Summertime is here! But there's no sun, surf, or sand for Lou. Instead, it's Brussels sprouts, mud, and mosquitoes. Lou and her mom are off to spend the summer with Memaw in the most boring town on earth. Lou's mom keeps busy by exchanging love letters with her new sweetheart, Richard, but Lou's crush, Tristan, only sends her a lousy postcard. Will meeting a new boy chase Lou's blues away? Paul's not exactly a heartthrob, but he's sweet and . . . unusual. He's nothing like Tristan, but could he be just as crush-worthy?

"Nuclear weapons, since their conception, have been the subject of secrecy. In the months after the dropping of the atomic bombs on Hiroshima and Nagasaki, the American scientific establishment, the American government, and the American public all wrestled with what was called the "problem of secrecy," wondering not only whether secrecy was appropriate and effective as a means of controlling this new technology but also whether it was compatible with the country's core values. Out of a messy context of propaganda, confusion, spy scares, and the grave counsel of competing groups of scientists, what historian Alex Wellerstein calls a "new regime of secrecy" was put into place. It was unlike any other previous or since. Nuclear secrets were given their own unique legal designation in American law ("restricted data"), one that operates differently than all other forms of national security classification and exists to this day. Drawing on massive amounts of declassified files, including records released by the government for the first time at the author's request, *Restricted Data* is a narrative account of nuclear secrecy and the tensions and uncertainty that built as the Cold War continued. In the US, both science and democracy are pitted against nuclear secrecy, and this makes its history uniquely compelling and timely"--

"*The Impostures of Scapin*" by Molière Scapin constantly lies and tricks people to get ahead. He is an arrogant, pompous man who acts as if nothing were impossible for him. However, he is also a diplomatic genius. He manages to play the other characters off of each other very easily, and yet manages to keep his overall goal — to help the young couples — in sight. In their fathers' absence, Octave has secretly married Hyacinthe, and Léandre has secretly fallen in love with Zerbinette. But the fathers return from a trip with marriage plans for their respective sons. Scapin, after hearing many pleas for help, comes to their rescue.

This is the newly updated SECOND EDITION! This version has been fully re-checked for accuracy and re-formatted to make it even more user-friendly, following feedback after a full year of classroom use by thousands of teachers across the world. *Spanish Sentence Builders* is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally.

This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) A sentence builder modelling the target constructions; 2) A set of vocabulary building activities; 3) A set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; 4) A set of retrieval-practice translation tasks; 5) A set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.

The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie. Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative resource, the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane .

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. *START WITH WHY* asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees

alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Robert de Reims, also known as “La Chievre de Rains,” was among the earliest trouvères—poet-composers who were contemporaries of the troubadours but who wrote in the dialects of northern France. This critical edition provides new translations into English and modern French of all the songs and motets ascribed to him, along with the original texts, the extant music, and a substantive introduction. Active sometime between 1190 and 1220, Robert was an influential figure in the literary circles of Arras. Thirteen compositions set to music are here attributed to him, including nine chansons and four polyphonic motets that were broadly disseminated in the thirteenth century and beyond. Robert’s work is exceptional on a number of fronts. He lavished particular care on the phonic harmony of his words. Acoustic luxuriance and expertise in rhyming, grounded in the play of echoes and variation (often extending into the music), constitute the hallmark of his poetry.

Moreover, he is the earliest trouvère known to have composed a parodic *sotte chanson contre Amours* (silly song against Love). Located clearly at the nexus of monophonic song and polyphony, Robert's corpus also poses the intriguing question of trouvère participation in the development of the polyphonic repertory. The case of Robert de Reims jostles and tempers the standard history of the *chanson* and *motet*. Accessible and instructive, this trilingual critical edition of his complete works makes the oeuvre of this innovative and consequential trouvère available in one volume for the first time.

As the visual representation of an essentially oral text, Sylvia Huot points out, the medieval illuminated manuscript has a theatrical, performative quality. She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of *chanson courtoise*, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of the lyrical romance and *dit*, narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth centuries, analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and Watriquet de Couvin. Huot focuses on the writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers conceived their common project, and how they distinguished their respective roles.

This innovative film-based program is designed to motivate and inspire intermediate French students. Based on the French film *Le Chemin du retour*, *Bien vu, bien dit* is a completely integrated program for intermediate French. Each chapter of *Bien vu, bien dit*, the textbook, is correlated to an episode of the film. The textbook prepares students for the film-viewing experience through the chapter vocabulary presentations and activities and through additional pre- and post-viewing

activities. The vocabulary and grammar presentations, as well as the activities, recycle and expand on the dialogue and structures presented in the film. Pair and small-group activities enable students to talk about the characters in the story and their own lives. The cultural content of the film is also explored in cultural notes and readings in each chapter. *Le Chemin du retour*, the film, is an engaging story about a young French journalist, Camille Leclair, and her pursuit of the truth about her grandfather's past. Through Camille's quest, students are introduced to many facets of today's French and Francophone cultures, as well as to important historical events in France. They learn language in the functional context provided by the film, and concepts are reinforced by onscreen activities that help students verify their comprehension. The feature-length film (102 minutes) is divided into twelve episodes, and each episode includes onscreen pre- and post-viewing activities that make the film more accessible to students, on both a linguistic and cultural level. Episodes are approximately fifteen to twenty minutes in length and correspond to the chapters in the textbook. Three and a half hours of viewing allow intermediate students to explore the richness of French language and culture. By hearing French spoken with a variety of accents and at different speeds in the film, students will gain confidence in their ability to understand authentic, spoken French.
