Cardiovascular disease (CVD) is the leading cause of morbidity and mortality in the United States and most westernized nations. Both CVDs and their risk factors confer substantial risk for stroke and dementia, but are also associated with more subtle changes in brain structure and function and cognitive performance

prior to such devastating clinical outcomes. It has been suggested that there exists a continuum of brain abnormalities and cognitive difficulties associated with increasingly severe manifestations of cardiovascular risk factors and diseases that precede vascular cognitive impairment and may ultimately culminate in stroke or dementia. This second edition examines the relations of a host of behavioral and biomedical risk factors, in addition to subclinical and clinical CVDs, to brain and cognitive function. Associations with dementia and

pre-dementia cognitive performance are reported, described, and discussed with a focus on underlying brain mechanisms. Future research agendas are suggested, and clinical implications are considered. The volume is a resource for professionals and students in neuropsychology, behavioral medicine, neurology, cardiology, cardiovascular and behavioral epidemiology, gerontology, geriatric medicine, nursing, adult developmental psychology, and for other physicians and health care professionals who work with patients with, or at risk for, CVDs.

The Italian neoavanguardia, a literary and

artistic movement characterized by a strong push towards experimentation, playfulness, and new forms of language usage, was founded at the beginning of the 1960s by a group of poets, critics, artists, and composers. Although the neoavanguardia movement has been primarily defined and examined in a literary context, it is broadly discussed in this collection as also affecting other artistic forms such as the visual arts, music, and architecture. In examining this often controversial movement, Neoavanguardia's contributors include topics such as critical-theoretical debates, the crisis of literature as defined within the movement, and issues of gender in 1960s Italian art and literature. This important collection interrogates the arts as creative codes, their ability to question reality, and their capacity to survive. In so doing, it paves the way for future interdisciplinary investigations of this complex cultural formation.

Creativity loosely refers to activities in the visual arts, music, design, film and performance that are primarily intended to produce forms of affect and social

meaning. Yet, over the last few decades, creativity has also been explicitly mobilized by governments around the world as a 'resource' for achieving economic growth. The creative economy discourse emphasizes individuality, innovation, self-fulfillment, career advancement and the idea of leading exciting lives as remedies to social alienation. This book critically assesses that discourse, and explores how political shifts and new theoretical frameworks are affecting the creative economy in various parts of the world at a time when creative industries are becoming increasingly 'industrialized.' Further, it highlights how work inequalities, oligopolistic strategies, competitive logics and unsustainable models are inherent weaknesses of the industrial model of creativity. The interdisciplinary contributions presented here address the operationalization of creative practices in a variety of geographical contexts, ranging from the UK, France and Russia, to Greece, Argentina and Italy, and examine issues concerning art biennials, museums, DIY cultures, technologies, creative writing, copyright laws, ideological formations,

craft production and creative co-ops.

The Encyclopedia of Italian Literary Studies is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars. *Ocean Sea* libreriauniversitaria.it ed.

From one of Italy's most brilliant and most inventive writers comes the story of two visionaries of the mid-nineteenth century and a tale of angry visions, confused emotions and fantastic ambitions. Hector Horeau is an architect with a fantastical notion of whole cities made of glass, and Mr Rail has imagined sheets of glass larger than anyone thinks they will ever need. It is 1849, and the Great Universal Exposition has announced a competition. Together Horeau and Rail build a palace more beautiful than any before...

"The crazy life and courageous death of a man who loved women too much to want only one." Don Juan is a passionate lover of life and nearly 1,000 women. One night, the Commendatore of Calatrava catches him kissing his daughter, and challenges

him to a duel. Don Juan wins the duel, which of course means that the Commendatore is slain-and so begins the end for the incorrigible seducer. Dave Eggers says, of the series: "I couldn't be prouder to be a part of it. Ever since Alessandro conceived this idea I thought it was brilliant. The editions that they've complied have been lushly illustrated and elegantly designed."

The secular and the pious. The rich and the poor. Those with "a capacity for destiny" and those who "cannot afford it." Emmaus is a world of stark contrasts, one in which four young men—all from proud, struggling families, and all lusting after Andre, a hyper- sexual woman—are goaded from adolescence to manhood in a torrent of exploits and crises, sexual awakenings and morbid depressions, naivety and fatalism. A brilliant portrait of the perils and uncertainties of youth and faith, Emmaus is a remarkable novel from one of the very best writers in Europe.

*Encyclopedia of Italian Literary Studies: A-J* BRILL

The Young Bride is a scintillating and sensual novel about a young woman's

ingress into a fantastically strange family. The hand of the young woman in question has been promised to the scion of a noble family. She is to make her preparations for marriage at the family's villa, where the inhabitants never seem to sleep. The atmosphere turns surreal as the days pass and her presence on the family estate begins to make itself felt on her future in-laws. Internationally bestselling novelist Alessandro Baricco portrays a cast of mysterious characters whose lives and every act seem to exist beyond the rules of causation as he tells a story about fate and the difficult job of confronting the Other and creating an Us.

Le XXe siècle a vu une intense modification des notions d'espace et de temps, l'un se temporalisant, l'autre se spatialisant. Ces contributions veulent montrer les relations entre la littérature et un espace d'autant plus concret qu'il est fragmentaire et multiple, c'est-à-dire pluriel. Théories, tensions, perte d'un référent, imaginaire, genres d'espaces et littérature générale sont abordés.

Il talento di raccontare storie di Baricco alla sua prima prova. Il titolo nasce dalla rabbia dell'autore e dai castelli del sogno di un bambino. Il romanzo è ambientato nell'Ottocento, in una cittadina immaginaria, Quinnipak; è generoso nel presentare storie e personaggi, ciascuno con i suoi sogni e caratteri. E tra questi ci sono il signor-re e la signora Rail, che si

amano di un amore tutto loro, e il bambino Penth con il suo amico Pekisch, e due bande che partono dagli estremi del paese per incontrarsi. La narrazione è costruita come un montaggio cinematografico e orchestrata come una partitura musicale, che lascia il senso del piacere dell'ascolto."- Allora, non c'è nessuno qui?... Brath!... Ma che canchero, sono diventati tutti sordi quaggiù... Brath!- Non strillare, ti fa male strillare, Arold.- Dove diavolo ti eri cacciato... è un'ora che sto qui a...- Il tuo calesse è a pezzi, Arold, non dovresti andare in giro così? Lascia perdere il calesse e prendi 'sta roba piuttosto-sto...- Cos'è?- Non lo so cos'è, Brath... che ne so io... è un pacco, un pacco per la signora Rail...- Per la signora Rail?- È arrivato ieri sera... Ha l'aria di venire da lontano..."

The author of the international bestseller *Silk* now delivers a ravishing and wildly inventive novel about friendship, genius and its discontents, and the redemptive power of narrative. Somewhere in America lives a brilliant boy named Gould, an intellectual guided missile aimed at the Nobel Prize. His only companions are an

imaginary giant and an imaginary mute. Improbably—and yet with impeccable logic—he falls into the care of Shatzy Shell, a young woman whose life up till that point has been equally devoid of human connection. Theirs is a relationship of stories and of stories within stories: of Gould's evolving saga of an underdog boxer and the violent Western that Shatzy has been dictating into a tape recorder since the age of six. Out of these stories, Alessandro Baricco creates a masterpiece of metaphysical pulp fiction that recalls both Scheherazade and Italo Calvino. By turns exhilarating and deeply moving, *City* is irresistible.

Drawing on the recent renewal of interest in the debate on orality and literacy this book investigates the varying perceptions and representations of orality in contemporary Italian fiction, providing a fresh perspective on this rich and fast-developing debate and on the study of the Italian literary language. The book brings together a number of complementary approaches to orality from the fields of

linguistics, literary and media studies and offers a detailed analysis of a broad variety of authors and texts that appeared over the last three decades - ranging from internationally acclaimed writers such as Celati, Duranti and Tabucchi, through De Luca and Baricco, to the latest generation of writers, such as Campo, Ballestra and Nove. By exploring the complementary facets of Italian orality, and its diachronical developments since the seventies, this study questions the traditionally dichotomic approach to the study of orality and literacy and posits a more flexible, cross-modal approach that accounts for the increasing hybridisation of text forms and media and for the greater interaction between the spoken and the written as well as their representations.

The year is 1861. Hervé Joncour is a French merchant of silkworms, who combs the known world for their gemlike eggs. Then circumstances compel him to travel farther, beyond the edge of the known, to a country legendary for the quality of its silk and its hostility to foreigners: Japan. There Joncour meets a woman. They

do not touch; they do not even speak. And he cannot read the note she sends him until he has returned to his own country. But in the moment he does, Joncour is possessed.

Isn't translation all about saying exactly the same thing in another language?  
Aren't national images totally outdated in

this era of globalization? Most people might agree but this book amply illustrates how persistent and multifaceted clichés on translation and nation can be. Time and again, translating involves making transfer choices and these choices are never neutral. Though globalization has seemingly all but erased national ideologies and cultural borders, such ideologies and borders continue to play a determining role in conflicts, identity politics and cultural profiles. The place where transfer choices and forms of national and cultural representation come together is also the place where Translation Studies and Imagology meet. This book offers a wealth of chapters showing how decisive selection and

transfer processes can be in representing national images, both self-images and images of the other(s). It shows also how intensely the two disciplines can work together and mutually benefit from shared data and methodologies.

 A Quinnipak c'è una locomotiva di nome Elizabeth, la locomotiva del signor Rail. A Quinnipak si suona l'umanofono, lo strumento del signor Pekish. Quinnipak è un luogo dove chi vive o chi ci arriva ha una storia scritta addosso. Quinnipak è un luogo che invano cerchereste sulle carte geografiche. Eppure è là. Il libro è uscito per la prima volta nel 1991. Il libro che nel 1991 ha segnato l'esordio di Baricco come scrittore e che gli valse il Premio Selezione Campiello e Médicis Etranger.

Este volumen reúne una serie de ensayos que interrogan el misterio de la creatividad humana y su relación con el síntoma y el malestar psíquico. Un misterio que ha atravesado la historia del pensamiento desde Aristóteles hasta hoy, sin encontrar nunca una respuesta definitiva. Tomando como guía de viaje el psicoanálisis actual, el psiquismo creador nos abre sus puertas para mostrarnos una de sus más interesantes paradojas: la salida creadora nos habla de un sujeto tempranamente herido, pero poseedor, al mismo tiempo, de una energía psíquica capaz de llevar a cabo un singular proceso de reparación.
