 "Play and language are both important learning tools for the prekindergarten child. Through play and language, they learn about their world and about themselves. Play and language are also the most important tools for early literacy learning. Think of the young child who takes a memo pad and marker around to family members, 'taking orders' for dinner. Like all emergent readers and writers, this child makes no distinction between play and literacy -- both involve curiosity,

excitement, learning, and discovery. In Literacy Beginnings, Gay Su Pinnell and Irene Fountas bring their characteristically rich, comprehensive, and practical insights to the frontier of early literacy. They show you how to tap into young children's curiosity to introduce them to the world of literacy in joyful, engaging ways. Based on their many experiences in real prekindergarten classrooms they demonstrate how to: create a classroom community that is play-based, but that also prepares children for the literary-rich world in which they live, promote constructive learning through inquiry, recognize the language and literacy behaviors and understandings that are appropriate instructional goals for preschoolers, use powerful and playful ways to guide children to learn about letters, sounds, and words, [and] support

emergent readers and writers through an array of literacy activities"--Back cover.

Matching Books to Readers Teaching Resources

This resource-rich book includes planning and instructional tools, prompts, discussion starters, teaching points, intervention suggestions, and more to support all students. Plus, an online resource bank with downloadables and videos. Jan Richardson's latest thinking on Guided Reading helps teachers take the next step forward to pinpoint instruction that supports every reader. Richardson uses the Assess-Decide-Guide framework to take a deep dive into each guided reading stage, covering PreA to Fluent readers, their needs, and the best ways to support and challenge them. A master reading teacher at all levels, Richardson skillfully addresses all the factors that

make or break guided reading lessons: support for striving readers, strategies for reaching ELLs, making home-school connections--all with an unwavering focus on reading for deeper comprehension, to develop thoughtful, independent readers. The book includes dozens of must-have record-keeping, assessment, and reference forms, as well as how-to video links that provide show Jan in action with diverse readers.

Reading fluency has been identified as a key component of proficient reading. Research has consistently demonstrated significant and substantial correlations between reading fluency and overall reading achievement. Despite the great potential for fluency to have a significant outcome on students' reading achievement, it continues to be not well understood by teachers, school administrators and policy makers. The chapters in this volume examine reading fluency from a variety of perspectives. The initial chapter sketches the history of fluency as a literacy instruction component. Following chapters examine recent studies and approaches to reading fluency, followed by chapters that explore actual fluency instruction models and the impact of fluency instruction. Assessment of reading fluency is critical for monitoring progress and identifying students in need of intervention. Two articles on assessment, one focused on word recognition and the other on prosody, expand our understanding of fluency measurement. Finally, a study from Turkey explores the relationship of various reading competencies, including fluency, in an integrated model of reading. Our hope for this volume is that it may spark a renewed interest in research into reading fluency and fluency instruction and move toward making fluency instruction an even more integral part of all literacy instruction.

"We have never seen teachers work harder than we do now. These tools inspire kids to work as hard as we are." -Kate

Roberts and Maggie Beattie Roberts

What's DIY Literacy? It's making your own visual teaching tools instead of buying them. It's using your teaching smarts to get the most from those tools. And it's helping kids think strategically so they can be DIY learners. "Teaching tools create an impact on students' learning," write Kate Roberts and Maggie Beattie Roberts.

"They help students hold onto our teaching and become changed by the work in the classroom." Of course, you and your students need the right tools for the job, so first Kate and Maggie share four simple, visual tools that you can make. Then they show how to maximize your instructional know-how with suggestions for using the tools to: make your reading and writing strategies stick motivate students to reach for their next learning goal differentiate instruction simply and quickly. Kate and Maggie are like a friendly, handy neighbor. They offer experience-honed advice for using the four tools for assessment, small-group instruction, conferring, setting learning goals, and, most important, helping students learn to apply strategies and make progress without prompting from you. In other words, to do it themselves. "It is our greatest hope," write Kate and Maggie, "that the tools we offer here will help your students to work hard, to hold onto what they know, and to see themselves in the curriculum you teach."

Try DIY Literacy and help your readers and writers take learning into their own hands.

Stages of Reading Development

Greenwood International

READ 180 is a comprehensive reading intervention program designed to meet the needs of elementary to middle school students whose reading achievement is below the proficient level. The program directly addresses individual needs through differentiated instruction, adaptive and instructional software, high-interest literature, and direct instruction in reading, writing, and vocabulary skills.

Stage A provides tools for young struggling readers in elementary school to develop critical literacy skills. Stage B provides middle school struggling readers with topics designed for their level of reading that hold their interest. System 44 was designed for the most challenged, older struggling readers, and helps these students understand that the English language is a finite system of 44 sounds and 26 letters that can be mastered. It uses validated assessment for screening and placement, research-based phonics instruction and highly motivating and age-appropriate adaptive technology.

Assessment System 1 Heinemann Educational Books

For ten years and in two classic books, Irene Fountas and Gay Su Pinnell have described how to analyze the characteristics of texts and select just-right books to use for guided reading instruction. Now, for the first time, all of their thinking and research has been updated and brought together into *Leveled Books, K-8* to form the ultimate guide to choosing and using books from kindergarten through middle school. Fountas and Pinnell take you through every aspect of leveled books, describing how to select and use them for different purposes in your literacy program and offering prototype descriptions of fiction and nonfiction books at each level. They share advice on: the role of leveled books in reading instruction, analyzing the characteristics of fiction and nonfiction texts, using benchmark books to assess instructional levels for guided reading, selecting books for both guided and independent reading, organizing high-quality classroom libraries, acquiring books and writing proposals to fund classroom-library purchases, creating a school book room. In addition, Fountas and Pinnell explain the leveling process in detail so that you can tentatively level any appropriate book that you want to use in your instruction. Best of all, *Leveled Books, K-8* is one half of a new duo of resources that will change how you look at

leveled books. Its companion-www.FountasandPinnellLeveledBooks.com -is a searchable and frequently updated website that includes more than 18,000 titles. With *Leveled Books, K-8* you'll know how and why to choose books for your readers, and with www.FountasandPinnellLeveledBooks.com, you'll have the ideal tool at your fingertips for finding appropriate books for guided reading.
