The debut cookbook by the creator of the wildly popular blog Damn Delicious proves that quick and easy doesn't have to mean boring. Blogger Chungah Rhee has attracted millions of devoted fans with recipes that are undeniable 'keepers'-each one so simple, so easy, and so flavor-

packed, that you reach for them busy night after busy night. In Damn Delicious, she shares exclusive new recipes as well as her most beloved dishes, all designed to bring fun and excitement into everyday cooking. From five-ingredient Mini Deep Dish Pizzas to no-fuss Sheet Pan Steak & Veggies and 20-minute Spaghetti Carbonara, the recipes will help even the most inexperienced cooks spend less time in the kitchen and more time around the table. Packed with quickie breakfasts, 30-minute skillet sprints, and speedy takeout copycats, this cookbook is guaranteed to

inspire readers to whip up fast, healthy, homemade meals that are truly 'damn delicious!'

NATURAL & ORGANIC SOAP MAKING

ALCHEMY Hobby to a Successful

Homebased Business After my teenage

son's acne disappeared by using a

homemade organic soap that one of my

friends had made, I got interested in the

chemistry of soap making. I researched,

watched, practiced and learned everything

there is to know about soap making at

home. My goal initially was not only to

learn how to make soap but the real chemistry of soap making, what makes soap a soap, why and what are natural and organic soaps and which aren't. After about six months of hard practice and after many trial and error, I mastered the craft of soap making at home. As you will read, a good friend of mine introduced me to the art of soap making at first, but I was very intrigued by her home-based soap business. She makes a decent income just by selling soaps from her home. Once I mastered the craft, I started making a wide variety of soaps and then I slowly started getting into selling my creations. I am happy to report that I too have a decent side income from selling my soaps locally. In this book, I show how to make all natural and organic soaps the right way from the very first try. I also share how you can have a mini home based business from this beautiful new found hobby of yours. Here is What You Will Learn. History of Soaps When Soap isn't a Soap Types of Soaps Natural vs. Organic Soaps How to Identify Organic Soaps Melt and Pour Soap Making Process Cold Process Soap Making Process The Hot Process Method The Re-Batch Method Detail List of Equipment You

Will Need Soap Making Ingredients You Will Need How and Where to Find Supplies How to Add Designer Fragrance on a Budget How to Add Scent to Soap What Essential Oils are Good for Soap Making How to Add Vibrant Color to Your Soap Understanding the Color Basics & Color Wheel How to Use Color Wheel to Create New & Vibrant Colors Soap Making Recipes How to Start a Soap Making Business How to Develop and Test Your Products How to Come up with the Right Pricing How to Wholesale your Products How to Make it all Profitable How to Find Customers and Sales The FDA Requirements on Soap Labels Marketing & Sales In Appendix, I also Shared a Full Saponification Chart Enjoy your new found hobby!

HarperCollins

ULTRA Powerful Pest and Disease Control Solution Make all-Natural Pesticide. Farm at \$100 per acre a year. Everything you

need to know to: Go completely organic Boost quality and yield Save huge, huge, HUGE costs Make all-natural fertilizer, pesticide, and microorganism inputs yourself. JADAM's ultimate objective is to bring farming back to farmers. Through JADAM's method, farming can become ultra-low-cost, completely organic, and farmers can once again become the masters of farming. Farmers will possess the knowledge, method, and technology of farming. When organic farming becomes easy, effective, and inexpensive, it can finally become a practical alternative. Farmers, consumers, and Mother Nature will all rejoice in this splendid new world we wish to open. You will learn many useful new methods including increasing microbial diversity and population, boosting soil minerals, tackling soil compaction, reducing salt levels, raising soil fertility, and more. This book also shows you how to make natural pesticides that can replace chemical ones. He started organic farming and raised animals himself from 1991 in Asan, Chungnam province. He went on to establish "Jadam Organic Farming" and started to promote this farming system through books and

website ([www.jadam.kr](http://www.jadam.kr)). He established "Jadam Natural Pesticide Institute" in 2002 from where he continued his research while integrating knowledge from many experienced farmers which led to the completion of the system of ultra-low-cost Jadam organic farming. He invented and developed many technologies for a natural pesticide which he voluntarily did not patent but rather shared through books and website. His "Natural Pesticide Workshops" teaches the essence of ultra-low-cost JADAM organic farming. Lectures, too, are disclosed on JADAM website ([en.jadam.kr](http://en.jadam.kr)).

The definitive resource for making vegetable-based soaps from scratch, from buying supplies to cutting the final bars. *Making Natural Liquid Soaps* Little, Brown UK

Rethink conventional notions of beauty and wellness, abandon established regimes and commercial products, and embrace your "renegade" beauty In this essential full-color guide, Nadine Artemis introduces readers to the concept of "renegade" beauty—a practice of doing

less and allowing the elements and the life force of nature to revive the body, skin, and soul so our natural radiance can shine through. Anyone stuck in perpetual loops of new products, facials, and dermatologist appointments will find answers as Artemis illuminates the energizing elements of sun, fresh air, water, the earth, and plants. This book is a comprehensive resource for anyone who wants to simplify their self-care routine, take their health into their own hands, and discover their own radiant beauty.

*Vegucation Over Medication* Gallery Books  
Ever think of making your own beauty products -- handmade, high performance, healthy alternatives to just about every chemical laden product you currently put on your face and body? It's easier than you think! In *Make It Up* author Marie Rayma shares the recipes she has developed through years of trial, error, and testing to come up with the very best. This is real makeup and skincare: bright lipsticks, quality mineral powders, long-wearing eyeliners, and masks and cleansers that yield results. Rayma walks you through natural ingredients available online or at health food stores. These

awesome oils, butters, clays, and minerals will replace the petroleum products, artificial colors, and lab-created mystery fragrances that have untold effects on our bodies. Products can be tailored for individual needs -- from swapping out ingredients not suitable for sensitive skin to whipping up the perfect colors suited for any complexion. With easy-to-follow instruction, *Make It Up* provides more than 40 essential cosmetics and skin care projects so you can make just what you want, when you need it.

115 recipes--wholesome new creations and celebrated favorites from the blog--from the husband and wife team behind *Two Peas & Their Pod* TWO PEAS & THEIR POD celebrates a family, friends, and community-oriented lifestyle that has huge and growing appeal. Maria the genuine, fun, relaxed mom next door who's got the secret sauce: that special knack for effortlessly creating tantalizing and wholesome (and budget-friendly) meals with ease. From a Loaded Nacho Bar bash for 200 guests to quick-and-easy healthy weeknight dinners like never-fail

favorites like One-Skillet Sausage Pasta or Asian Pork Lettuce Wraps (always followed by a fab dessert!), Maria shares her best lifestyle tips and home cook smarts. An essential resource for parents looking to update their healthy, inexpensive, time-saving, kid friendly meal roster; aspiring home cooks who want to eat-in delicious food more than they eat out; as well as anyone looking to share their love of food and the giving spirit with their neighbors, **TWO PEAS & THEIR POD** will help readers bring home that (achievable!) slice of Americana, where families come together to enjoy fresh and nutritious meals and there's always a batch of still-warm cookies waiting on the counter.

**Soap Making** Hachette UK

Jill Winger, creator of the award-winning blog *The Prairie Homestead*, introduces her debut *The Prairie Homestead Cookbook*, including 100+ delicious, wholesome recipes made with fresh ingredients to bring the flavors and spirit of homestead cooking to any kitchen table. With a foreword by bestselling author Joel Salatin *The Pioneer Woman Cooks* meets *100 Days of Real Food*, on the Wyoming prairie. While Jill produces

much of her own food on her Wyoming ranch, you don't have to grow all—or even any—of your own food to cook and eat like a homesteader. Jill teaches people how to make delicious traditional American comfort food recipes with whole ingredients and shows that you don't have to use obscure items to enjoy this lifestyle. And as a busy mother of three, Jill knows how to make recipes easy and delicious for all ages. "Jill takes you on an insightful and delicious journey of becoming a homesteader. This book is packed with so much easy to follow, practical, hands-on information about steps you can take towards integrating homesteading into your life. It is packed full of exciting and mouth-watering recipes and heartwarming stories of her unique adventure into homesteading. These recipes are ones I know I will be using regularly in my kitchen." - Eve Kilcher These 109 recipes include her family's favorites, with maple-glazed pork chops, butternut Alfredo pasta, and browned butter skillet corn. Jill also shares 17 bonus recipes for homemade sauces, salt rubs, sour cream, and the like—staples that many people are surprised to learn you can make yourself.

Beyond these recipes, *The Prairie Homestead Cookbook* shares the tools and tips Jill has learned from life on the homestead, like how to churn your own butter, feed a family on a budget, and experience all the fulfilling satisfaction of a DIY lifestyle.

*The Complete Photo Guide to Soap Making* thoroughly demystifies and demonstrates every aspect of the craft, guiding readers with clear text and hundreds of step-by-step photos.

**Soap Making Business Startup**

National Geographic Books

"Guides readers toward the road less consumptive, offering practical advice and moral support while making a convincing case that individual actions . . . do matter." —Elizabeth Royte, author, *Garbage Land* and *Bottlemania* Like many people, Beth Terry didn't think an individual could have much impact on the environment. But while laid up after surgery, she read an article about the staggering amount of plastic polluting the oceans, and decided then and there to kick her plastic habit. In *Plastic-Free*, she

shows you how you can too, providing personal anecdotes, stats about the environmental and health problems related to plastic, and individual solutions and tips on how to limit your plastic footprint. Presenting both beginner and advanced steps, Terry includes handy checklists and tables for easy reference, ways to get involved in larger community actions, and profiles of individuals—Plastic-Free Heroes—who have gone beyond personal solutions to create change on a larger scale. Fully updated for the paperback edition, Plastic-Free also includes sections on letting go of eco-guilt, strategies for coping with overwhelming problems, and ways to relate to other people who aren't as far along on the plastic-free path. Both a practical guide and the story of a personal journey from helplessness to empowerment, Plastic-Free is a must-read for those concerned about the ongoing health and happiness of themselves, their children, and the planet.

### **Natural Liquid Soap Making Made Simple** Harmony

This book will guide you through creating your own liquid and bar soap. Design and

create bars of soap using traditional methods that incorporate moisturising oils and butters, and make fun and funky glycerine soaps that look almost too fabulous to use. If you prefer liquid soaps then this book also explains how to create liquid and cream soaps from scratch as well as how to design body washes using many of the easily obtainable surfactants. In this book you will discover how to:

- Choose soap making ingredients that will be most beneficial for your skin type
- Design and create a range of soapy products including hand and body washes
- Scent your soaps using essential and fragrance oils
- Make glycerine melt and pour soap from scratch
- Understand different soap making methods and techniques

- Holiday Home Hand Soap

And more! Grab your copy

### **Make It Up** Flatiron Books

Suzanne McMinn, a former romance writer and founder of the popular blog chickensintheroad.com, shares the story of her search to lead a life of ordinary splendor in Chickens in the Road, her inspiring and funny memoir. Craving a life

that would connect her to the earth and her family roots, McMinn packed up her three kids, left her husband and her sterile suburban existence behind, and moved to rural West Virginia. Amid the rough landscape and beauty of this rural mountain country, she pursues a natural lifestyle filled with chickens, goats, sheep—and no pizza delivery. With her new life comes an unexpected new love—"52," a man as beguiling and enigmatic as his nickname—a turbulent romance that reminds her that peace and fulfillment can be found in the wake of heartbreak. Coping with formidable challenges, including raising a trio of teenagers, milking stubborn cows, being snowed in with no heat, and making her own butter, McMinn realizes that she's living a forty-something's coming-of-age story. As she dares to become self-reliant and embrace her independence, she reminds us that life is a bold adventure—if we're willing to live it. Chickens in the Road includes more than 20 recipes, craft projects, and McMinn's photography, and features a special two-color design. *The Complete Photo Guide to Soap Making* CreateSpace

The threat of domestic terrorism today looms larger than ever. Bombings at the World Trade Center and Oklahoma City's Federal Building, as well as nerve gas attacks in Japan, have made it tragically obvious that American civilians must be ready for terrorist attacks. What do we need to know to help emergency and medical personnel prepare for these attacks? Chemical and Biological Terrorism identifies the R&D efforts needed to implement recommendations in key areas: pre-incident intelligence, detection and identification of chemical and biological agents, protective clothing and equipment, early recognition that a population has been covertly exposed to a pathogen, mass casualty decontamination and triage, use of vaccines and pharmaceuticals, and the psychological effects of terror. Specific objectives for computer software development are also identified. The book addresses the differences between a biological and chemical attack, the distinct challenges to the military and civilian medical communities, and other broader issues. This book will be of critical interest to anyone involved in civilian preparedness

for terrorist attack: planners, administrators, responders, medical professionals, public health and emergency personnel, and technology designers and engineers. [The Natural Soap Making Book for Beginners](#) Independently Published A compilation of 200 simple, delicious recipes using all-natural ingredients; meal plans; time-saving tips; and advice that will take the guesswork out of dinner, from the creator of the popular Wellness Mama website. With six kids, a popular blog, and no free time, Katie Wells, knows firsthand how difficult it is to cook a healthy, homemade dinner every night. Faced with her own health challenges, and also concerned about the frightening statistics on the future health of her children's generation, Katie began to evaluate the foods she was eating and feeding to her family. She became determined to find a way to create and serve meals that were wholesome, easy to prepare, budget-friendly, and family approved. The recipes and practical advice Katie offers in *The Wellness Mama Cookbook* will help you eliminate processed foods and move toward more healthy, home-cooked meals

that are easily prepared—most in thirty minutes or less. The recipes focus on whole foods that are free of grains and refined sugars and without harmful fats, but are still delicious and full of flavor. With a variety of slow-cooker and one-pot meals, light lunches, dinners, and desserts, you'll be eating better in every way in no time at all. Recipes include Sesame Chicken with Sugar Snap Peas, Sweet Potato Crusted Quiche Lorraine, Beef and Zucchini Stir Fry, and Chewy Chocolate Chip Cookies, as well as recipes for bone broths, fermented foods, and super food drinks and smoothies. Katie also shares pantry-stocking advice, two weeks of meal plans for at home and on-the-go, shopping lists, and more. This is the ultimate cookbook that readers need to incorporate healthy eating knowledge into their daily practices.

**Naturally Inspired** Simon and Schuster Unleash your creativity by making your own all-natural soap Making soap with all-natural ingredients lets you express your creative side while reducing chemicals in your cleansing routine, but where do you begin? This helpful resource for entry-level soap makers will demystify the process

and show you how to bring nature and your own unique style into your everyday soaps. What sets *The Natural Soapmaking Book for Beginners* apart from other soap making books: Soap making basics—Learn all you need to know before making your first batch of soap, like the science behind what happens when you combine ingredients, helpful soap making terminology, and lists of all the supplies you'll need (including lye). This section also provides instructions for using natural colors and scents to make your soaps look and smell beautiful. Step-by-step tutorials—Dive into cold-process soap making and unlock your artistic abilities using simple guides for mixing, melting, and pouring, as well as instructions for creating silky smooth, layered, and embossed soaps. 55+ all-natural soap recipes—This book will teach you to make a variety of soaps infused with natural herbs, oils, and milks, including a creamy Gentle Baby Soap, an antioxidant-rich Avocado and Shea Face Bar with Aloe, and a nourishing Goat Milk and Honey Shampoo Bar. Master the basic techniques you need to create luxurious soap and body care products with *The Natural*

*Soapmaking Book for Beginners*.

**Pure Soapmaking** Clavicula Press Make your own custom-tailored and perfectly formed cold-process soaps! Learn how to use milk jugs and yogurt containers for molds, and how coffee, avocado, and even beer can add unique dimensions to your creations. This encouraging introduction to the art of soapmaking makes it simple to master the techniques you need to safely and easily produce your own enticingly fragrant soaps.

**Coconuts & Kettlebells** Simon and Schuster

At the height of medical technology and civilization, America has become the fattest and sickest nation to ever grace the earth. There was a time when food was our medicine, and the farmer our physician. But now industrialization has converted farms into factories, replaced produce for processed foods, and meat comes with just as many warnings as the drugs we are prescribed. If we continue to embrace the Standard American Diet (SAD diet) and current health care system, this may be the first generation of parents to outlive their children. The science and

medical community are split 50/50 as to why we are so sick. One side is dogmatically attached to the theory that germs cause disease, so sickness is inevitable and can only be treated not cured. The other perspective is that we have a genetic predisposition to disease and that science & technology provide the solution. However, neither of these philosophies actually address the real cause of disease. *Vegucation Over Medication* bridges the gap by helping us understand the impact of nutrition on our health. Dr. Bobby Price provides actionable advice on how to prevent and

even reverse many chronic diseases. The book dispels in shocking detail many of the myths and lies we've adopted as truths, such as the use of medications as our primary form of prevention. Dr. Price's holistic approach to understanding the healing nature of our foods and bodies will empower you to cleanse, nourish, and RECLAIM YOUR HEALTH. In this book you will learn: - Hidden dangers in foods and medicines - How to minimize or eliminate medications - The connection between disease and nutrition - The secrets of long-term natural weight loss - The real scoop

on protein - Powerful natural alternatives to help restore the body - Guide to incorporating a plant-based lifestyle - Tasty plant-based alternatives to your favorite foods - How a plant-based diet improves energy, digestion, and sleep - How to reverse Type 2 Diabetes - Keys to normalizing blood pressure and cholesterol levels
