Report - University of Illinois Board of Trustees

This is an essential guide for all health and social work practitioners supporting an increasing number of learners, trainees, apprentices and pre-registration students engaging in practice-based and work-based learning. Applying educational learning theory to underpin the role and practice of the contemporary practice supervisor, assessor and educator, this accessible book presents strategies for practice learning and personal development. Acknowledging the problematic nature of learning within the workplace, the authors place the lived experience of the learner at the heart of this text and emphasise the critical importance of an expansive and compassionate learning environment for all. The book includes chapters on the context of practice learning, the role of the supervisor/assessor and educator, learning environments, coaching, assessment and supporting the learner in difficulty, among others. It also spotlights practice learning in a range of settings, from working with children, through social care and maternity care. Each chapter includes learning outcomes and activities, as well as a chapter summary. Designed for nurses, midwives, social workers, therapists and operating department practitioners who support learners in the workplace, this text is particularly relevant to

registrants completing practice supervisor/assessor/educator preparation and pre-registration students taking modules on supporting learning.

Report of the Agricultural Experiment Station of the University of California ...

This review provides a snapshot of the state-of-art of School Feeding Programmes in 14 of the 15 CARICOM Member States. It provides an overview of the different models of school feeding programmes that currently exist in the Caribbean, challenges faced and recommendations for improvement. Among the aspects evaluated include: the governance structure, nutritional quality of meal served, linkages with small farmers for the procurement of products used in the meals, involvement of children in school gardens related activities, etc. The document includes a case study for each of the participating countries (namely Antigua and Barbuda, Bahamas, Barbados, Belize, Dominica, Grenada, Guyana, Haiti, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Suriname and Trinidad and Tobago). For each of these countries, an Annual Net Benefit Analysis was conducted, using information collected in 2017. The aim is that the document can provide preliminary information and recommendations that can be relevant for governments, public organizations, donors, opinion leaders, private sectors, and

others toward strengthening school feeding programmes in the Caribbean. It was developed with the support of the University of the West Indies and the Caribbean Agro-Economic Society under the leadership of Prof. Carlisle Pemberton and Dr. Hazel Paterson-Andrews.
