Revenue Statistics 2007 Martinus Nijhoff Publishers Le redressement de l'Afrique subsaharienne</p>	<p>a été spectaculaire au cours des deux dernières décennies. Après de nombreuses années de déclin, l'économie du continent a commencé à reprendre de la vigueur au milieu des années 90. Grâce à cette croissance macroéconomique, la santé de la population s'est améliorée, le nombre des jeunes fréquentant l'école a augmenté, et le taux d'extrême</p>

pauvreté a diminué de 54 % en 1990 à 41 % en 2015. La région a connu moins de conflits (en dépit de ceux qui couvent dans certains pays et du nombre inquiétant des personnes déplacées), un élargissement des libertés politiques et sociales, et des progrès dans l'égalité hommes-femmes. Malgré ces avancées, les défis sont énormes. La croissance économique a ralenti au cours des dernières

années. Les taux de pauvreté affichés dans de nombreux pays sont les plus élevés du monde. Et la croissance démographique africaine provoque une augmentation du nombre des pauvres du continent. Au niveau mondial, on assiste à un déplacement de la pauvreté de l'Asie du Sud vers l'Afrique. La stabilité et la croissance macroéconomiques sont certes des composantes essentielles de la

réduction de la pauvreté et de l'amélioration du bien-être, mais elles ne sont pas suffisantes. Ce rapport explore les points d'entrée critiques et les domaines d'action prioritaires pour l'accélération de la réduction de la pauvreté en Afrique. Au-delà de la stabilité et de la croissance macroéconomiques, il cherche à savoir ce qui peut encore être fait et à identifier les

points sur lesquels les décideurs devraient se concentrer pour réduire la pauvreté. Un agenda des politiques favorable aux pauvres requiert de la croissance aux endroits où ceux-ci vivent et travaillent, ainsi que de s'attaquer aux nombreux risques auxquels les ménages sont exposés. En conséquence de quoi, le présent rapport a ajouté une optique « emplois » à son travail. Il

met carrément l'accent sur la productivité et les moyens de subsistance des pauvres et des personnes vulnérables, autrement dit sur ce qui est nécessaire pour accroître leurs revenus. Il s'attache enfin à la manière de financer l'agenda de lutte contre la pauvreté et de développement. *Dynamiques Juridiques Européennes* Éditions Larcier This book is a snapshot of the complex and

controversial issues in Canadian health policy that have been addressed in the mainstream media, including commentaries on our aging population, the sustainability of the healthcare system, the social determinants of health, essays on pharmaceutical policy, obesity, mental health and more. It is a compilation of op-eds published in Canadian

newspapers from 2014, authored by experts affiliated with the non-partisan, EvidenceNetw ork.ca. It is the third volume in the series of free ebooks, which also includes: Canadian Health Policy in the News (2013) and Making Evidence Matter in Canadian Health Policy (2014) — all made available for free so that they may be read and used widely in educational settings.

Essays in the volume are timely, balanced, free from partisan influence and put evidence at the forefront. Top Incomes in France in the Twentieth Century OECD Publishing

Appearing here in English for the first time, this stunning achievement will take its place alongside Capital in the Twenty-First Century as a modern classic of economic analysis. of Piketty's unprecedented efforts to uncover, untangle, and present in clear form data about patterns in tax and inheritance in France dating back to 1900. But it is also an exceptional work of analysis, tracking and explaining with Piketty's characteristically lucid prose the effects of political conflict, war, and social change on the economic pressures and public policies that determined

the lives of millions. A work of unusual intellectual power and ambition, *Top Incomes in France in the Twentieth Century* is a vital resource for anyone concerned with the economic, political, and social history of France, and it is central to ongoing debates about social justice, inequality, taxation, and the evolution of capitalism around the world. Legitimate expectations in

Luxembourg tax law OECD Publishing "Switzerland has recently witnessed an unprecedented level of tax treaty negotiations. Although this is a direct result of Switzerland's revised position regarding exchange of information, a number of contracting states have taken this opportunity to modify tax treaty benefits and/or clarify certain aspects of tax treaty interpretation and

application. These are considered extensively in this edition. As Switzerland has steadily aligned itself with international principles of international taxation, the self-imposed anti-abuse rules for the application of tax treaties have become less relevant. Nevertheless, Swiss courts have become more creative in determining where there is and where there is not treaty abuse. As a result, the 1962 Abuse Decree is making way for a more complex basket of anti-abuse rules and regulations"-- Foreword (page vii). *Petroleum Rent Collection Around the World* OECD Publishing This volume examines the tax systems of some twenty countries to determine whether their tax laws are used to support growth and development across borders in lower-income and poor countries.

Given the critical economic development needs of poorer countries and the importance of stability in these regions to the security of populations throughout the world, the use of a country's tax laws to support investment in the developing world gains crucial significance. This book explores whether international standards promoting the fundamental

values of the major tax systems of the world accommodate incentives for these nations. In addition, it analyzes the way in which adoption of principles by higher income nations to protect their own revenue bases has a spill-over effect, impairing the ability of developing countries to sustain their economies. Following an introduction that synthesizes worldwide trends, the volume

contains separate chapters for a variety of countries detailing the underlying goals and values of each system and the way in which the decision to employ (or not employ) incentives accommodate s those ends. The chapters include reports for: Australia, Belgium, Brazil, Croatia, Czech Republic, France, Hong Kong, Israel, Italy, Japan, the Maldives, the Netherlands,

Poland, Portugal, South Africa, Uganda, United Kingdom, United States, and Venezuela. The volume memorializes the work of the General Reporter and National Reporters at the Taxation and Development session of the 19th Congress of the International Academy of Comparative Law held in July, 2014, in Vienna, Austria.

This book is the result of a 4-year research project conducted at the Faculty of Law of the University of Luxembourg. It explores the legal value and enforceability of tax circulars and tax rulings in Luxembourg domestic law in light of the principle of legitimate expectations and related principles. After studying the historical roots of both interpretative acts, this research questions the

level of protection taxpayers enjoy when relying on circulars and tax rulings and contains a review of decades of administrative case-law to assess the judicial discourse on taxpayers' rights to certainty. This book further investigates the case of circulars and tax rulings that contain interpretations of tax laws that are contrary to the law (contra legem) and builds upon the

existing normative framework to introduce proposals addressing issues of uncertainty and inequality taxpayers are likely to suffer when relying on such interpretative acts. This book

gathers together contributions from thirty-two former and current professors who have, through their teaching in the Legal Studies Department at the College of Europe, enhanced the College's reputation as an authentic European academic postgraduate centre of excellence. Within their areas of specialisation the authors analyse both the evolution of European law over the

years and more specific questions. The contributions cover institutional/constitutional law, judicial remedies, the law governing the internal market and its accompanying politics, competition law, and the law of the Union's external relations. Cet ouvrage rassemble les contributions de trente-deux professeurs, anciens et actuels, du département d'études juridiques

européennes du Collège d'Europe. Par leur enseignement, ceux-ci ont assuré à cette institution, originale par sa dimension européenne, sa reconnaissance en tant que centre académique post-universitaire d'excellence. Les auteurs analysent, chacun dans sa spécialité, l'évolution du droit européen ou des questions plus particulières. Les contributions couvrent ainsi le droit

institutionnel/constitutionnel, le contentieux, le droit du marché intérieur et de ses politiques d'accompagnement, le droit de la concurrence et le droit des relations extérieures de l'Union européenne. *Navigating the Evidence* OECD Publishing Contains a directory of all the organizations affiliated with the I.F.T.U. and the International Trade Secretaries.
