HOW IS THIS TOEFL BOOK DIFFERENT? This TOEFL book is different because it uses an integrated vocabulary learning system called recycling. Recycling is simple. Each exercise is divided into four quizzes. Quiz 1, a multiple-choice vocabulary quiz, introduces ten new words. Next, you will do Quiz 2, which is a sentence-completion quiz based on the ten words in Quiz 1. Next, you will do Quiz 3, a spelling quiz. The speaker in the audio will say the same ten words in turn. You will then have ten seconds to spell each word by saying it and typing it. Finally, you will do Quiz 4, which is a 60-word typing test based on the ten new words you have been recycling through Quizzes 1, 2 and 3, plus words, phrases and idioms recycled from previous exercises. **BONUS MATERIAL** Learn essential rhetorical strategies and a test-proven way to develop opinion-based and fact-based TOEFL essays.

Kaplan TOEFL iBT with CD-ROM Learning Express (NY) Prepares students to succeed on the TOEFL's Independent Task, the all-important essay question, and on the Integrated Task, which combines reading, listening, and writing skills. Model essays and model integrated tasks are included for students to read and analyze. Audio lectures typical of those presented on actual tests are included online

In *What on Earth Happened?*, Christopher Lloyd tells our story from the very beginning of time to the present day, taking giant narrative leaps across millennia and continents. Along the way, he explains exactly how Muslim conquest gave Spain its paella, how the Earth's collision with another young planet created the moon, how dragonflies the size of seagulls emerged out of the prehistoric waters, and how the Big Bang can be detected in your television. Accessible and endlessly entertaining, this massive book draws on disciplines as wide-ranging as astrophysics and anthropology and will appeal to experts, amateur enthusiasts and

the simply curious alike. Completed by 250 colourful photographs, maps, historic paintings, engravings and specially commissioned illustrations, *What on Earth Happened?* takes an entertaining and informed sideways look at the last 13.7 billion years in the life of our universe.

TOEFL iBT writing (REAL TEST) essays around the word. -

Collected by ETS staffs - Practice, Tricks or Tips are enough. It's

time for reading and learning how TOEFL candidates reached very

high scores in Writing Test. - Additionally, Writing topics could be

repeated several times each year. - The valuable papers for any

TOEFL candidates included all features of Academic Writing. +

Complexity Written language is relatively more complex than

spoken language. Written language has longer words, it is

lexically more dense and it has a more varied vocabulary. It uses

more noun-based phrases than verb-based phrases. Written texts

are shorter and the language has more grammatical complexity,

including more subordinate clauses and more passives. +

Formality Academic writing is relatively formal. In general this

means that in an essay you should avoid colloquial words and

expressions. + Precision In academic writing, facts and figures are

given precisely. + Objectivity Written language is in general

objective rather than personal. It therefore has fewer words that

refer to the writer or the reader. This means that the main

emphasis should be on the information that you want to give and

the arguments you want to make, rather than you. For that

reason, academic writing tends to use nouns (and adjectives),

rather than verbs (and adverbs). + Explicitness Academic writing

is explicit about the relationships in the text. Furthermore, it is

the responsibility of the writer in English to make it clear to the

reader how the various parts of the text are related. These

connections can be made explicit by the use of different signalling

words. + Accuracy Academic writing uses vocabulary accurately.

Most subjects have words with narrow specific meanings.

Linguistics distinguishes clearly between "phonetics" and

"phonemics"; general English does not. + Hedging In any kind of

academic writing you do, it is necessary to make decisions about

your stance on a particular subject, or the strength of the claims

you are making. Different subjects prefer to do this in different

ways. A technique common in certain kinds of academic writing is

known by linguists as a 'hedge'. + Responsibility In academic

writing you must be responsible for, and must be able to provide

evidence and justification for, any claims you make. You are also

responsible for demonstrating an understanding of any source

texts you use.
