In response to a congressional request, GAO analyzed an Office of Personnel Management (OPM) report on pay for performance in the federal government. In reviewing the report, GAO compared it with information it developed in a 2-year analysis of merit pay in three government departments. GAO generally disagreed with the OPM conclusions. It found that the studies and analyses OPM cited as the basis for its conclusions were either not current or could not be projected to a government-wide merit pay program. The attitudinal survey used for the OPM study took place before merit pay was fully implemented and the actual merit pay experiences cited by OPM were either from agencies that implemented merit pay a year earlier or from OPM merit pay experience. GAO

identified many areas of the merit pay system that need management attention as well as negative employee perceptions and attitudes toward the systems in effect. GAO found that, while merit pay may provide greater rewards for employees rated above average in a particular merit pay pool, these rewards are not always equitable and proportionate when comparing increases between pools. In the agencies which GAO reviewed, 7 percent or fewer employees wanted to retain the merit pay system as implemented. GAO stated that it may take a few more years of operation, evaluation, and adjustment before the positive and negative aspects of a merit pay system and the feasibility of extending it to all federal employees can be adequately determined.

Code of Federal Regulations Berrett-Koehler Publishers
Written by "pracademics" with federal practitioners specifically in mind, the handbook is designed to bridge the gap between academic and applied public administration by

identifying what resonates with practitioners as they search for usable theories and research findings to improve performance. It will be essential reading for federal practitioners, scholars, and "pracademics" alike. *Department of the Air Force Civilian Compensation and Benefits* GovAmerica.org Lists addresses and telephone and fax numbers for federal agencies, Congress, and nongovernmental organizations in Washington, D.C.

Pay Rates of the General Schedule, 1979-1992

Independently Published
The strengths and abilities children develop from infancy through adolescence are crucial for their physical, emotional, and cognitive growth, which in turn help them to achieve success in school and to become responsible, economically self-sufficient, and healthy adults. Capable, responsible, and healthy adults are clearly the foundation of a well-functioning and prosperous society, yet America's future is not as secure as it could be

because millions of American children live in families with incomes below the poverty line. A wealth of evidence suggests that a lack of adequate economic resources for families with children compromises these children's ability to grow and achieve adult success, hurting them and the broader society. A Roadmap to Reducing Child Poverty reviews the research on linkages between child poverty and child well-being, and analyzes the poverty-reducing effects of major assistance programs directed at children and families. This report also provides policy and program recommendations for reducing the number of children living in poverty in the United States by half within 10 years. *The CSRS and FERS Handbook for Personnel and Payroll Offices* DIANE Publishing

In response to a congressional request, GAO analyzed an Office of Personnel Management (OPM) report on pay for performance in the federal government. In reviewing the report, GAO compared it with information it developed in a 2-year analysis of merit pay in three

government departments. GAO generally disagreed with the OPM conclusions. It found that the studies and analyses OPM cited as the basis for its conclusions were either not current or could not be projected to a government-wide merit pay program. The attitudinal survey used for the OPM study took place before merit pay was fully implemented and the actual merit pay experiences cited by OPM were either from agencies that implemented merit pay a year earlier or from OPM merit pay experience. The U.S. Office of Personnel Management presents the full text of a handbook entitled "Dealing with Workplace Violence: A Guide for Agency Planners," published in 1998. The handbook discusses how to establish workplace violence initiatives. The handbook covers the basic steps of program development, case studies, threat assessment, considerations of employee relations and the employee assistance program, workplace security, and organizational recovery after an incident.

The Plum Book is published by the Senate Committee on Homeland Security and Governmental Affairs and House Committee on Oversight and Reform alternately after each Presidential election. The Plum Book is used to identify Presidential appointed and other positions within the Federal Government. The publication lists over

9,000 Federal civil service leadership and support positions in the legislative and executive branches of the Federal Government that may be subject to noncompetitive appointment. The duties of many such positions may involve advocacy of Administration policies and programs and the incumbents usually have a close and confidential working relationship with the agency head or other key officials. The Plum Book was first published in 1952 during the Eisenhower administration. When President Eisenhower took office, the Republican Party requested a list of government positions that President Eisenhower could fill. The next edition of the Plum Book appeared in 1960 and has since been published every four years, just after the Presidential election.

The authors examine U.S. Air Force civilian compensation for hard-to-

fill and mission critical occupations, comparing it with other federal agencies and the private sector and providing recommendations for recruiting and retaining civilian talent.

Is the Federal Government's General Schedule (GS) a Viable Personnel System for the Future?

In response to a congressional request, GAO analyzed an Office of Personnel Management (OPM) report on pay for performance in the federal government. In reviewing the report, GAO compared it with information it developed in a 2-year analysis of merit pay in three government departments. GAO generally disagreed with the OPM conclusions. It found that the studies and analyses OPM cited as the basis for its conclusions were either not current or could not be projected to a government-wide merit pay program. The attitudinal survey used for the OPM study took place before merit pay was fully implemented and the actual merit pay experiences cited by OPM were either from agencies that implemented merit pay a year earlier or from OPM merit pay

experience. GAO identified many areas of the merit pay system that need management attention as well as negative employee perceptions and attitudes toward the systems in effect. GAO found that, while merit pay may provide greater rewards for employees rated above average in a particular merit pay pool, these rewards are not always equitable and proportionate when comparing increases between pools. In the agencies which GAO reviewed, 7 percent or fewer employees wanted to retain the merit pay system as implemented. GAO stated that it may take a few more years of operation, evaluation, and adjustment before the positive and negative aspects of a merit pay system and the feasibility of extending it to all federal employees can be adequately determined.

Personnel Literature

The Standards of Conduct Office of the Department of Defense General Counsel's Office has assembled an "encyclopedia" of cases of ethical failure for use as a training tool. These are real examples of Federal employees who have intentionally or

unwittingly violated standards of conduct. Some cases are humorous, some sad, and all are real. Some will anger you as a Federal employee and some will anger you as an American taxpayer. Note the multiple jail and probation sentences, fines, employment terminations and other sanctions that were taken as a result of these ethical failures. Violations of many ethical standards involve criminal statutes. This updated (end of 2009) edition is organized by type of violations, including conflicts of interest, misuse of Government equipment, violations of post-employment restrictions, and travel.

Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations for 2016

Taxpayers deserve the very best from public services, and first-rate public services can only be provided by outstanding government workers. Federal human resource managers face the challenge of attracting and retaining high-caliber individuals within the constraints of ever-tightening budgets and

often-conflicting political directives. From a talent management perspective, *Optimizing Talent in the Federal Workforce* explores:

- Best practices for recruiting and selecting employees
- Proven methods for developing and training employees
- Optimal deployment and placement processes.

This text is a must-read for anyone in or working toward a government management position.

[Analysis of OPM's Report on Pay for Performance in the Federal Government](#)

Analysis of OPM's Report on Pay for Performance in the Federal Government:

1980-1982
[Washington Information Directory 2013-2014](#)

In 2013, about 1.6 million employees (about 80% of the government's civilian white-collar workforce) were covered by the General Schedule (GS) classification system -- the federal government's system for defining and organizing federal positions, primarily to assign rates of pay.

Almost since its inception in 1949, questions have been raised about the ability of the GS system to keep pace with the evolving nature of government work. This report examined: (1) the

attributes of a modern, effective classification system and how the GS system compares with the modern systems' attributes; (2) trends in agencies and occupations covered by the GS system and the pay difference for selected alternative systems; and (3) the Office of Personnel Management's (OPM's) administration and oversight of the GS system. Figures. This is a print on demand report.
