**DEANDRE DOWNS***Japan's Empire of Birds* Springer Nature

The sports industry had impressive global growth over the years, with factors from the introduction of e-sports and new streaming and viewing methods to sponsorships and digital media contributing to its rise. However, the COVID-19 pandemic brought upon a rapid change in this sector. Sports' seasons ended abruptly, people's escape from reality suddenly vanished, their spending attitudes changed, live games and commercial flights were suspended, hotels were impossible to book, and consumers practically turned into prisoners within their own homes. No live sports matches were to follow on any media either, so specialized sports channels were forced to play old recordings rather than broadcasting new events. Even athletes themselves struggle to stay relevant and thus, try to utilize creative methods to enhance their brand value in these difficult times. With most of the sports leagues shut down during the pandemic, with a few exceptions which performed in empty venues, the restrictions diminished the sports experience compared to the pre-COVID-19 era and the impacts were widespread. *Impacts and Implications for the Sports Industry in the Post-COVID-19 Era* explores the changes that have been and will continue to be created by the unexpected disruptions that occurred as a result of the pandemic within the sports industry, fans consumption, and recreational habits. The chapters explore the status of sports after the pandemic, paths to recovery, and the future of sports, along with the many impacts and issues that have arisen due to changes in the industry necessitated by COVID-19. Covering important topics such as mental health, impacts on athletes and coaches, the market value for professional sports, consumer behavior during COVID-19, and the changes in marketing, tourism, and business, this book is ideally intended for sports managers, marketers, broadcasting agencies, media specialists, brand managers, fitness professionals, practitioners, stakeholders, researchers, academicians, and students interested in the impacts on the sports industry and the outlook for sports in the post-COVID-19 era.

**OECD Development Co-operation Peer Reviews: Japan**

2020 OECD Publishing

The first edition of *Olympic Cities*, published in 2007, provided a pioneering overview of the changing relationship between cities and the modern Olympic Games. This substantially revised and much enlarged fourth edition builds on the success of its predecessors. The first of its three parts provides overviews of the urban legacy of the four component Olympic festivals: the Summer Games; Winter Games; Cultural Olympiads; and the Paralympics. The second part comprises systematic surveys of six key aspects of activity involved in staging the Olympics and Paralympics: finance; sustainability; the creation of Olympic Villages; security; urban regeneration; and tourism. The final part consists of ten chronologically arranged portraits of host cities from 1960 to 2032, with complete coverage of the Summer Games of the twenty-first century. As controversy over the growing size and expense of the Olympics, with associated issues of democratic accountability and legacy, continues unabated, this book's incisive and timely assessment of the Games' development and the complex agendas that host cities attach to the event will be essential reading for a wide audience. This will include not just urban and sports historians, urban geographers, event managers, and city planners, but also anyone with an interest in the staging of mega-events and concerned with building a better understanding of the relationship between cities, sport, and culture.

*Global Perspectives on Teaching with Technology* Taylor & Francis Harley-Davidson® 2022 offers 16 months of freedom machines from the world's most legendary motorcycle manufacturer.

Produced in cooperation with Harley-Davidson®, this new Motorbooks wall calendar features Harley-Davidson's latest machines. Harley-Davidson® 2022 showcases stunning portraits of line-up favorites like Fat Bob®, Softail®, Sportster®, bespoke CVO™ tourers, and the all-new Pan America™ adventure bike. Harley-Davidson® has reigned as America's top motorcycle manufacturer for more than a century, and each month, Harley-Davidson® 2022 reminds riders and fans why.

*Shrinking Japan and Regional Variations: Along the Hokurikudo and the Tosando II* Yale University Press

*Sports in the Pandemic Era* chronicles the dramatic comeback of sports after the global pandemic forced lockdowns, border closures and quarantines. Following a near total shutdown in the spring of 2020, the sports industry rose to an exceptional challenge with discipline and innovation. This helped health experts understand how the rest of the world could adapt to the crisis. *Sports in the Pandemic Era* shares case studies of sports organizations that quickly implemented major changes to respond to pandemic challenges. The text also shows long-term changes that will impact the industry as the world recovers. It concludes with an inspiring look at the achievements of many athletes who overcame adversity and set impressive new records.

**Impacts and Implications for the Sports Industry in the Post-COVID-19 Era** Rowman & Littlefield

This paper presents a dataset of fiscal consolidation for 17 OECD economies during 1978-2020 and 14 economies in Latin America and the Caribbean during 1989-2020. We focus on discretionary changes in taxes and government spending primarily motivated by a desire to reduce the budget deficit and not by a response to prospective economic conditions. To identify the motivation and budgetary impact of the fiscal policy changes, we examine contemporaneous policy documents, including central bank reports, Convergence Programmes and Stability Programmes submitted by the authorities to the European Commission, and IMF and OECD reports. The resulting series can be used to estimate the macroeconomic effects of fiscal consolidation. Routledge

Chase's Calendar of Events 2020 Rowman & Littlefield

**International Congress Calendar** Taylor & Francis

Find out what's going on any day of the year, anywhere across the globe! The world's date book since 1957, Chase's is the definitive, authoritative, day-by-day resource of what the world is celebrating and commemorating. From national days to celebrity birthdays, from historical anniversaries to astronomical phenomena, from award ceremonies and sporting events to religious festivals and carnivals, Chase's is the must-have reference used by experts and professionals—a one-stop shop with 12,500 entries for everything that is happening now or is worth remembering from the past. Completely updated for 2020,

Chase's also features extensive appendices as well as a companion website that puts the power of Chase's at the user's fingertips. 2020--a leap year--is packed with special events and observances, including National days and public holidays of every nation on Earth The total solar eclipse The 100th anniversary of US women's suffrage (19th Amendment passed) The 75th anniversary of the end of WWII and the atomic bombings of Hiroshima and Nagasaki The 250th birth anniversary of Ludwig van Beethoven The 100th birth anniversary of Ray Bradbury The 50th anniversary of the Beatles' break up The Tokyo Olympic Games Scores of new special days, weeks and months, such as International Go-Kart Week, National Goat Yoga Month or National Catch and Release Day Birthdays of new world leaders, office holders, and breakout stars And much more! All from the reference book that Publishers Weekly calls "one of the most impressive reference volumes in the world."

Jones & Bartlett Learning

Epidemiology of Chronic Disease: Global Perspectives is the most current and authoritative resource on the epidemiology, etiology, pathogenesis, risk factors and preventive factors of over 50 major chronic diseases and conditions. This comprehensive text provides readers with an excellent basis for examining current hypotheses regarding chronic disease epidemiology.

#### Towards Open and Trustworthy Digital Societies IGI Global

Trinidad has the distinction of contributing the highest number of recruits per capita to the cause of notorious [Islamic State]. The case of Trinidad and Tobago (usually abbreviated [Trinidad]) makes for an interesting study as on the face of it, a well-integrated Muslim population, a strong welfare state and an absence of political persecution on any religious or racial basis should not provide fertile recruiting ground for Jihadist ideology. However, the converse is most certainly the case as not only is attraction to such extremist causes growing but the numbers of Trinidadian nationals willing to fight for IS is also increasing. What is happening in Trinidad is symptomatic of a broader problem as Jihadi groups have widened their reach where apparently unconnected groups can now ally with the ideology and resource bases of better known groups without formally being part of them. The flirtation with Islamist ideology on Trinidad dates back many years and through a combination of incompetence, political

naiveté and unfortunate compromises. Indeed, the country faced the only Islamist coup in the entire Latin America [Caribbean region and the hemisphere. On 27 July 1990, a radical Afro-Trinidadian Islamist group, the Jamaat-al-Muslimeen, led by Imam Yasin Abu Bakr [an Afro-Trinidadian convert to Islam previously known as Lennox Philip, and a former policeman [launched an armed insurrection with 113 of his followers. Their attack quickly sacked the entire leadership of the local government: the then Prime Minister of Trinidad, Arthur N.R. Robinson, most of his cabinet and several opposition Members of Parliament, plus the staff of the government-owned television and radio networks were held hostage for six dramatic days. The Parliament Building, the television and radio studios were occupied by armed insurgents and were severely damaged during the standoff with security forces that ensued. The Trinidad and Tobago Police Service collapsed within the first hour of the insurrection, abandoning the capital city, Port of Spain, and the military took hours to assemble a viable fighting force. This book details the background to the dramatic events of July 1990 as well as the insurrection itself and the highly successfully military operation that quelled it. It was a coming of age for the Trinidad and Tobago Defence Force which, without requiring external intervention, contained and then defeated an Islamist uprising. [Trinidad 1990] is illustrated by more than 70 authentic photographs from local archives, maps and colour profiles, all of which serve to illustrate what became a little-known, yet highly-successful operation against international jihadism.

#### **Monthly Summary of Foreign Commerce of the United States** Springer Nature

Democratizing Luxury explores the interplay between advertising and consumption in modern Japan by investigating how Japanese companies at key historical moments assigned value, or "luxury," to mass-produced products as an important business model. Japanese name-brand luxury evolved alongside a consumer society emerging in the late nineteenth century, with iconic companies whose names became associated with quality and style. At the same time, Western ideas of modernity merged with earlier artisanal ideals to create Japanese connotations of luxury for readily accessible products. Businesses manufactured items at all price points to increase consumer attainability, while starkly curtailing production for limited editions to augment desirability.

Between the late nineteenth and twenty-first centuries, control over family disposable income transformed Japanese middle-class women into an important market. Growth of purchasing power among women corresponded with Japanese goods diffusing throughout the empire, and globally after the Asia-Pacific war (1931-1945). This book offers case studies that examine affordable luxury consumer items often advertised to women, including drinks, beauty products, fashion, and timepieces. Japanese companies have capitalized on affordable luxury since a flourishing domestic mercantile economy began in the Tokugawa period (1603-1868), showcasing brand-name shops, renowned artisans, and mass-produced woodblock prints by famous artists. In the late nineteenth century, personalized service expanded within department stores like Mitsukoshi, Shiseidō cosmetic counters, and designer boutiques. Shiseidō now globally markets invented traditions of omotenashi, Japanese "values" of hospitality expressed in purchasing and consuming its products. In postwar times, when a thriving democracy and middle-class were tied to greater disposable income and consumerism, companies rebuilt a growing consumer base among cautious shoppers: democratizing luxury at reasonable prices and maintaining business patterns of accessibility, high quality, and exemplary service. Nationalism amid economic success soon blended with myths of unique Japanese identity in a mass consumer society, suffused by commodity fetishism with widely available brand names. As the first comprehensive history of iconic Japanese name brands and their unique connotations of luxury and accessibility in modern Japan and elsewhere, Democratizing Luxury explores company histories and reveals strategies that lead customers to consume these alluring commodities.

#### *The Coronavirus Pandemic in Japanese Literature and Popular Culture* Smithsonian Institution

This is a smart and succinct guide to the rich tradition of Japanese mythology, from the earliest recorded legends of Izanagi and Izanami, their divine offspring and the creation of Japan, to medieval tales of vengeful ghosts, through to the modern-day reincarnation of ancient deities as the heroes of mecha anime. While many around the world love Japan's cultural exports, few are familiar with Japan's unique mythology - enriched by Shinto, Buddhism and regional folklore. Mythology remains a living,

evolving part of Japanese society, and the ways in which the people of Japan understand their myths are very different today even from a century ago, let alone over a millennium into the past. Offering much more than any competing overview of Japanese mythology, *The Japanese Myths* not only retells the ancient stories but also considers their place within the patterns of Japanese religions, culture and history, helping readers to understand the deep links between past and present in Japan, and the ways these myths live and grow. Joshua Frydman takes the very earliest written myths in the *Kojiki* and the *Nihonshoki* as his starting point, and from there traces Japan's mythology through to post-war State Shinto, the rise of the manga industry in the 1960s, J-horror and modern-day myths. Reinventions and retellings of myth are present across all genres of contemporary Japanese culture, from its auteur cinema to renowned video games such as *Okami*. This book is for anyone interested in Japan, as knowing its myths allows readers to understand and appreciate its culture in a new light.

**Japanese Propriety, Past and Present** Taylor & Francis  
This book constitutes the refereed proceedings of the 23rd International Conference on Asia-Pacific Digital Libraries, ICADL 2021, which was held in December 2021. Due to COVID-19 pandemic the conference was held virtually. The 17 full, 14 short, and 5 practice papers presented in this volume were carefully reviewed and selected from 87 submissions. The papers were organized in topical sections named: Knowledge Discovery from Digital Collections; Search for Better User Experience; Information Extraction; Multimedia; Text Classification and Matching; Data Infrastructure for Digital Libraries; Data Modeling; Neural-based Learning.

**Olympic Cities** International Monetary Fund  
Japan combines diplomatic, peace and development efforts to achieve sustainable development and implements the Sustainable Development Goals (SDGs) through a whole-of-society approach. It values self-reliant development, country ownership and the mutual benefits of development co-operation for Japan and its partner countries.

*Loanwords and Japanese Identity* Chase's Calendar of Events 2020

Revenue Statistics in Asia and the Pacific is jointly produced by the Organisation for Economic Co-operation and Development

(OECD)'s Centre for Tax Policy and Administration (CTP) and the OECD Development Centre (DEV) with the co-operation of the Asian Development Bank (ADB), the Pacific Island Tax Administrators Association (PITAA), and the Pacific Community (SPC) and financial support from the governments of Ireland, Japan, Luxembourg, Norway, Sweden, Switzerland and the United Kingdom. This edition includes a special feature on the emerging challenges for the Asia-Pacific region in the COVID-19 era and ways to address them.

**Foreign Trade Statistics Notes** Taylor & Francis

This book analyses the trade relationship between Bangladesh and Japan, including foreign investments and foreign aid by Japan to Bangladesh. It emphasises how Japan may support Bangladesh in its next development journey during the fourth industrial revolution (4IR) and after Bangladesh's Least Developed Country (LDC) graduation. This is the first book to present a comprehensive evaluation of Bangladesh's economic relationship with Japan, including how it has evolved over the preceding fifty years and its possibilities and implications for the future. The book draws attention to the importance of increased economic diversification for Bangladesh in terms of skill and productivity with the increasing need to accelerate technological adoption from Japan to be on par with international competition following Bangladesh's LDC graduation. It presents a thorough examination of Bangladesh's prospects to access the Japanese market, as well as Japan's assistance in the development of human capital and infrastructure in Bangladesh. It also discusses how Bangladesh

might both attract additional foreign direct investment (FDI) from Japan and improve its technical skills by utilising expertise obtained through Japanese investments. This new study will inform policy discourse, influence relevant policies, and inspire future research on these key issues.

*Japan's Economy in the Year 2020* University of Hawaii Press

As a transnational history of science, *Japan's Empire of Birds: Aristocrats, Anglo-Americans, and Transwar Ornithology* focuses on the political aspects of highly mobile Japanese explorer-scientists, or cosmopolitan gentlemen of science, circulating between Japanese and British/American spaces in the transwar period from the 1920s to 1950s. Annika A. Culver examines a network of zoologists united by their practice of ornithology and aristocratic status. She goes on to explore issues of masculinity and race related to this amidst the backdrop of imperial Japan's interwar period of peaceful internationalism, the rise of fascism, the Japanese takeover of Manchuria, and war in China and the Pacific. Culver concludes by investigating how these scientists repurposed their aims during Japan's Allied Occupation and the Cold War. Inspired by geographer Doreen Massey, themes covered in the volume include social space and place in these specific locations and how identities transform to garner social capital and scientific credibility in transnational associations and travel for non-white scientists.

*United States Imports of Merchandise for Consumption* Springer Nature

Accompanied by annual issue in 1944 and by quarterly cumulative issues beginning in 1945.

**Into the Endless Mist** Taylor & Francis

An investigation into the evolution of the seven-day week and how our attachment to its rhythms influences how we live We take the seven-day week for granted, rarely asking what anchors it or what it does to us. Yet weeks are not dictated by the natural order. They are, in fact, an artificial construction of the modern world. With meticulous archival research that draws on a wide array of sources—including newspapers, restaurant menus, theater schedules, marriage records, school curricula, folklore, housekeeping guides, courtroom testimony, and diaries—David Henkin reveals how our current devotion to weekly rhythms emerged in the United States during the first half of the nineteenth century. Reconstructing how weekly patterns

insinuated themselves into the social practices and mental habits of Americans, Henkin argues that the week is more than just a regimen of rest days or breaks from work, but a dominant organizational principle of modern society. Ultimately, the seven-day week shapes our understanding and experience of time.

**A Short History of Transport in Japan from Ancient Times to the Present** Bloomsbury Publishing

Approaching the avant-garde Japanese performance art form of butoh from a cross-cultural, gender studies, and scientific perspective, award-winning artist and teacher Vangelina brings a fresh look at this postmodern dance form. Butoh, a performance art form that grew out of the Japanese avant-garde scene of the

1950s, has traveled from east to west over the last 60 years, growing in popularity as it evolves. With origins in modern dance, French mime, and the surrealist movement, this fascinating postmodern dance genre is often thought of as mysterious and is frequently misunderstood. Through twenty years of research, interviews with some of the world's top practitioners, historical documents, and rare photographs, Vangelina shines light on this "dance of darkness." New revelations include the under-represented role of women in the development of the form, the connection between butoh and neuroscience, and the cross-cultural perspective of international influences on the evolution of the dance. Butoh: Cradling Empty Space will appeal to dance students, teachers, performance art scholars, somatic healers,

and anyone interested in choreography, theater, and Japanese history, culture and art. The book includes rare photographs, helpful graphics, a detailed bibliography and footnotes, and resources for additional information. "[A] handbook for the butoh practitioner, the (art) historian, the dance critic, and the curious reader. Encompassing, and reconciling, problems of movement, gender, race and universality, Cradling Empty Space guides the reader through the many possibilities of butoh." -Alice Baldock, Faculty of History, University of Oxford, from the Foreword Praise for Vangelina's choreography and dance work: "Captivating." -New York Times "[She] moves with the clockwork deliberation of a practiced Japanese Butoh artist." -Los Angeles Times
