## WELCH CARLA

---

### **Born of Fire** Harper Collins

It was a horrific car crash. On the way home from swim practice, eighteen-year old Brian Boyle's future changed in an instant when a dump truck plowed into his Camaro. He was airlifted to a shock-trauma hospital. He had lost sixty percent of his blood, his heart had moved across his chest, and his organs and pelvis were pulverized. He was placed in a medically-induced coma. When Brian finally emerged from the coma two months later, he had no memory of the accident. He could see and hear, but not move or talk. Unable to communicate to his doctors, nurses, or frantic parents, he heard words like "vegetable" and "nursing home." If he lived, doctors predicted he might not be able to walk again, and certainly not swim. Then, miraculously, Brian clawed his way back to the living. First blinking his eyelids, then squeezing a hand, then smiling, he gradually emerged from his locked-in state. The former swimmer and bodybuilder had lost one hundred pounds. Iron Heart is the first-person account of his ordeal and

his miraculous comeback. With enormous fortitude he learned to walk, then run, and eventually, to swim. With his dream of competing in the Ironman Triathlon spurring him on, Brian defied all odds, and three-and-a-half years after his accident, crossed the finish line in Kona, Hawaii. Brian's inspiring journey from coma to Kona is brought to life in this memoir.

A fascinating, darkly funny comeback story of learning to live with a broken mind after a near-fatal traumatic brain injury—from the acclaimed author of *The Hike* "Drew Magary has produced a remarkable account of his journey, one that is filled with terror, tenderness, beauty, and grace."—David Grann, bestselling author of *Killers of the Flower Moon* Drew Magary, fan-favorite *Defector* and former *Deadspin* columnist, is known for his acerbic takes and his surprisingly nuanced chronicling of his own life. But in *The Night the Lights Went Out*, he finds himself far out of his depths. On the night of the 2018 *Deadspin* Awards, he suffered a mysterious fall that caused him to smash his head so hard on a cement floor that he cracked his skull in three places and suffered a catastrophic brain hemorrhage. For two weeks, he remained in a coma. The world was gone to him, and him to it. In

his long recovery from his injury, including understanding what his family and friends went through as he lay there dying, coming to terms with his now permanent disabilities, and trying to find some lesson in this cosmic accident, he leaned on the one sure thing that he knows and that didn't leave him—his writing. Drew takes a deep dive into what it meant to be a bystander to his own death and figuring out who this new Drew is: a Drew that doesn't walk as well, doesn't taste or smell or see or hear as well, and a Drew that is often failing as a husband and a father as he bounces between grumpiness, irritability, and existential fury. But what's a good comeback story without heartbreak? Eager to get back what he lost, Drew experiences an awakening of a whole other kind in this incredibly funny, medically illuminating, and heartfelt memoir.

**Blindsight** Random House

Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Forever**, Erma Scholastic Inc.

As the war in Europe winds down, a unit of battle-fatigued GIs are tasked in liberating the survivors of the infamous Verurteilt concentration camp, in theory a relatively simple rescue mission. Upon arrival, Sergeant Rance Hawkins and his four young charges are ordered to search an unmapped area beyond the main camp for evidence of a separate, clandestine compound,

reportedly created for high-ranking SS officers to further torment and torture. Their quest will eventually lead them into a nearby coal mine, where a young camp survivor claims that her mother and other refugees are being held. Inside the murky caverns, the motley crew of dogfaces discover revelations so terrifying and vile as to make even the inhuman atrocities of Verurteilt seem tame by comparison.

**Death's Head** Hachette Books

"As much about a father-son relationship as it is a survival story . . . his father's life philosophy . . . got him down the mountain and through life." —USA Today Norman Olstead's New York Times-bestselling memoir *Crazy for the Storm* is the story of the harrowing plane crash the author miraculously survived at age eleven, framed by the moving tale of his complicated relationship with his charismatic, adrenaline-addicted father. Destined to stand with other classic true stories of man against nature—*Into Thin Air* and *Into the Wild* by Jon Krakauer; Sebastian Junger's *The Perfect Storm*—it is a literary triumph that novelist Russell Banks (*Affliction*) calls, "A heart-stopping story beautifully told . . . Norman Olstead has written a book that may well be read for generations." "A heart-stopping adventure that ends in tragedy and in triumph, a love story that fearlessly explores the bond between a father and son and what it means to lead a life without limits." —Susan Cheever, award-winning author of *American Bloomsbury* "An elegant memoir as well as a transformative coming-of-age tale. When he leaves his father's limp body behind on the icy plateau—giving it a final kiss and caress as it's claimed by the snow—Olstead takes his first perilous steps not just into survival, but into adulthood." —New York Post "Cinematic and personal . . . Olstead's insights into growing up in a broken home and adolescence in southern California are as engrossing as the story of his trip down the mountain." —Chicago Tribune "Riveting." —Entertainment Weekly

**The Fiery Cross** HarperCollins

The author, a computer science professor diagnosed with terminal cancer, explores his life, the lessons that he has learned, how he has worked to achieve his childhood dreams, and the effect of his diagnosis on him and his family.

**Know My Name** Crown

New York Times Bestseller: This anthology of Erma Bombeck's most memorable and humorous essays is a tribute to one of America's sharpest wits. When she began writing her regular newspaper column in 1965, Erma Bombeck's goal was to make housewives laugh. Thirty years later, she had published more than four thousand columns, and earned countless laughs—from housewives, presidents, and everyone in between. With grace, good humor, and razor-sharp prose, she gently skewered every aspect of the American family. This collection holds the best of her columns—not just her famous quips, but also the heartbreaking observations that gave her writing such weight. In 1969, Erma wrote: "screaming kids, unpaid bills, green leftovers, husbands behind newspapers, basketballs in the bathroom. They're real . . . they're warm . . . they're the only bit of normalcy left in this cockeyed world, and I'm going to cling to it like life itself." With what Publishers Weekly calls her "infectious sense of human absurdity," Erma Bombeck's writing remains a timeless examination of the still-cockeyed world. This ebook features an illustrated biography of Erma Bombeck including rare images and never-before-seen documents from the author's estate.

**The Diving Bell and the Butterfly** Simon and Schuster From New York Times bestseller Kody Keplinger comes an astonishing and thought-provoking exploration of the aftermath of tragedy, the power of narrative, and how we remember what we've lost. It's been three years since the Virgil County High School Massacre. Three years since my best friend, Sarah, was killed in a bathroom stall during the mass shooting. Everyone knows Sarah's story--that she died proclaiming her faith. But it's not true. I know because I was with her when she died. I didn't say anything then, and people got hurt because of it. Now Sarah's parents are publishing a book about her, so this might be my last chance to set the record straight . . . but I'm not the only survivor with a story to tell about what did--and didn't--happen that day. Except Sarah's martyrdom is important to a lot of people, people who don't take kindly to what I'm trying to do. And the more I learn, the less certain I am about what's right. I don't know what will be worse: the guilt of staying silent or the consequences of speaking up . . .

'...And then we heard the rain falling, and that was the drops of blood falling; and when we came to get the crops, it was dead men that we reaped.' Harriet Tubman In five years, Jesmyn Ward lost five men in her life, to drugs, accidents, suicide, and the bad luck that can follow people who live in poverty, particularly black men. Dealing with these losses, one after another, made Jesmyn ask the question: why? And as she began to write about the experience of living through all the dying, she realized the truth--and it took her breath away. Her brother and her friends all died because of who they were and where they were from, because they lived with a history of racism and economic struggle that fostered drug addiction and the dissolution of family and relationships. Jesmyn says the answer was so obvious she felt stupid for not seeing it. But it nagged at her until she knew she had to write about her community, to write their stories and her own. Jesmyn grew up in poverty in rural Mississippi. She writes powerfully about the pressures this brings, on the men who can do no right and the women who stand in for family in a society where the men are often absent. She bravely tells her story, revisiting the agonizing losses of her only brother and her friends. As the sole member of her family to leave home and pursue high education, she writes about this parallel American universe with the objectivity distance provides and the intimacy of utter familiarity.
