’ has been heavily influenced by the same anti-science, latter-day religiosity that has become so influential more broadly: Multiculturalism. This book will examine culture shock through the model of ‘religion.’ It will show how the most well-known model of culture shock – so popular amongst business consultants, expatriates, international students and travelers – has become a means of promoting and sustaining this replacement religion which includes everything from dogmatism and fervour to conversion experience. By so doing, it will aim both to better understand culture shock and to show how it can still be useful, if divorced from its implicitly religious dimensions, to broadly scientific scholars. It will also suggest how anthropology itself might be stripped of its ideological infiltration and returned to the realm of science.
