Hearings Passbooks

Air Pollution Control Law provides explanation of the legislative provisions, regulatory requirements, and court decisions that comprise the body of air pollution control law.

Proceedings and Papers of the Annual Conference of the California Mosquito and Vector Control Association National Learning Corporation

This book provides the reader with an overview of the evolution of career and technical education in California over the 20th century and some insight as to its strengths and weaknesses as well as the challenges it faces in the new millennium. This book delves into why career and technical education/vocational education are so important and needed in California's public schools. Among the things it looks at are "What is vocational education?" "What are the benefits of vocational education, and in particular, to the student?" and "Why does California need vocational education?" Section one of this book discusses the historical foundation of career and technical education in California starting from the beginning of 1900 to 2000. Section two contains research on the 21st century workforce and the community college's CTE programs and role in the

economy. This book provides a forum and voice for scholars in California. It allows us to learn and understand how career and technical education was viewed at the beginning of its foundation, its curriculum, and its impact on the California labor force today. It also looks at the labor market disadvantages we are facing due to lack of proper structures in the CTE programs across the State.

Oversight of Clean Air Act Implementation Environmental Law Institute

The authors describe the creation and evolution of the New Leader Scholarship Program that seeks committed scholars from marginalized groups who attend Bay Area public universities. These future leaders come from a wide range of disenfranchised groups and are individuals seeking social justice who are strong, risk tolerant, resilient yet need help.

Research in Education Createspace Independent Publishing Platform

The Cal/OSHA Pocket Guide for the Construction Industry is a handy guide for workers, employers, supervisors, and safety personnel. This latest 2011 edition is a quick field reference that summarizes selected safety standards from the California Code of Regulations.
