»Landor's Cottage« is a short story by Edgar Allan Poe, originally published in 1849. EDGAR ALLAN POE was born in Boston in 1809. After brief stints in academia and the military, he began working as a literary critic and author. He made his debut with the novel The Narrative of Arthur Gordon Pym of Nantucket in 1838, but it was in his short stories that Poe's peculiar style truly flourished. He died in Baltimore in 1849.

At a time when more and more of what people learn both in formal courses and in everyday life is mediated by technology, Learning Online provides a much-needed guide to different forms and applications of online learning. This book describes how online learning is being used in both K-12 and higher education settings as well as in learning outside of school. Particular online learning technologies, such as MOOCs (massive open online courses), multi-player games, learning analytics, and adaptive online practice environments, are described in terms of design principles, implementation, and contexts of use. Learning Online synthesizes research findings on the effectiveness of different types of online learning, but a major message of the book is that student outcomes arise from the joint influence of implementation, context, and learner characteristics

interacting with technology, not from technology alone. The book describes available research about how best to implement different forms of online learning for specific kinds of students, subject areas, and contexts. Building on available evidence regarding practices that make online and blended learning more effective in different contexts, Learning Online draws implications for institutional and state policies that would promote judicious uses of online learning and effective implementation models. This in-depth research work concludes with a call for an online learning implementation research agenda, combining education institutions and research partners in a collaborative effort to generate and share evidence on effective practices.

Stained glass, Symbolism, Decadence, Celtic mysticism, Art Nouveau and the Ballets Russes - all these elements claim a place in the definition of Harry Clarke. Born a century ago, this Dublin artist, son of an English father and an Irish mother, worked intensely at his art, as if conscious that death would overtake him at an early age. Clarke is now recognized internationally as a bizarre genius of his age, as the Irish Beardsley. This is the story of a questing soul with a complex imagination who produced prolifically and with outstanding originality. His skill and vision has not been equaled and this book is based on a study which won the 1984 CINO Art History Laureate and is richly illustrated, bringing the range and importance of Clarke's work to general attention. Perhaps no individual is more associated with the 20th century art deco revival than Russian-born French artist and designer, Erté. Although his talent spanned many creative fields, Erte is perhaps best-known for his theatre and fashion designs, which were often later translated into beautiful silkscreen prints. Few can fail to be charmed by *Symphony in Black*, one of his most famous designs depicting a slender figure walking her dog. Throughout his lifetime Erté designed over 200 covers for *Harper's Bazaar* and his works have been reproduced and copied countless times since, oozing a timeless air of class and sophistication. Combining fresh and thoughtful text and beautiful

illustrations, including jewellery and sculpture inspired by his two-dimensional designs, this coffee-table book is the definitive Erté companion.

René Lalique: Selections from the Steven and Roslyn Shulman Collection introduces the artistic innovations and legacy of renowned French Art Deco artist René Lalique. Born outside of Paris in 1860, Lalique was recognized as one of France's foremost Art Nouveau jewelry designers before turning to the material of glass in the early twentieth century. By the 1920s, Lalique's glass artwork embraced the new ideas and technologies that swept the United States and Europe. He brought an artistic aesthetic to new industries such as automotive and electrical products, as well as to new clientele including the rising middle class and the increasingly independent female consumer. His legacy has influenced subsequent generations of designers and artists, in particular contemporary artists working in the medium of glass. Lalique's considerable imagination and eye for design is evident in the Steven and Roslyn Shulman Collection, one of the most comprehensive selections of Lalique glass in the United States. The collection features perfume bottles, vases, automobile mascots, and a wealth of other objects that exemplify the Art Deco style and celebrate Lalique's sense of design.

For two centuries, *Gesamtkunstwerk*—the ideal of the “total work of art”—has exerted a powerful influence over artistic discourse and practice, spurring new forms of collaboration and provoking debates over the political instrumentalization of art. Despite its popular conflation with the work of Richard Wagner, *Gesamtkunstwerk*'s lineage and legacies extend well beyond German Romanticism, as this wide-ranging collection demonstrates. In eleven compact chapters, scholars from a variety of disciplines trace the idea's evolution in German-speaking Europe, from its

foundations in the early nineteenth century to its manifold articulations and reimaginings in the twentieth century and beyond, providing an uncommonly broad perspective on a distinctly modern cultural form.
