### **The Drama of Celebrity**

DC Comics

From JFK to Marilyn--the morbid, medical, and mysterious facts behind the most famous celebrity deaths. When a life ends tragically whether by violence or accident, pathologists perform an

autopsy to determine the cause of death. It is a methodical, morbid, and necessary task. These autopsy reports, often filled with medical terminology and intriguing diagrams of the bodies we knew so well from their lives on the big screen, offer an unusual insight into the nature of death itself. The reports you'll find here provide a fascinating glimpse into

the underworld that hovers just beyond the reach of the living. Includes the autopsy files or transcriptions from dozens of famous people including: Presidents: Abraham Lincoln and John F. Kennedy Politicians: Simon Bolivar, Adolf Hitler, Vladimir Lenin, and Malcolm X Assassins and Criminals: Lee Harvey Oswald, Jesse James, and Bonnie and Clyde

Musicians and Movie Stars: Elvis Presley, Marilyn Monroe, Notorious B.I.G., Janis Joplin, Whitney Houston, and Ludwig Van Beethoven In a world more obsessed with celebrity than ever before, these reports are a sobering reminder of how fleeting real fame can be--and how destructive and dangerous as well. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--

books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise

find a home.

### **Teaching Creative**

**Writing** Triumph Books From \$10,000 tweets to making money in the afterlife, a recovering gossip columnist explores the business lessons that power the Hollywood Industrial Complex Why do celebrities get paid so much more than regular people to do a job that seems to afford them the same amount of leisure time as most retirees? What do Bush-era economics have to do with the rise of Kim Kardashian? How do the

laws of supply and demand explain why the stars of Teen Mom are on the cover of Us Weekly? And how was the sale of Brad Pitt and Angelina Jolie's baby pictures a little like a street drug deal? After a decade spent toiling as an entertainment journalist and gossip columnist, Jo Piazza asks the hard questions about the business behind celebrity. Make no mistake: Celebrity is an industry. Never in the course of human history has the market for celebrities

been as saturated as it is today. Nearly every day most Americans will consume something a celebrity is selling—a fragrance, a sneaker, a song, a movie, a show, a tweet, or a photo in a magazine. With the benefits of Piazza's unique access to the celebrity market, Celebrity, Inc. explains in detail what generates cash for the industry and what drains value faster than a starlet downs champagne—in twelve fascinating case studies that tackle celebrities the

way industry analysts would dissect any consumer brand.

### **The Big Book of Celebrity Inventions**

Wilberforce Codex  
Andy Warhol once said that everyone will have 15 minutes of fame. But why stop at 15 minutes? Being a celebrity opens doors that are closed to even the top members of society. Numerous celebrities have become budding business moguls and established themselves as very successful entrepreneurs. Their names have become

brands worth millions of dollars. And celebrity status offers something that money really can't buy. It gives you a position and importance in society that can perhaps be rivaled only by top political leaders. More people will listen to what a celebrity has to say on a subject he or she may know nothing about than to wisdom from a senator who has served his state all his professional life. Celebrities are the new royalty. So why wouldn't you want to be one? This book provides a step-by-

step description on how you can build a career in the limelight-from the very basics to the hidden secrets of the trade. It won't change your life overnight, but it will give you all the tools you need to succeed.

Why do so many people care so much about celebrities? Who decides

who gets to be a star? What are the privileges and pleasures of fandom? Do celebrities ever deserve the outsized attention they receive? In this fascinating and deeply researched book, Sharon Marcus challenges everything you thought you knew about our obsession with fame. Icons are not merely famous for being famous; the media alone cannot make or break stars; fans are not simply passive dupes. Instead, journalists, the public, and celebrities themselves all

compete, passionately and expertly, to shape the stories we tell about celebrities and fans. The result: a high-stakes drama as endless as it is unpredictable. Drawing on scrapbooks, personal diaries, and vintage fan mail, Marcus traces celebrity culture back to its nineteenth-century roots, when people the world over found themselves captivated by celebrity chefs, bad-boy poets, and actors such as the "divine" Sarah Bernhardt (1844-1923), as famous in her day as the

Beatles in theirs. Known in her youth for sleeping in a coffin, hailed in maturity as a woman of genius, Bernhardt became a global superstar thanks to savvy engagement with her era's most innovative media and technologies: the popular press, commercial photography, and speedy new forms of travel. Whether you love celebrity culture or hate it, *The Drama of Celebrity* will change how you think about one of the most important phenomena of modern times. *Celebrity Death*

In this clear-eyed, gritty, and enthralling narrative, Dr. Vincent DiMaio and veteran crime writer Ron Franscell guide us behind

the morgue doors to tell a fascinating life story through the cases that have made DiMaio famous—from the exhumation of assassin Lee Harvey Oswald to the complex issues in the shooting of Florida teenager Trayvon Martin. Beginning with his street-smart Italian origins in Brooklyn, the book spans 40 years of work and more than 9,000 autopsies, and DiMaio's eventual rise into the pantheon of forensic scientists. One of the country's most methodical

and intuitive criminal pathologists will dissect himself, maintaining a nearly continuous flow of suspenseful stories, revealing anecdotes, and enough macabre insider details to rivet the most fervent crime fans.

Literally the last word for Hollywood trivia buffs, a celebrity death certificate is also strangely compelling. Its matter-of-fact reportage makes the famous ordinary, illuminating previously well-lit profiles with the unfiltered light of the everyday. A death certificate may also reveal information that stars assiduously concealed,

such as actual birthdates. In California, home to many of Hollywood's brightest stars, death certificates are a matter of public record--and consequently an untapped mine of information. This follow-up to M.F. Steen's previous collection (2003) reproduces in full 169 of the death certificates of the entertainment industry's dearly departed. Brief biographical notes are included, listing birth and professional name as well as notable film, TV and

entertainment credits. Mel Blanc, Lorne Greene, John Ritter, Gregory Peck, and Ronald Reagan are just a few of Hollywood's notables whose death certificates are collected here.

The Big Book of Dummies, Rebels and Other Geniuses Harper Collins  
The Book That Gives the Inside Story on Hundreds of Secrets of American Life --Big Secrets. Are there really secret backward messages in rock music, or is somebody nuts? We tested suspect tunes at a

recording studio to find out. What goes on at Freemason initiations? Here's the whole story, including -- yes! -- the electric carpet. Colonel Sanders boasted that Kentucky Fried Chicken's eleven secret herbs and spices "stand on everybody's shelf." We got a sample of the seasoning mix and sent it to a food chemist for analysis. Feverish rumor has it that Walt Disney's body was frozen and now lies in a secret cryonic vault somewhere beneath the Pirates of the

Caribbean exhibit at Disneyland. Read the certified stranger-than-fiction truth. Don't bother trying to figure out how Doug Henning, David Copperfield, and Harry Blackstone, Jr., perform their illusions. *Big Secrets* has complete explanations and diagrams, nothing left to the imagination. *The Big Book of Famous People* Flatiron Books Marilyn Monroe died at 36. Her death certificate lists "Acute Barbiturate Poisoning. Ingestion of Overdose" as the cause.

Just below that line, you can see that the person who issued her death certificate typed "Probable Suicide." Many people question whether her death was a suicide, an accident, or possibly a homicide. A death certificate is an intriguing document. It encapsulates a person's life story on one page--the birthplace, parents, education, length of career, residence, time, place, and cause of death and finally, what happened to the remains. The information required for a death certificate can

vary since each state looks at it differently. California regards them as public documents. Texas and New York makes them available only to family members and others showing a direct need. Satisfying curiosity is not considered a need. John Belushi, John Denver, George Harrison, Truman Capote, "Fred and Ginger" and Frank Sinatra are just a few of the 182 Hollywood notables from the Silent Era to today whose intriguing death certificates are collected here--fascinating!

### The Big Book for Peace

#### The Big Book of Celebrity Autopsies

In this new book, Mark Wheeler offers the first in-depth analysis of the history, nature and global reach of celebrity politics today. Celebrity politicians and politicized celebrities have had a profound impact upon the practice of politics and the way in which it is now communicated. New forms of political participation have emerged as a result and the political classes have increasingly absorbed the

values of celebrity into their own PR strategies. Celebrity activists, endorsers, humanitarians and diplomats also play a part in reconfiguring politics for a more fragmented and image-conscious public arena. In academic circles, celebrity may be viewed as a 'manufactured product'; one fabricated by media exposure so that celebrity activists are no more than 'bards of the powerful.' Mark Wheeler, however, provides a more nuanced critique contending that both celebrity politicians

and politicized stars should be defined by their 'affective capacity' to operate within the public sphere. This timely book will be a valuable resource for students of media and communication studies and political science as well as general readers keen to understand the nature and reach of contemporary celebrity culture.
