*Defining Nations* Wesleyan University Press  
 "Omar Mouallem grew up in a Muslim household, but always questioned the role of Islam in his life. As an adult, he embraced atheism and used his journalism to criticize what he saw as the harms of organized religion. But none of that changed the way others saw him, and he began to wonder how compatible Islam truly is with the west. Now, as a father, he fears for the challenges his children will no doubt face. In *Praying to the West*, he explores the unknown history of Islam across the

Americas, traveling to thirteen unique mosques in search of an answer to how this religion has survived and thrived so far from the place of its origin. From California to Quebec, and from Brazil to Canada's icy north, he meets the members of fascinating communities, all of whom provide different perspectives on what it means to be Muslim. Along this journey he comes to understand that Islam has played a fascinating role in how the Americas were shaped--from industrialization to the changing winds of politics. And he also discovers that there may be a place for Islam in his own life, particularly as a father, even if he will never be a true believer. Original, insightful, and beautifully written, *Praying to the West* reveals a secret history of home and belonging taking place in towns and cities across the Americas, and points to a better, more inclusive future for everyone."--  
*Melungeon Portraits* Good Press  
 The history of America's conflict with the piratical states of the Mediterranean runs through the presidencies of Washington, Adams, Jefferson, and Madison; the adoption of the Constitution; the Quasi-War with France and the War of 1812; the construction of a full-time professional navy; and, most important, the nation's haltering steps toward commercial independence. Frank Lambert's

genius is to see in the Barbary Wars the ideal means of capturing the new nation's shaky emergence in the complex context of the Atlantic world. Depicting a time when Britain ruled the seas and France most of Europe, *The Barbary Wars* proves America's earliest conflict with the Arabic world was always a struggle for economic advantage rather than any clash of cultures or religions.

Jack D. Forbes's monumental *Africans and Native Americans* has become a canonical text in the study of relations between the two groups. Forbes explores key issues relating to the evolution of racial terminology and European colonialists' perceptions of color, analyzing the development of color classification systems and the specific evolution of key terms such as black, mulatto, and mestizo--terms that no longer carry their original meanings. Forbes also presents strong evidence that Native American and African contacts began in Europe, Africa, and the Caribbean.

### Mexicans in the Making of America Official Proclamation of Real Moorish American Nationality

There are thousands of followers of non-Judeo-Christian faith groups in American correctional institutions. Research suggests that many of these prisoners began their incarceration with little or no religious calling, but converted during their imprisonment. According to the FBI, some of these prisoners may be vulnerable to terrorist recruitment. The purpose of this study is three-fold: (1) to collect baseline information on non-traditional religions in U.S. correctional institutions; (2) to identify the personal and social motivations for prisoners' conversions to these faith groups; and (3) to assess the prisoners' potential for terrorist recruitment. The study creates a starting point for more in-depth research on the relationship between prisoners' conversion to non-traditional religions and extremist violence. Figure. At a time when concepts of racial and ethnic identity increasingly define how we see ourselves and others, the ancestry of Melungeons—a Central Appalachian multiracial group believed to be of Native American, African and European origins—remains controversial. Who is Melungeon, how do we know and what does that mean? In a series of interviews with individuals who claim Melungeon heritage, the author finds common threads that point to shared history, appearance and values, and explores how we decide who we are and what kind of proof we need.

"Citizenship is salvation," preached Noble Drew Ali, leader of the Moorish Science Temple of America in the early twentieth century. Ali's message was an aspirational call for black Americans to undertake a struggle for recognition from the state, one that would both ensure protection for all Americans through rights guaranteed by the law and correct the unjust implementation of law that prevailed in the racially segregated United States. Ali and his followers took on this mission of citizenship as a religious calling, working to carve out a place for themselves in American democracy and to bring about a society that lived up to what they considered the sacred purpose of the law. In *The Aliites*, Spencer Dew traces the history and impact of Ali's radical fusion of law and faith. Dew uncovers the influence of Ali's teachings, including the many movements they inspired. As Dew shows, Ali's teachings demonstrate an implicit yet critical component of the American approach to law: that it should express our highest ideals for society, even if it is rarely perfect in practice. Examining this robustly creative yet largely overlooked lineage of African American religious thought, Dew provides a window onto religion, race, citizenship, and law in America.

*African Asylum at a Crossroads: Activism, Expert Testimony, and Refugee Rights* examines the emerging trend of requests for expert opinions in asylum hearings or refugee status determinations. This is the first book to explore the role of court-based expertise in relation to

African asylum cases and the first to establish a rigorous analytical framework for interpreting the effects of this new reliance on expert testimony. Over the past two decades, courts in Western countries and beyond have begun demanding expert reports tailored to the experience of the individual claimant. As courts increasingly draw upon such testimony in their deliberations, expertise in matters of asylum and refugee status is emerging as an academic area with its own standards, protocols, and guidelines. This deeply thoughtful book explores these developments and their effects on both asylum seekers and the experts whose influence may determine their fate. Contributors: Iris Berger, Carol Bohmer, John Campbell, Katherine Luongo, E. Ann McDougall, Karen Musalo, Tricia Redeker Hepner, Amy Shuman, Joanna T. Tague, Meredith Terretta, and Charlotte Walker-Said.

In 1928, El Hajj Sharif Abdul Ali, known to the world as Noble Drew Ali, attended the Pan-American Conference in Havana, Cuba. At said conference, also attended by the not-invited Secretary of State for the UNITED STATES OF AMERICA, our Prophet received from the nations of America the mandate recognizing the Moor's claim to the Americas, and simultaneously, the expiration of the European mandate to occupy Moorish lands in the Western Hemisphere. The issuance and invocation of this Official Proclamation of Real Moorish American Nationality serves as constructive notice to the nations of the world: The Moors are back, and the Judgment of the Nations of the Earth is upon us. 100% of proceeds from sale of this title go toward promotion of Moorish American political issues in the US and abroad.

The third book in the &LAW series addresses the perpetual issue of state sovereignty in the federal union"~states' rights.' From the 1770s, through the Confederate states' secession, and continuing until now, a central issue of governance is state power to object to, cancel, or be immune from federal law. The issue is fervently debated in the political arena by Tea Party efforts to limit federal intervention in education and health care; and the nullification movement efforts to prevent federal gun control and marijuana regulations. And it is a linchpin of the Supreme Court's ruling on the Voting Rights Act. This volume provides an intelligent voice in the debate about states' rights"interposition, nullification, secession, constitutional amendment"150 years after Fort Sumter.

From the book: "Mother Earth had flung the star gates wide open this time. Coming out of the north, a messenger from the galactic community would reignite the fires of insurrection. Crossing the racial and sexual boundaries of lost knowledge and ancient wisdom, his words of sheer defiance would turn the tide against the transnational corporations and unite the ancient defenders of the throne." A visionary synthesis of alien contact, the Moorish Legacy, reincarnation and human origins, *The Moor, The Mason And The Alien* engages the reader with a radically ambitious scope of knowledge and wisdom, putting us on track with a magnificent interstellar experience through the paranormal and extraterrestrial terrains of ancient history, psychology, economics and current affairs. Ranging from the author's personal odyssey to the global issues we all face, Richard Smith serves up "a spiritual insurrection," an epic saga like no other representing the beginning of a new and riveting human adventure, taking the reader on an historical account of a global rebellion that begins with the Sasquatch going head to head with the Greys and transforms into the ancient Moorish Legacy of the Egyptian University System. Rooted in the extraterrestrial, paranormal and metaphysical experiences of the author himself, his path of awakening brings him face to face with an entity known as the Crone, a primordial relic of a much older galactic community. Representing an interstellar collective known as the Sisterhood, the Crone intentionally takes the author on an odyssey of self exploration into the human condition, forcing him to confront the reality of the Ancient Vendetta against humanity. Evolving into the 'Son of the Mother', his journey causes him to become the one person who realizes how to put it together. As the fate of Mother Earth hangs in the balance, the adventure escalates into a battle of wits pitting the Temple of Solomon and the Gene for Passion against the Corporate Titans of Orion in a global movement known as The Human Origins Revolution. The result of twenty years of paranormal experience, psychological analysis and metaphysical study of Earth's solar system and cosmology, *The Moor, The Mason And The Alien* provides a unique, unvarnished and revolutionary perspective on humanity's origins that is introspective, ethereal, apocalyptic and otherworldly all at the same time. RICHARD SMITH is an experiencer, author, international speaker and radio host on the topic of UFOs, the Moorish Legacy and related matters. He was born in Tampa, Florida, in 1970. He grew up in Farmingdale, New York, playing baseball, soccer and the piano while studying art, math, science fiction and the cosmos. He earned an Associate's degree in Advertising Art and Design and a Bachelor's degree in Visual Arts and Communication at New York State University. He also received the Certificate of Achievement Award, honored for Outstanding Achievement, at New York State University for his dedicated work with Extraterrestrial Intervention and Alien Abduction Phenomena. He is an alumnus of both Farmingdale and Old Westbury colleges. Since publishing his experiences on the subject of alien contact in 1999, Richard has travelled throughout the U.S. speaking to audiences.

In *Nature Knows No Color-Line*, originally published in 1952, historian Joel Augustus Rogers examines the origins of racial hierarchy and the color problem. Rogers was a humanist who believed that there were no scientifically evident racial divisions—all humans belong to one "race." He believed that color prejudice generally evolved from issues of domination and power between two physiologically different groups. According to Rogers, color prejudice was then used a rationale for domination, subjugation and warfare. Societies developed myths and prejudices in order to pursue their own interests at the expense of other groups. This book argues that many instances of the contributions of black people had been left out of the history books, and gives many examples.

A "lively and engaging" history of the Middle Ages (Dallas Morning News) from the acclaimed historian William Manchester, author of *The Last Lion*. From tales of chivalrous knights to the barbarity of trial by ordeal, no era has been a greater source of awe, horror, and wonder than the Middle Ages. In handsomely crafted prose, and with the grace and authority of his extraordinary gift for narrative history, William Manchester leads us from a civilization tottering on the brink of collapse to the grandeur of its rebirth: the dense explosion of energy that spawned some of history's greatest poets, philosophers, painters, adventurers, and reformers, as well as some of its most spectacular villains. "Manchester provides easy access to a fascinating age when our modern mentality was just being born." --Chicago Tribune
