A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly

present. A novel so compelling that it begs to be read in a single setting, *The Sense of an Ending* has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of

her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

Hearings Funstory
This book, first published in 1989, contains reprints of the early periodical on accounting, *The Book-Keeper*. It dealt with 'historical reviews of methods and systems in all ages and by all nations. Elucidations of accounts, introducing new and simplified features of accounting. Problems

from the counting-room discussed and explained. Instructive notes upon plans and methods of book-keeping in every department of trade, commerce and industry.' The journal is a primary source for students interested in the history of accounting.
The If Machine, 2nd edition Editorial Ink
This book is a systemic study of human creativity. It offers a fascinating visual model of the creative process consisting of four major stages: stage I, the

interplay of chaos and order; stage II, creative production; stage III, cultural selection; stage IV, morpho-evolution and morpho-elimination of created products and forms.

Operation Job Search is the ultimate guide for US military veterans seeking employment after

discharge. It provides information about the civilian workforce, rubrics for navigating one's career, and a list of essential resources to consult during the job search. Also included are sections dedicated specifically to suggestions and resources available to female veterans. Weiss explains that hiring managers and human resources directors hire veterans who make the effort to build a professional relationship. He discusses the importance of leaving the

house and meeting employers at venues such as job fairs, trade shows, office parks, and even Starbucks. Weiss offers practical instructions and crucial tips, such as: Establish an operations center (home office) for job hunting Don't be afraid to make cold calls Dress appropriately for job interviews and practice communicating in civilian-speak, not military jargon Target military-friendly companies that value the skills of returning military personnel If you are a US

military veteran searching for a job, *Operation Job Search* will guide you every step of the way—from translating your skills into civilian-speak to negotiating your contract.

Fully updated edition with five brand new sessions and bonus features. Fully updated with new developments in the theory and practice of teaching philosophy, this new edition of the

bestselling book, *The If Machine*, presents 30 clear, ready-to-use plans to teach philosophy in the classroom with children aged five to 13. Each tried-and-tested session offers an imaginary situation, followed by a series of questions to encourage children to challenge key philosophical ideas such as values and ethics, gender and identity, and existence and beauty. With a star system indicating the level of difficulty, this practical book by Peter Worley,

founder of The Philosophy Foundation, outlines Peter's philosophical enquiry method, which he has developed over 20 years of teaching. This fantastic resource also includes a new hints and tips section, as well as a troubleshooting table with guidance and links to further resources about how to deal with common problems such as unanimity. Accompanied by a companion website featuring an introduction to the philosophy that inspired the ideas, *The If Machine* is a must-have

resource for all classrooms.

Discovered in the secret compartment of a North Italian cabinet, this enchanting manuscript may or may not be complete, and it may or may not be intended for posterity. Undeterred by these uncertainties, John Fuller gives us the early nineteenth-century 'memoirs' of Laetitia Horsepole, painter, philosopher and femme fatale. Shelley, apparently, came across

this formidable woman, aged ninety, on his travels through Italy, and became her confidant and neighbour. Why, the reader may wonder, is she not better known? Why indeed? That long spell in Madagascar certainly interrupted her career. She was prickly and disinclined to ingratiate herself with the arbiters of fashionable taste. And then her virtual disappearance to Italy didn't help matters. But her obscurity gives added piquancy to the memoirs which - her idiosyncratic

art theory and philosophy apart - are above all a dramatic eighteenth-century adventure in five acts which reflect her tempestuous involvement with the five 'husbands' of her life, from the brutish Crowther and the dull and the rich but louche Count Chiavari. Laetitia reflects on the vagaries of love and erotic involvement, on art and men, on flora and fauna, and reveals for the first time what actually happened in Madagascar. Shamelessly enjoyable, teasingly allusive, irresistibly funny

and sometimes sad, Laetitia's is quite simply a brilliant and bewitching romance full of truths that lie deeper than fact.

Random House "And I thought I knew this crazy-brave black boy who bolted out of a Harlem ghetto into a white prep school and bobbed and weaved his way across the treacherous divide between black and white America. But Dennis Watlington's life story is even more astonishing than I knew. He emerges

a no-jive black integrationist who is proud of the slave ancestry that makes him a solid American foreperson." -Gail Sheehy, bestselling author of Passages and Understanding Men's Passages Chasing America is a rollercoaster ride through promise and poverty, affirmative action and addiction, and a powerful story that captures a life and an era that is seminally American. Born in Harlem in 1952, Dennis developed a heroin habit

at the age of 14, kicked it, and received a scholarship to the Hotchkiss School where he was elected president of his class. He went on to NYU, became involved in film and theater (he had a small role in The Deerhunter and gave Bruce Willis his start in a play called Bullpen), got addicted to crack, kicked

that, and became an Emmy winning television writer. Chasing America shows us the best and worst that America offers to a Black man--from the Jim Crow South to boarding school life in New England to backstage at the Fillmore East to a holding cell in Bellevue Hospital. Part Ellison, part Exley, Chasing America is

an amazing story.
