It was spring in New Mouse City! I love to celebrate the season with my fellow mice by exchanging

chocolate eggs and competing in a confectionary challenge. This year, there was also a special exhibition of priceless jeweled Mouseberge eggs in town. Then one of the Mouseberge eggs was stolen... and it was up to me to find it! Squeak! Could I chase it down?

This early work by Earl Derr Biggers

was originally published in 1929 and we are now republishing it with a brand new introductory biography. "The Black Camel" tells the story of a Hollywood star (Shelah Fane), who is stopping in Hawaii after she finished shooting a film on location in Tahiti. She is murdered in the pavilion of her renter house in Waikiki during her stay. Chan, in his position as a detective with the Honolulu Police

Department, "investigates amid public clamor demanding that the murderer be found and punished immediately. "Death is a black camel that kneels unbidden at every gate. Tonight black camel has knelt here", Chan tells the suspects. Earl Derr Biggers was born on 26th August 1884 in Warren, Ohio, USA. Biggers received his further education at Harvard University, where he

developed a reputation as a literary rebel, preferring the popular modern authors, such as Rudyard Kipling and Richard Harding Davis to the established figures of classical literature. Following in their footsteps upon graduating, he himself began a career as a popular writer, penning humorous articles and reviews for the Boston Traveler. While on holiday in

Hawaii, Biggers heard tales of a real-life Chinese detective operating in Honolulu, named Chang Apana. This inspired him to create his most enduring legacy in the character of super-sleuth Charlie Chan. The first Chan story "The House Without a Key" (1925) was published as a serialised story in the Saturday Evening Post and then released as a novel in the same year. Biggers went on to write five more

Chan novels and all were licensed for movie adaptations by Fox Films. These films were hugely popular with several different actors taking the lead role of Chan. Eventually; over 40 films were produced featuring the character. Biggers only saw the early on-screen successes of Charlie Chan due to his death at the age of only 48 from a heart attack in April 1933. *28 Good Night*

the Greatest  
Lie about our  
common world  
history. The

Tartary civilization encompassed most of the World we know today. From Russia to China to Africa to India to Australia and New Zealand to the North and South America's. There have been swept from modern his-story books and were likely destroyed in the 19th-20th centuries along with many of their amazing buildings. There are numerous documents proving that

there were also Giants amongst them. The people of Tartary were destroyed by the same advanced technology that controls our weather were flooded, fire bombed, earthquaked and likely had directed energy weapons (DEW) used against them and many of their bones are buried under our cities today. Their "Old Word Order" was a benevolent society where they used

sacred geometrical designs, pipe organs and catillion bells to help and to heal and to achieve higher consciousness . All of the architecture and technology we know of today was developed by the Tartar's. The 18th and 19th centuries were final book burning and removal from historical knowledge of this once great civilization that flourished up until just 100 years ago.
