 The Art of Double Bass Playing is the result of a collaboration between Warren Benfield, an outstanding bassist/teacher and James Seay Dean, Jr., Associate Professor of English at the University of Wisconsin-Parkside, a skilled writer/editor. Warren Benfield started his professional career in 1934 as the youngest member of the Minneapolis Symphony. Moving on to the St. Louis Symphony as principal bass and then to the Philadelphia Orchestra as co-principal bass, he joined the Chicago Symphony in 1949 where he remained until his retirement in 1987. Benfield has always been dedicated to teaching, and during his years with the Chicago Symphony Orchestra, he was on the faculties of Northwestern University and DePaul University. He has also given many

master classes and lectures, including two in China. Since retiring, he is continuing to teach a few students at the American Conservatory and at Chicago's Merit School for underprivileged children, which focuses on the arts. Benfield's particular aim is to teach the approach of the double bass from a musical, as well as a technical standpoint.

Dr. Morton's Torturous Exercises for the Double Bass Alfred Music

"An Introduction to Double Bass Playing" is the culmination of over a decade of playing, teaching, studying, and practicing. It addresses many aspects of double bass playing and pedagogy including exercises, examples, and fingerings that teachers have used over the years but never written down. It's a great resource for teachers, students, education majors, music minors, parents and anyone interested in the double bass. It is a wonderful companion for studio classes and private lessons. The Double Bassist (now The Strad) says it is "...full of sound and useful advice."

This important book weaves together trauma, black metal theory and disability into a story of both pain and freedom. Drawing on her many years as a black metal guitarist, Jasmine Hazel Shadrack

uses autoethnography to explore her own experiences of gender-based violence, misogyny and the healing power of performance.

Franz Simandl (1840-1912) was a double-bassist and pedagogue most remembered for his book "New Method for the Double Bass." Simandl studied at the Prague Conservatory with Josef Hrabě before becoming the principal bassist in the Vienna Court Opera Orchestra. This collection of 30 Etudes ranges from basic to complex in scope and in difficulty.

" ... a much acclaimed book for beginners, aimed at young children from the age of six ... Volume 2 adds to and moves on from 1. It contains 72 short tunes and ensemble pieces, attractively illustrated with musical puzzles and rhythm games."--Caswell's website (viewed March 8, 2019)

New method for the double bass Carl Fischer, L.L.C.

Professor of Double Bass at the Trinity-Laban Conservatoire in London, Chris West, uses photographs, exercises, short tunes and excerpts to explain how to play at the higher end of the

double bass."I hope my book will be of interest to all players. I have included techniques shown to me by colleagues, but many of the ideas are things I have had to work out for myself so I hope that even experienced players will find something in the book they didn't know, or hadn't thought about before. However, most of all I hope the book will be used by young players who are just starting to play in thumb position so that they can have a solid technique right from the start. It is much harder to eliminate ingrained faults than to learn good habits in the first place. I believe that using this book allows students to develop their skills in an effective way"

Killer Technique: Upright Bass is designed to help open up your technique. It encourages an approach that will make you think and work hard in the practice room, but relax while performing. The content is geared toward an improvisatory approach. The lessons included are designed for

pizzicato playing, but work just as well with arco. You will find exercises that present challenges to each hand. Above all, this book stresses that technique is a means to an end: creating beautiful music
