The Soul and the Seed New

Internationalist

The poems in this captivating collection weave beauty with violence, the personal with the historic as they recount the harrowing experiences of the two hundred thousand female victims of rape and torture at the hands of the Pakistani army during the 1971 Liberation War. As the child of Bangladeshi immigrants, the poet in turn explores her own losses, as well as

the complexities of bearing witness to the atrocities these war heroines endured. Throughout the volume, the narrator endeavors to bridge generational and cultural gaps even as the victims recount the horror of grief and personal loss. As we read, we discover the profound yet fragile seam that unites the fields, rivers, and prisons of the 1971 war with the poet's modern-day hotel, or the tragic death of a loved one with the holocaust of a nation. Moving from West Texas to Dubai, from Virginia to remote villages in Bangladesh and back again, the narrator calls on the legacies of Willa Cather, César Vallejo,

Tomas Tranströmer, and Paul Celan to give voice to the voiceless. Fierce yet loving, devastating and magical at once, *Seam* is a testament to the lingering potency of memory and the bravery of a nation's victims. Winner, Great Lakes Colleges Association New Writers Award, 2014 Winner, Binghamton University Milt Kessler Poetry Book Award, 2015 Winner, Drake University Emerging Writers Award, 2015

Slow Fashion offers creatives, entrepreneurs, and ethical consumers

alike a glimpse into the innovative world of the eco-concept store movement, sustainable design, and business that puts people, livelihoods, and sustainability central to everything they do. Safia Minney argues that the future of brick and mortar retail is in the best in fair trade, sustainability, and organic products, together with vintage and second hand goods and local produce. Restorative economics, the well-being of our planet, and our bodies and minds can be inspired by this growing sector, one that is shaping big business. This book curates pioneering people and projects that will inspire you to be part of the change. International names include Livia Firth, Zandra Rhodes, and Lily Cole. American change-makers include Andrew Morgan, filmmaker (The True Cost, a ground-breaking documentary that asks us each to consider who pays the price for our clothing), and Dana Geffner (Fair World Project). With full color photography and elegant design, Slow Fashion profiles the people bringing the alternatives to the mainstream: designers, labels, and eco-concept stores across the world; fair trade producers; campaigns that are re-designing the fashion economy; and the

fibers and fabrics which are making a difference. Safia Minney is founder and CEO of fair trade and sustainable fashion label People Tree. She has turned a lifelong interest in environment, trade, and social justice issues into an award-winning social business. She is widely regarded as a leader in the Fair Trade movement and has been awarded Outstanding Social Entrepreneur by the World Economic Forum.

Join New York City's most intrepid eater--Robert Sietsema, pioneer of outer-boroughs dining--in an urban adventure like none other. Through essays on the city's defining dishes, some familiar, others obscure, Robert paints a portrait of New York's food landscape past and present, and shares a life spent uncovering the delicious foods of the five boroughs. Gobble up a century of New York pizza, from the coal-fired pies of a thriving Little Italy to the slice joints of a burgeoning rock 'n' roll East Village. Discover Katz's Delicatessen as Robert did, on a foray into the hardscrabble Lower East Side of the 1970s. Take Robert's hand

and he'll bring you through the Mexican taquerias of Bushwick--with their papalo leaves and piled-high sandwiches--then visit the underground Senegalese dining scene hidden in plain sight in 1990s Times Square. See the evolution of New York fried chicken from Harlem's spare, ancient style to the battered-and-brined birds of hipster Brooklyn. Hunt with Robert for Hangtown fry and a vanishing Chinese-American cuisine, and follow him as he ferrets out the city's most elusive foods, including the Ecuadorian guinea pig.

Bijoy is a young boy in a remote Bangladeshi village, where the legacy of hardship is passed from generation to generation. But a distinct dream has been handed to this little soul by his father: Bijoy will break the cycle of poverty through education. His tiny heart embraces the dream without knowing the price he will endure for this vision. Inevitably, every triumph comes with a price. But Bijoy didn't accept this cost as a choice; he followed it as it was the only means to escape. When every door closes,

Bijoy and his mother must embark on the unknown. At every turn, Bijoy is both aided and puzzled by the mysterious plots of destiny. Where will this hostile journey steer Bijoy? What is adversity striving to profess? Spanning two continents and several decades, Bijoy's dramatic journey captivates the reader through each twist and turn as he deals with poverty, danger, oppression, unusual breakthroughs, and love and gains precious wisdom on life along the way. Ultimately, his greatest struggle is an existential one: finding peace with the hand life dealt him.

Since the popularization of Internet technologies in the mid-1990s, human identity and collective culture has been dramatically shaped by our continued use of digital communication platforms and engagement with the digital world.

Despite a plethora of scholarship on digital technology, questions remain regarding how these technologies impact personal identity and perceptions of global culture. *Defining Identity and the Changing Scope of Culture in the Digital Age* explores a multitude of topics pertaining to self-hood, self-expression, human interaction, and

perceptions of civilization and culture in an age where technology has become integrated into every facet of our everyday lives. Highlighting issues of race, ethnicity, and gender in digital culture, interpersonal and computer-mediated communication, pop culture, social media, and the digitization of knowledge, this pivotal reference publication is designed for use by scholars, psychologists, sociologists, and graduate-level students interested in the fluid and rapidly evolving norms of identity and culture through digital media.

LIFE Vintage

'A landmark work on perhaps the essential question of our time' - David Wallace-Wells, author of *The Uninhabitable Earth* In this ground-breaking book, environmental journalist, Peter Schwartzstein, takes the reader on the first on-the-ground exploration of climate change's contribution to global conflict. From the ravaged villages of Iraq, where ISIS has used drought as a recruiting tool and weapon of terror, to the pirate-ridden waters of Bangladesh - and drawing on more than a decade of reporting from dozens of countries - Schwartzstein writes about the unexpected ways in which

climate change is feeding global unrest and conflict. Through the stories of the soldiers, farmers, spies and others affected around the world, he makes sense of a form of conflict that remains poorly understood, even as it devastates the lives of so many millions of people. While researching this book, Schwartzstein was chased by kidnappers, detained by police and told, in no uncertain terms, that he was no longer welcome in certain countries. Yet, as he recounts, these personal brushes with violence are simply a hint of the conflict simmering in our warming world. As Schwartzstein's unparalleled reporting shows, there's nothing inevitable about climate violence. In fact, as he sets out, the same stresses that are pitching people against one another can even help bring them back together.

Newsletter Stanford University Press Bangladesh is the world's eighth most populous country. It has more inhabitants than either Russia or Japan, and its national language, Bengali, ranks sixth in the world in terms of native speakers. Founded in 1971, Bangladesh is a relatively young nation, but the Bengal

Delta region has been a major part of international life for more than 2,000 years, whether as an important location for trade or through its influence on Buddhist, Hindu, and Muslim life. Yet the country rarely figures in global affairs or media, except in stories about floods, poverty, or political turmoil. The Bangladesh Reader does what those portrayals do not: It illuminates the rich historical, cultural, and political permutations that have created contemporary Bangladesh, and it conveys a sense of the aspirations and daily lives of Bangladeshis. Intended for travelers, students, and scholars, the Reader encompasses first-person accounts, short stories, historical documents, speeches, treaties, essays, poems, songs, photographs, cartoons, paintings, posters, advertisements, maps, and a recipe. Classic selections familiar to many Bangladeshis—and essential reading for those who want to know the country—are juxtaposed with less-known pieces. The selections are translated from a dozen languages; many have not been available in English until now. Featuring eighty-three images, including seventeen in color, The

Bangladesh Reader is an unprecedented, comprehensive introduction to the South Asian country's turbulent past and dynamic present.

Die Twice--two gripping Dennis Milne mysteries in one from Simon Kernick. The Murder Exchange When ex-mercenary Max Iversson agreed to provide security for nightclub owner Roy Fowler, he never expected a bloodbath. Three men have been shot, the briefcase Iversson was guarding is empty...and now he wants to know why. So begins a dangerous hunt for answers that will take him into direct conflict with Detective Sergeant John Gallan, who is investigating the mysterious death of one of Fowler's doormen, and toward a confrontation that neither is likely to escape unscathed. The Business of Dying Cynical and jaded, Detective Sergeant Dennis Milne earns money on the side by doing what he does best: punishing the bad guys. But this time he's been duped and instead of blowing away drug dealers, he kills three innocent men, setting off a war of morality that could leave him broken, or worse...dead.
Defining Identity and the Changing Scope

of Culture in the Digital Age Taylor & Francis

Approaching family through the lens of food, this book provides a new perspective on the diversity of contemporary family life, challenging received ideas about the decline of the family meal, the individualization of food choice and the relationship between professional advice on healthy eating and the everyday practices of 'doing family'.

Bake authentic multiethnic breads from the New York City bakery with a mission, with The Hot Bread Kitchen Cookbook, Yahoo Food's Cookbook of the Year. At first glance Hot Bread Kitchen may look like many other bakeries. Multigrain sandwich loaves, sourdough batards, baguettes, and Parker House rolls line the glass case up front in the small shop. But so, too, do sweet Mexican conchas, rich m'smen flatbreads, mini bialys sporting a filling of caramelized onion, and chewy Indian naan. In fact, the breads are as diverse as the women who bake them—because the recipes come from their homelands. Hot Bread Kitchen is a bakery that employs

and empowers immigrant women, providing them with the skills to succeed in the culinary industry. The tasty corollary of this social enterprise is a line of authentic breads you won't find anywhere else. Featured in some of New York City's best restaurants and carried in dozens of retail outlets across the country, these ethnic gems can now be made at home with *The Hot Bread Kitchen Cookbook*.

Die Twice AuthorHouse

Winner of the Theodore Saloutos Memorial Book Award Winner of the Association for Asian American Studies Book Award for History A Times Literary Supplement Book of the Year A Saveur "Essential Food Books That Define New York City" Selection In the final years of the nineteenth century, small groups of Muslim peddlers arrived at Ellis Island every summer, bags heavy with embroidered silks from their home villages in Bengal. The American demand for "Oriental goods" took these migrants on a curious path, from New Jersey's beach boardwalks into the heart of the segregated South. Two decades later, hundreds of Indian Muslim seamen began jumping ship in New York and Baltimore,

escaping the engine rooms of British steamers to find less brutal work onshore. As factory owners sought their labor and anti-Asian immigration laws closed in around them, these men built clandestine networks that stretched from the northeastern waterfront across the industrial Midwest. The stories of these early working-class migrants vividly contrast with our typical understanding of immigration. Vivek Bald's meticulous reconstruction reveals a lost history of South Asian sojourning and life-making in the United States. At a time when Asian immigrants were vilified and criminalized, Bengali Muslims quietly became part of some of America's most iconic neighborhoods of color, from Tremé in New Orleans to Detroit's Black Bottom, from West Baltimore to Harlem. Many started families with Creole, Puerto Rican, and African American women. As steel and auto workers in the Midwest, as traders in the South, and as halal hot dog vendors on 125th Street, these immigrants created lives as remarkable as they are unknown. Their stories of ingenuity and intermixture challenge assumptions about assimilation and reveal cross-racial affinities beneath

the surface of early twentieth-century America.

State Houghton Mifflin Harcourt

On 20 May 2011, Mamata Banerjee was sworn in as the first female chief minister of West Bengal, bringing an end to thirty-three years of CPI(M) rule. 'Poriborton!' screamed the morning papers, echoing Trinamool Congress's catchphrase for bringing in change. A decade later, amidst allegations against the TMC of political violence, syndicate rule and institutional corruption, the Bharatiya Janata Party has sent out a new war cry. Ahead of what promises to be a historic state Legislative Assembly election, Deep Halder met and spoke to Bengal's biggest stars-turned-politicians, refugees who want to become permanent citizens, and travelled as far as the Bangladesh border to gauge the mood of the people. Bengal 2021 looks at an electrifying election, unfolding in the times of Covid-19.

Impact of Rice Research SIU Press

Few places are as politically precarious as Bangladesh, even fewer as crowded. Its 57,000 or so square miles are some of the world's most inhabited. Often described as a definitive case of the bankruptcy of

postcolonial governance, it is also one of the poorest among the most densely populated nations. In spite of an overriding anxiety of exhaustion, there are a few important caveats to the familiar feelings of despair—a growing economy, and an uneven, yet robust, nationalist sentiment—which, together, generate revealing paradoxes. In this book, Nusrat Sabina Chowdhury offers insight into what she calls "the paradoxes of the popular," or the constitutive contradictions of popular politics. The focus here is on mass protests, long considered the primary medium of meaningful change in this part of the world. Chowdhury writes provocatively about political life in Bangladesh in a rich ethnography that studies some of the most consequential protests of the last decade, spanning both rural and urban Bangladesh. By making the crowd its starting point and analytical locus, this book tacks between multiple sites of public political gatherings and pays attention to the ephemeral and often accidental configurations of the crowd. Ultimately, Chowdhury makes an original case for the crowd as a defining feature and a foundational force of democratic

practices in South Asia and beyond.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Memoirs of Indonesian Doctors and Professionals 2 McFarland
Post-9/11 fiction reflects how the September 11, 2001, attacks have influenced our concept of public space, from urban behavior patterns to architecture and urban movement. It also suggests a need for remapping the real and imagined spaces where we live and work. Through close readings of novels from both sides of the Atlantic, this analysis of the literary 21st century metropolis explores the fictional post-9/11 city as a global space not defined or contained by its physical limits.

OVER A MILLION COPIES SOLD Why are the best words short and old? Why are full stops a writer's best friend? How can we simplify, then exaggerate? And what exactly are dangling modifiers? We'd all like to write with style. But what does that mean, and what can we learn from *The Economist*, a publication well known for its clarity and flair? Welcome to *Writing with Style*, an elegant survey of the principles available for writing better prose. By adopting some tried and tested tools and techniques, you too can learn how to inform, persuade and entertain when you write. Whether you want to know your singulars from your subjunctives, how colons add drama or why the word "comprise" is contaminated, this is the style guide for you.

How to Avoid a Climate Disaster Profile Books
#1 NEW YORK TIMES BEST SELLER • In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical—and accessible—plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe. Bill Gates has spent a decade investigating the

causes and effects of climate change. With the help of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide to certain environmental disaster. In this book, he not only explains why we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the

areas in which technology is already helping to reduce emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete, practical plan for achieving the goal of zero emissions—suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear,

achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach.
