We are re-defining the face of ageing on a daily basis, with the Baby Boom generation in the vanguard, followed by younger generations who are similarly intrigued by non-invasive natural solutions that are integrative rather than purely cosmetic. Constitutional Facial Acupuncture has begun to make an impact on popular culture and outmoded perceptions about the nature of authentic beauty and the ageing process. Acupuncturists who practice in this field are increasingly expected to have specialized training and knowledge, outside the customary parameters of the more traditional approaches. This book introduces a complete Constitutional Facial Acupuncture protocol that is comprehensive, effective and clearly organized, with illustrative color photographs and facial needling diagrams. Its strong constitutional components are unique, adhere to the principles of Chinese medicine, and are rooted in the three levels of treatment - Jing, Ying and Wei. - A new and detailed Constitutional Facial Acupuncture protocol highlights acu-muscle points, Shen imbalances, lines and wrinkles, needling technique, relevant points and their locations. - A comprehensive constitutional treatment approach - A customized, modular topical herbal protocol that is enriched with the use of essential oils and natural cleansers, creams, etc. - Practical step-by-step instructions on how to integrate the needling protocols with the topical herbs, jade rollers, gem eye discs, etc. - A complete Constitutional Facial Acupuncture needling protocol for 12 problematic areas of the facial landscape, i.e., droopy eyelids, sagging neck, crow's feet, sunken cheeks, etc. - Contraindications, benefits, and personal advice drawn from the author's 30+ years of experience - An essential text for students or practitioners of facial acupuncture, and also for those readers who are interested in the field of "healthy aging"

Is moxibustion too difficult to apply, too risky or too smoky? Discover the effective new moxa method from Japan that gets rapid results - safely. Moxibustion is ancient. Even more ancient than needling. In modern acupuncture, however, it is often considered too time-consuming or difficult to master. And yet the classics say: for chronic conditions, moxa has no equal. Coming to the rescue of time-poor, present-day acupuncturists is the Ontake Method from Japan. This innovative technique uses a piece of bamboo filled with burning moxa wool to roll, tap and press on the acupuncture meridians using a metronome programmed to each meridian's frequency. The rhythmic application of heat, frequency and pressure triggers rapid shifts in your patients' body condition and mood but this method generates only a little smoke. In this book, you will learn: Dr Manaka's meridian frequencies and how to apply them Branch treatments for symptom relief Root treatments for whole-body regulation The integration of Dr Tan's holographic models with Ontake for the rapid relief of pain in the neck, back and joints Moxa in Motion presents a step-by-step guide to clinical

practice utilising the Ontake Method. Easily integrated into any style of acupuncture, Shiatsu or Tuina, the Ontake Method will boost your results and build your practice. Oran Kivity is a veteran acupuncturist from the UK, living in Asia. He has dedicated countless hours of clinical observation and study to integrate the knowledge of contemporary Japanese masters. Through writing and teaching, he has ignited interest in Ontake, a remarkable new moxa tool from Japan, developing these dynamic new techniques further and compiling them into this practical handbook of moxibustion.
