 This book argues that we are undergoing a transition from industrial capitalism to a new form of capitalism - what the author calls 'cognitive capitalism' & 'regeneration through violence'.

 Despite the importance of the concept of hope in human affairs, psychoanalysts have long had difficulty accepting responsibility for the manner in which their various interpretive orientations and explanations of therapeutic action express their own hopes for their patients. In *Objects of Hope: Exploring Possibility and Limit in Psychoanalysis*, Steven Cooper remedies this longstanding lacuna in the literature, and, in the process, provides a thorough comparative analysis of contemporary psychoanalytic models with respect to issues of hope and hopefulness. Cooper's task is challenging, given that the most hopeful aspects of human growth frequently entail acceptance of the destructive elements of our inner lives. The analysis of hope,

then, implicates what Cooper sees as a central dialectic tension in psychoanalysis: that between psychic possibility and psychic limit. He argues that analysts have historically had difficulty integrating the concept of limit into a treatment modality so dedicated to the creation and augmentation of psychic possibility. And yet, it is only by accepting the realm of limit as a necessary counterpoise to the realm of possibility and clinically embracing the tension between the two realms that analysts can further their understanding of therapeutic process in the interest of better treatment outcomes. Cooper persuasively demonstrates how each psychoanalytic theory provides its own logic of hope; this logic, in turn, translates into a distinctive sense of what the analyst may hope for the patient, and what the patient is encouraged to hope for himself or herself. *Objects of Hope* brings ranging scholarship and refreshing candor to bear on the knotty issue of what can and cannot be achieved in the course of psychoanalytic therapy. It will be valued not only as an exemplary exercise in comparative psychoanalysis, but also as a thoughtful, original effort to place the vital issue of hope at the center of clinical concern.

Russian literature between 1750 and the romantic age presents a confusing picture. Various literary movements arose and existed side by side, while new trends made themselves felt. At no other time in the history of Russian literature was there a similar influx of widely disparate literary and intellectual influences from the West. The complex evolution of literature is reflected in the area of literary classification. Period terms have been used in great variety, yet without general agreement as to the extent, or even the nature of the trends described. The essays of this study are devoted to two major literary trends of the 18th and early 19th century, -sentimentalism and preromanticism. They aim to elucidate their evolution as well as at defining and describing the conceptual framework on which they rest. Since the 18th century did not draw a sharp line between translated and original literature, both have been included here. Literary, philosophical, and general cultural influences from the West were of considerable importance for Russian literature. The concepts, motifs and themes which reached Russian writers in translations moulded their own original works. The 18th century witnessed the formation of an adequate literary language which culminated in Karamzin's style. The distinction of two stages in the development of sentimentalism as suggested here and the differentiation between both of them and a third literary trend, preromanticism, is an attempt to reflect adequately the rapid change in stylistic and poetic norms.

National Book Award Finalist: A study of national myths, lore, and identity that "will interest all those concerned with American cultural history" (American Political Science Review). Winner of the American Historical Association's Albert J. Beveridge Award for Best Book in American History In *Regeneration Through Violence*, the first of his trilogy on the mythology of the American West, historian and cultural critic Richard Slotkin demonstrates how the attitudes and traditions that shape American culture evolved from the social and psychological anxieties of European settlers struggling in a strange new world to claim the land and displace Native Americans. Using the popular literature of the seventeenth, eighteenth, and early nineteenth centuries—including captivity narratives, the Daniel Boone tales, and the writings of Hawthorne, Thoreau, and Melville—Slotkin traces the full development of this myth. "Deserves the careful attention of everyone concerned with the history of American culture or literature."—Comparative Literature "Slotkin's large aim is to understand what kind of national myths emerged from the American frontier experience. . . . [He] discusses at length the newcomers' search for an understanding of their first years in the New World [and] emphasizes the myths that arose from the experiences of whites with Indians and with the land."—Western American Literature

Faith Sinclair never missed a shot--or a kill. But when the mysterious man she knew only as Santiago was in her sniper's

sights, the game changed. It had to. She couldn't kill him in cold blood. Not the father of her unborn baby. Sheik Omair Al Arif's mind was on one thing: revenge. The undercover king didn't bargain on an intoxicating enemy bent on foiling his plans. And when the two would-be foes joined forces, they discovered nothing was as it seemed--their identities, their missions and especially the flames burning between them.

'One day there is life . . . and then, suddenly, it happens there is death.' So begins Paul Auster's moving and personal meditation on fatherhood. The first section, 'Portrait of an Invisible Man', reveals Auster's memories and feelings after the death of his father. In 'The Book of Memory' the perspective shifts to Auster's role as a father. The narrator, 'A', contemplates his separation from his son, his dying grandfather and the solitary nature of writing and story-telling.
