*Hearts in Atlantis* Penguin Publishers Weekly Most Anticipated Books of Fall 2019 A New York Times Editor's Pick People Best Books Fall 2019 Chicago Tribune 28 Books You Need to Read Now Booklist's Top Ten Sci-Tech Books of 2019 "It blew my mind to discover that teenage animals and teenage humans are so similar. Both are naive risk-takers. I loved this book!" —Temple Grandin, author of *Animals Make Us Human* and *Animals in Translation* A revelatory investigation of human and animal adolescence and young adulthood from the New York Times bestselling authors of *Zoobiquity*. With *Wildhood*, Harvard evolutionary biologist Barbara Natterson-Horowitz and award-winning science writer Kathryn Bowers have created an entirely new way of thinking about the crucial, vulnerable, and exhilarating phase of life between childhood and adulthood across the animal kingdom. In their critically acclaimed bestseller, *Zoobiquity*, the authors revealed the essential connection between human and animal health. In *Wildhood*, they turn the same eye-opening, species-spanning lens to adolescent young adult life. Traveling around the world and drawing from their latest research, they find that the same four universal challenges are faced by every adolescent human and animal on earth: how to be safe, how to navigate hierarchy; how to court potential mates; and how to feed oneself. Safety. Status. Sex. Self-reliance. How human and animal adolescents and young adults confront the challenges of wildhood shapes their adult destinies. Natterson-

Horowitz and Bowers illuminate these core challenges through the lives of four animals in the wild: Ursula, a young king penguin; Shrink, a charismatic hyena; Salt, a matriarchal humpback whale; and Slavc, a roaming European wolf. Through their riveting stories—and those of countless others, from adventurous eagles and rambunctious high schooler to inexperienced orcas and naive young soldiers—readers get a vivid and game-changing portrait of adolescent young adults as a horizontal tribe, sharing behaviors and challenges, setbacks and triumphs. Upending our understanding of everything from risk-taking and anxiety to the origins of privilege and the nature of sexual coercion and consent, *Wildhood* is a profound and necessary guide to the perilous, thrilling, and universal journey to adulthood on planet earth.

### Among Whales Simon and Schuster

An anthology of stories on human relationships. The story, *Eating Aunt Victoria*, traces the relationship of teenagers and their mother's lesbian lover, while in *Bringing Home the Bones* an accident in which a woman loses a leg improves her relations with her children.

### The Hunger Of The Wolf Simon and Schuster

*A Source Book for Mediæval History* is a scholarly piece by Oliver J. Thatcher. It covers all major historical events and leaders from the Germania of Tacitus in the 1st century to the decrees of the Hanseatic League in the 13th century.

**Depth of Winter** Kensington Books  
SOON TO BE A MAJOR MOTION PICTURE  
STARRING AMY ADAMS • In this blazingly smart and voracious debut novel, an artist turned stay-at-home mom becomes convinced she's turning into a dog. • "A must-read for anyone who

can't get enough of the ever-blurring line between the psychological and supernatural that Yellowjackets exemplifies." —Vulture One day, the mother was a mother, but then one night, she was quite suddenly something else... An ambitious mother puts her art career on hold to stay at home with her newborn son, but the experience does not match her imagination. Two years later, she steps into the bathroom for a break from her toddler's demands, only to discover a dense patch of hair on the back of her neck. In the mirror, her canines suddenly look sharper than she remembers. Her husband, who travels for work five days a week, casually dismisses her fears from faraway hotel rooms. As the mother's symptoms intensify, and her temptation to give in to her new dog impulses peak, she struggles to keep her alter-canine-identity secret. Seeking a cure at the library, she discovers the mysterious academic tome which becomes her bible, *A Field Guide to Magical Women: A Mythical Ethnography*, and meets a group of mommies involved in a multilevel-marketing scheme who may also be more than what they seem. An outrageously original novel of ideas about art, power, and womanhood wrapped in a satirical fairy tale, *Nightbitch* will make you want to howl in laughter and recognition. And you should. You should howl as much as you want.

**House of Names** Simon and Schuster King mesmerizes readers with fiction deeply rooted in the sixties, exploring in five interconnected narratives, spanning 1960 to 1999, the haunting legacy of the Vietnam War. "Engaging . . . King's gift of storytelling is rich".—"The Los Angeles Times Book Review".

*Mumbo Jumbo* Vintage

The death song of the white buffalo...a snowfall of herons alighting on a New York street...A mystic who makes stones rise from the desert floor...the startling disappearance of a river...."Winter Count" consists of nine intoxicating tales of revelation, singular recorded moments of clarity, magic and overwhelming truth, from the National Book Award-winning author of *Arctic Dreams* and recipient of the John Burroughs Medal for distinguished natural history writing. Copyright © Libri GmbH. All rights reserved.

*Arctic Dreams* HarperCollins

Here for the first time in a single volume are three of Richard Bach's most compelling works about flight. From his edgy days as a USAF Alert pilot above Europe in an armed F84-F Thunderstreak during the Cold War to a meander across America in a 1929 biplane, Bach explores the extreme edges of the air, his airplane, and himself in glorious writing about how it feels to climb into a machine, leave the earth, and fly. Only a handful of writers have translated their experiences in the cockpit into books that have mesmerized generations.

*Brokeback Mountain* Simon and Schuster

\* A Washington Post Notable Fiction Book of the Year \* Named a Best Book of the Year by NPR, The Guardian, The Boston Globe, St. Louis Dispatch From the thrilling imagination of bestselling, award-winning Colm Tóibín comes a retelling of the story of Clytemnestra and her children—"brilliant...gripping...high drama...made tangible and graphic in Tóibín's lush prose" (Booklist, starred review). "I have been acquainted with the smell of death." So begins Clytemnestra's tale of her own life in ancient Mycenae, the legendary Greek city from which her husband King Agamemnon left when he set sail with

his army for Troy. Clytemnestra rules Mycenae now, along with her new lover Aegisthus, and together they plot the bloody murder of Agamemnon on the day of his return after nine years at war. Judged, despised, cursed by gods, Clytemnestra reveals the tragic saga that led to these bloody actions: how her husband deceived her eldest daughter Iphigeneia with a promise of marriage to Achilles, only to sacrifice her; how she seduced and collaborated with the prisoner Aegisthus; how Agamemnon came back with a lover himself; and how Clytemnestra finally achieved her vengeance for his stunning betrayal—his quest for victory, greater than his love for his child. House of Names “is a disturbingly contemporary story of a powerful woman caught between the demands of her ambition and the constraints on her gender...Never before has Tóibín demonstrated such range,” (The Washington Post). He brings a modern sensibility and language to an ancient classic, and gives this extraordinary character new life, so that we not only believe Clytemnestra’s thirst for revenge, but applaud it. Told in four parts, this is a fiercely dramatic portrait of a murderess, who will herself be murdered by her own son, Orestes. It is Orestes’s story, too: his capture by the forces of his mother’s lover Aegisthus, his escape and his exile. And it is the story of the vengeful Electra, who watches over her mother and Aegisthus with cold anger and slow calculation, until, on the return of her brother, she has the fates of both of them in her hands.

The Crowded Hour Douglas & McIntyre  
The “gripping” (The Washington Post)  
story of the most famous regiment in American history: the Rough Riders, a motley group of soldiers led by Theodore

Roosevelt, whose daring exploits marked the beginning of American imperialism in the 20th century. When America declared war on Spain in 1898, the US Army had just 26,000 men, spread around the country—hardly an army at all. In desperation, the Rough Riders were born. A unique group of volunteers, ranging from Ivy League athletes to Arizona cowboys and led by Theodore Roosevelt, they helped secure victory in Cuba in a series of gripping, bloody fights across the island. Roosevelt called their charge in the Battle of San Juan Hill his “crowded hour”—a turning point in his life, one that led directly to the White House. “The instant I received the order,” wrote Roosevelt, “I sprang on my horse and then my ‘crowded hour’ began.” As *The Crowded Hour* reveals, it was a turning point for America as well, uniting the country and ushering in a new era of global power. “A revelatory history of America’s grasp for power” (Kirkus Reviews, starred review). Both a portrait of these men, few of whom were traditional soldiers, and of the Spanish-American War itself, *The Crowded Hour* dives deep into the daily lives and struggles of Roosevelt and his regiment. Using diaries, letters, and memoirs, *Risen* illuminates an influential moment in American history: a war of only six months’ time that dramatically altered the United States’ standing in the world. “Fast-paced, carefully researched...*Risen* is a gifted storyteller who brings context to the chaos of war. *The Crowded Hour* feels like the best type of war reporting—told with a clarity that takes nothing away from the horrors of the battlefield” (The New York Times Book Review).

A Source Book for Mediæval History  
Simon and Schuster

A post-apocalyptic debut novel in a

tradition that includes *The Hunger Games* and *Station Eleven*, this vision of a possible future shows humanity pushed beyond its breaking point, the forging of vital bonds when everything is lost, and, most centrally, a heroic young woman who crosses a frozen landscape to find her destiny. Lynn McBride has learned much since society collapsed in the face of nuclear war and the relentless spread of disease. As the memories of her old life continue to surface, she's forced to forge ahead in the snow-drifted Canadian Yukon, learning how to hunt and trap and slaughter. Forget the old days. Forget summer. Forget warmth. Forget anything that doesn't help you survive in the endless white wilderness beyond the edges of a fallen world. Shadows of the world before have found her tiny community—most prominently in the enigmatic figure of Jax, who brings with him dark secrets of the past and sets in motion a chain of events that will call Lynn to a role she never imagined. "With elements of Cormac McCarthy's *The Road* and TV's *The Walking Dead*, (Kirkus Reviews) *The Wolves of Winter* is both a heartbreaking, sympathetic portrait of a young woman searching for the answer to who she's meant to be and a frightening vision of a merciless new world in which desperation rules. It is enthralling, propulsive, and poignant.

**Wildhood** Simon and Schuster

When a prophecy brings war to the Hill Lands, Keeley Smythe must join forces with a clan of mountain warriors in a thrilling new fantasy romance series from New York Times bestselling author G.A. Aiken. *The Old King Is Dead* With the demise of the Old King, there's a prophecy that a queen will ascend to the throne of the Hill Lands. Bad news for the king's sons, who are prepared to

defend their birthright against all comers. But for blacksmith Keeley Smythe, war is great for business. Until it looks like the chosen queen will be Beatrix, her younger sister. Now it's all Keeley can do to protect her family from the enraged royals. Luckily, Keeley doesn't have to fight alone. Because thundering to her aid comes a clan of kilt-wearing mountain warriors called the Amichais. Not the most socially adept group, but soldiers have never bothered Keeley, and rough, gruff Caid actually seems to respect her. A good thing because the fierce warrior will be by her side for a much longer ride than any prophecy ever envisioned . . . Praise for *The Dragon Who Loved Me* "A chest thumping, mead-hall rocking, enemy slaying brawl of a good book." —All Things Urban Fantasy "Aiken aces another one." —RT Book Reviews, 4 Stars

**The Return of the Dancing Master** Vintage

In this eloquent and sympathetic book, Evernden evaluates the international environmental movement and the underlying assumptions that could doom it to failure. Beginning with a simple definition of environmentalists as "those who confess a concern for the non-human," he reviews what is inherent in industrial societies to make them so resistant to the concerns of environmentalists. His analysis draws on citing such diverse sources as Merleau-Ponty, Heidegger, and TIME, and examines how we tend to think about the world and how we might think about it. The book does not offer solutions to environmental questions, but it does offer the hope that there can be new ways of thinking and flexibility in human/environmental relations. Although humans seem alienated from

our the natural world, we can develop a new understanding of `self in the world.' The second edition has a new preface and an epilogue in which Evernden analyses the latest environmental catchphrase: sustainable development.

*Land of Wolves* Simon and Schuster  
 A Book-Lover's Holidays in the Open is a classic literary work by Teddy Roosevelt which describes the US president's adventures in the great American outdoors. The man should have youth and strength who seeks adventure in the wide, waste spaces of the earth, in the marshes, and among the vast mountain masses, in the northern forests, amid the steaming jungles of the tropics, or on the deserts of sand or of snow. He must long greatly for the lonely winds that blow across the wilderness, and for sunrise and sunset over the rim of the empty world. His heart must thrill for the saddle and not for the hearthstone. He must be helmsman and chief, the cragsman, the rifleman, the boat steerer. He must be the wielder of axe and of paddle, the rider of fiery horses, the master of the craft that leaps through white water. His eye must be true and quick, his hand steady and strong. His heart must never fail nor his head grow bewildered, whether he face brute and human foes, or the frowning strength of hostile nature, or the awful fear that grips those who are lost in trackless lands.

**Crossing Open Ground** Simon and Schuster

Hunters found his body naked in the snow. So begins this breakout book from Stephen Marche, whose last work of fiction was described by the New York Times Book Review as "maybe the most exciting mash-up of literary genres since David Mitchell's *Cloud Atlas*." The body in the snow is that of Ben Wylie, the heir

to America's second-wealthiest business dynasty, and it is found in a remote patch of northern Canada. Far away, in post-crash New York, Jamie Cabot, the son of the Wylie family's housekeepers, must figure out how and why Ben died. He knows the answer lies in the tortured history of the Wylie family, who over three generations built up their massive holdings into several billion dollars' worth of real estate, oil, and information systems despite a terrible family secret they must keep from the world. The threads of the Wylie men's destinies, both financial and supernatural, lead twistingly but inevitably to the naked body in the snow and a final, chilling revelation. *The Hunger of the Wolf* is a novel about what it means to be a man in the world of money. It is a story of fathers and sons, about secrets that are kept within families, and about the cost of the tension between the public face and the private soul. Spanning from the mills of Depression-era Pittsburgh to the Swinging London of the 1960s, from desolate Alberta to the factories of present-day China, here is a bold and breathtakingly ambitious work of fiction that uses the story of a single family to capture the way we live now: an epic, genre-busting tale of money, morality, and the American Dream.

**The Journal of Best Practices** Vintage Crime/Black Lizard

The new novel in Craig Johnson's beloved New York Times bestselling Longmire series. "It's the scenery—and the big guy standing in front of the scenery—that keeps us coming back to Craig Johnson's lean and leathery mysteries." —The New York Times Book Review Recovering from his harrowing experiences in Mexico, Sheriff Walt Longmire returns to Absaroka County, Wyoming, to lick his wounds and try

once again to maintain justice in a place with grudges that go back generations. When a shepherd is found dead, Longmire suspects it could be suicide. But the shepherd's connection to the Extepare, a powerful family of Basque ranchers with a history of violence, leads the sheriff into an intricate investigation of a possible murder. As Walt searches for information about the shepherd, he comes across strange carvings on trees, as well as play money coupons from inside Mallo Cup candies, which he interprets as messages from his spiritual guide, Virgil White Buffalo. Longmire doesn't know how these little blue cards are appearing, but Virgil usually reaches out if a child is in danger. So when a young boy with ties to the Extepare clan arrives in town, the stakes grow even higher. Even more complicating, a renegade wolf has been haunting the Bighorn Mountains, and the townspeople are out for blood. With both a wolf and a killer on the loose, Longmire follows a twisting trail of evidence, leading to dark and shocking conclusions.

**The Wolves of Winter** Simon and Schuster

Originally published in 1978, this classic exploration of humanity's complex relationship with and understanding of wolves returns with a new afterword by the author. Humankind's relationship with the wolf is the sum of a spectrum of responses ranging from fear to admiration and affection. Lopez's classic, careful study has won praise from a wide range of reviewers and improved the way books on wild animals are written. *Of Wolves and Men* explores the uneasy interaction between wolves and civilization over the centuries, and the wolf's prominence in our thoughts about wild creatures. Drawing upon an impressive array of literature, history,

science, and mythology as well as extensive personal experience with captive and free-ranging wolves, Lopez argues for the wolf's preservation and immerses the reader in its sensory world, creating a compelling portrait of the wolf both as a real animal and as imagined by different kinds of men. A scientist might perceive the wolf as defined by research data, while an Eskimo hunter sees a family provider much like himself. For many Native Americans the wolf is also a spiritual symbol, a respected animal that can strengthen the individual and the community. With irresistible charm and elegance, *Of Wolves and Men* celebrates careful scientific fieldwork, dispels folklore that has enabled the Western mind to demonize wolves, explains myths, and honors indigenous traditions, allowing us to understand how this remarkable animal has become so prominent for so long in the human heart.

*One Day in the Woods* Random House

As an unabashed dog lover, Alexandra Horowitz is naturally curious about what her dog thinks and what she knows. As a cognitive scientist she is intent on understanding the minds of animals who cannot say what they know or feel. This is a fresh look at the world of dogs -- from the dog's point of view. The book introduces the reader to the science of the dog -- their perceptual and cognitive Abilities -- and uses that introduction to draw a picture of what it might be like to be a dog. It answers questions no other dog book can -- such as: What is a dog's sense of time? Does she miss me? Want friends? Know when she's been bad? Horowitz's journey, and the insights she uncovered from studying her own dog, Pumpernickel, allowed her to understand her dog better, and appreciate her more

through that understanding. The reader will be able to do the same with their own dog. This is not another dog training book. Instead, *Inside of a Dog* will allow dog owners to look at their pets' behaviour in a different, and revealing light, enabling them to understand their dogs and enjoy their relationship even more.

**Light Action in the Caribbean** Anchor NOW A NEW FILM STREAMING ON MAX • #1 BESTSELLER • Ben Mears has returned to Jerusalem's Lot in hopes that exploring the history of the Marsten House, an old mansion long the subject of rumor and speculation, will help him cast out his personal devils and provide inspiration for his new book. "A master storyteller." —The Los Angeles Times When two young boys venture into the woods, and only one returns alive, Mears begins to realize that something sinister is at work. In fact, his hometown is under siege from forces of darkness far beyond his imagination. And only he, with a small group of allies, can hope to contain the evil that is growing within the borders of this small New England town. With this, his second novel, Stephen King established himself as an indisputable master of American horror, able to transform the old conceits of the genre into something fresh and all the more frightening for taking place in a familiar, idyllic locale.

**About This Life** Simon and Schuster "It's the scenery—and the big guy standing in front of the scenery—that keeps us coming back to Craig Johnson's lean and leathery mysteries." —The New York Times Book Review Walt journeys into the northern Mexican desert alone to save his daughter Cady, who has been kidnapped by the cartel Welcome to Walt Longmire's worst nightmare. Winter is creeping closer, but for Sheriff

Longmire this one is looking to be harsh in a way to which he is wholly unaccustomed. He has found himself in the remotest parts of the northern Mexican desert, a lawless place where no horse or car can travel, where no one speaks his language or trusts an outsider, far from his friends and his home turf back in Wyoming. But desperate times call for desperate measures. Tomas Bidarte, the head of one of the most vicious drug cartels in Mexico, has kidnapped Walt's beloved daughter, Cady. The American government is of limited help and the Mexican one even less so. Armed with his trusty Colt .45 and a father's intuition, Walt must head into the 110-degree heat of the desert, one man against an army.

Winter Count Simon and Schuster Wolves were once common throughout North America and Eurasia. But by the early twentieth century, bounties and organized hunts had drastically reduced their numbers. Today, the wolf is returning to its ancestral territories, and the "coywolf"—a smaller, bolder wolf-coyote hybrid—is becoming more common. In *Return of the Wolf*, author Paula Wild gathers first-hand accounts of encounters with wolves and consults with wildlife experts for suggestions on how minimize conflict, respond to aggressive wolves and coexist with the apex predator. Wild explores the latest theories on how wolves became dogs, the evolving strategies to prevent livestock predation, and why Eurasian wolves seem more aggressive toward humans than their North American cousins. She also addresses the many misconceptions about wolves: for example, that they howl when hungry, kill for pleasure and always live in packs. What is true is that a wolf possesses a

howl as unique as a human fingerprint and can trot eight kilometres per hour for most of the day or night in search of prey while using earth's magnetic field to find its way. Some scientists consider wolves' complex social structures and family bonds closer to humans' than those of primates. In a skillful blend of natural history, Indigenous stories and interviews with scientists and conservationists, Wild examines our

evolving relationship with wolves and how society's attitudes affect the populations, behaviour and conservation of wolves today. As a highly social, intelligent animal, the wolf is proving adept at navigating the challenges of an ever-changing landscape. But their fate remains uncertain. Wolves are adapting to humans; can humans adapt to wolves?
