## STONE LEWIS

---

OEuvres Complètes de H. de Balzac FriesenPress

The volume is a Festschrift offered to Charles Kannengiesser on the occasion of his 80th birthday and honours him for his numerous scholarly accomplishments. Its twenty-five contributions discuss some of the major issues pertaining to the reception and interpretation of the Bible in late antique Christianity and Judaism. They focus on the ways in which communities and individuals understood the Bible and interpreted its traditions to address their historical, social, and theological requirements. Since the Bible was by far the most important book during these centuries, a discussion of its influence in such contexts will illuminate significant aspects of the formation of western civilisation.

**History of Chess** Good Press

Qu'est-ce qui peut inciter sept générations de Blanchet à choisir un métier triste à mourir aux yeux du commun des mortels? Quelles sont leurs motivations fondamentales? La morosité ou la vitalité? L'appât du gain ou un souci insatiable de servir le prochain? Le respect de la tradition ou le goût du risque? La routine ou le désir de variété? La facilité ou les défis? Ou encore, au-delà des perceptions, est-ce la passion pour une profession vieille comme le monde et indispensable aux êtres humains?

**Union Boot and Shoe Worker** Multilingual Matters

History of Chess by H. J. R. Murray is widely regarded as the most authoritative and most comprehensive history of the game. Murray's aim is threefold: to present as complete a record as is possible of the varieties of chess that exist or have existed in different parts of the world; to investigate the ultimate origin of these games and the circumstances of the invention of chess; and to trace the development of the modern European game from the first appearance of its ancestor, the Indian chaturanga, in the beginning of the 7th century. The first part of the book describes

the history of the Asiatic varieties of chess, the Arabic and Persian literature on chess, and the theory and practice of the game of shatranj. The second part is concerned with chess in Europe in the Middle Ages, its role in literature and in the moralities, and with medieval chess problems, leading up to the beginning of modern chess and the history of the modern game through to the 19th century.

Le Jacquard BoD - Books on Demand

This book contains the English and French texts and a complete record of the genesis of each. Besides Comment C'est How It Is, O'Reilly has included L'Image and an excerpt from Comment C'est that was published later in another volume.

**Dictionnaire de Medecine Et de Chirurgie Pratiques** BRILL

This "Liber Amicorum" is published at the occasion of Judge Lucius Cafilisch's retirement from a distinguished teaching career at the Graduate Institute of International Studies of Geneva, where he served as Professor of International Law for more than three decades, and where he has also held the position of Director. It was written by his colleagues and friends, from the European Court of Human Rights, from universities all around the world, from the Swiss Foreign Affairs Ministry and many other national and international institutions. The "Liber Amicorum Lucius Cafilisch" covers different fields in which Judge Cafilisch has excelled in his various capacities, as scholar, representative of Switzerland in international conferences, legal adviser of the Swiss Foreign Affairs Ministry, counsel, registrar, arbitrator and judge. This collective work is divided into three main sections. The first section examines questions concerning human rights and international humanitarian law. The second section is devoted to the international law of spaces, including matters regarding the law of the sea, international waterways, Antarctica, and boundary and territorial issues. The third section addresses issues related to the peaceful settlement of disputes, both generally and with

regard to any particular means of settlement. The contributions are in both English and French.

**Patrologiae Cursus Completus: Series Latina** BRILL

Originally published in 1966, this book brings together papers dealing with the emergence and development of elites in sub-Saharan Africa among social categories ranging from farmers and women market traders through foremen and merchants to administrators and managers in government and industry. The authors analyse distinctive social characteristics and attitudes and the development of class consciousness.

L Inde Tamoule (In French) Routledge

"The different ways in which a language may be pronounced is not only a constant source of fascination for speakers and learners, but also a powerful symbol of regional identity. Using recordings of spontaneous speech by working-class speakers from an urban, industrial environment in northern France, Tim Pooley traces the development of the urban vernacular of the Lille area - often referred to as Chtimi - from a traditional patois to a variety of Regional French against the background of the social changes that have occurred in the speakers' lifetimes." "The result is, firstly, a study in sociolinguistic variation (both from the structural and sociolinguistic viewpoints); secondly, an analysis of language shift in a context where the obsolescent language is closely related to the dominant variety; and thirdly, a detailed analysis of the key features of the phonology and grammar of northern Regional French." "It is also one of the first studies concerned with France to show how network factors may influence speakers' use of French."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
