This major reference work is the fourth volume in the series "Arthurian Literature in the Middle Ages". Its intention is to update the French and Occitan chapters in R.S. Loomis' "Arthurian Literature in the Middle Ages: A Collaborative History" (Oxford, 1959) and to provide a volume which will serve the needs of students and scholars of Arthurian literature. The principal focus is the production, dissemination and evolution of Arthurian material in French and Occitan from the twelfth to the fifteenth century. Beginning with a substantial overview of Arthurian manuscripts, the volume covers writing in both verse (Wace,

the Tristan legend, Chretien de Troyes and the Grail Continuations, Marie de France and the anonymous lays, the lesser known romances) and prose (the Vulgate Cycle, the prose Tristan, the Post-Vulgate Roman du Graal, etc.).

The Household Narrative of Current Events

Walter de Gruyter GmbH & Co KG
The monograph *Signs from Silence: Ur of the first Sumerians* tells the story of the Sumerian city of Ur at the beginning of the

third pre-Christian millennium (c. 2,900–2,700). In terms of research focusing on the emergence of one of the first statehood foci of human history—the pristine state of ancient Mesopotamia—the author takes up evidence on a critical phase of early Mesopotamian social development. At the beginning of the third pre-Christian millennium, the men and women of Ur took up actions that decided whether the material and spiritual heritage of the preceding Late Uruk cultural-development phase (c. 3,500–3,200), when the first state, organized religion, sciences and the arts had emerged in ancient Mesopotamia, will stand up to the test

of time, or whether it will vanish into thin air, as it happened in other civilizational complexes. The author has based his conclusions on the testimony of written texts, archaeology and iconography. Guided by this evidence, he portrays the ways and means by which the men and women of Ur treated the material and spiritual heritage of the Late Uruk civilization. Their activities defined the coordinates system within which the early Mesopotamian state subsequently developed through the nearly three millennia of its existence. Cambridge University Press
This volume constitutes a collection of over 40 articles selected from

contributions to the Sydney Symposium of January 2003 that - as a part of an International Sydney Festival - was one of the major events related to Samuel Beckett of the last decade. The three sections of the book reflect the most vibrant fields of research in Beckett studies today: Intertextuality and Theory, Philosophy and Theory and Textual Genesis, Contextual Genesis and Language. Scholars from all over the world participating in this collection testify to the durable and universal nature of interest in Beckett's work.

 D?at de S?rac
 (1872-1921) is best

known for his piano music but his compositions included orchestral and vocal works, including opera, cantata and incidental music. Claude Debussy described S?rac's music as "exquisite and rich with ideas." The early works were influenced by Impressionist harmonies, church modes, cyclic techniques, folk-like melodies and Andalusian motives. S?rac's style changed dramatically in 1907 when he left Paris and began to include Catalan elements in his compositions - a transition that has hitherto gone unrecognized. Robert Waters provides a much-needed study of the life and works of S?rac, focusing on the composer's regionalist

philosophy. S?rac's engagement with folk music was not a patriotic gesture in the vein of nationalistic composers, but a way of expressing regional identity within France to counter the restrictive styles sanctioned by the Paris Conservatory. His musical philosophy mirrored larger social and political debates regarding anti-centralist positions on education, politics, art and culture in fin de si?e France. Such debates involved political and social leaders whom S?rac knew and personally admired, including the writer Maurice Barr?and the poet Fr?ric Mistral. The book will appeal to those specializing in French music, European ethnic musics, piano music

and French music history.

The lack of evidence has proved to be the greatest obstacle involved in reconstructing the quaestorship and has probably discouraged scholars from undertaking a large-scale study of the office. As a consequence, a comprehensive study of the quaestorship has long been a desideratum: this book aims to fill this gap in the scholarship. The book contains a study of the quaestorship throughout the Roman Republic, both in Italy (particularly at Rome) and in the overseas provinces. It includes a history of the office, an analysis of its role

within the *cursus honorum* and its larger importance for the Roman constitution as well as the prosopography of all quaestors known during the Republican period based on the literary, epigraphic and numismatic evidence. The quaestorship was always an office for beginners who aspired to follow a political career and hence served as institutional entrance to the senate. Despite their youth, quaestors were endowed with functions of great significance at Rome and abroad, such as the control and supervision of Rome's finances. As the book shows, the quaestorship was a prominent and essential part of the Roman administration.

BRILL

This penultimate volume of Conrad's collected letters ends soon after his 65th birthday. Over the previous three years, Conrad wrote *The Rover*, struggled with *Suspense*, translated *The Book of Job* (a Polish comedy), collaborated with J. B. Pinker on a cinematic treatment of 'Gaspar Ruiz', and worked by himself on adapting *The Secret Agent* for

the London stage. He saw the publication of *The Rescue*, *Notes on Life and Letters*, and the Doubleday/Heinemann collected edition, most of whose volumes had new Author's Notes. Especially in North America, the collected edition strengthened his reputation as the leading English-language novelist of his day. This recognition could not always console him for his worries about his health, his family, and the state of post-war Europe, but he had not lost his sense of irony. These letters, the majority new to scholarship, abound in striking turns of phrase and unexpected insights.

Originally published in 1979, this concordance to *Heart of Darkness* is intended for use by the general student of Conrad who wants to determine the exact denotation and connotation of Conrad's vocabulary, or the patterns of imagery in his work, quickly and effortlessly. It prints under each word every logical context in which it occurs. This volume is part of a series which produced verbal indexes, concordances, and related data for all of Conrad's works.
