A hundred years ago, a small settlement sprang up in the Northern Cape. A rich diversity of people moved in, as the children were born, Vatmaar became a village. A. H. M. Scholtz tells of Oom Chai, who in turn tells of a Vuurmaak, who in turn introduces someone else. Thus a chain of stories is created interlinking the fates of unforgettable characters like Lance-Corporal George Lewis and his Tswana wife, Rush, Sis Bet, Old Chetty, Hendruk, January, Tant Vonnie and her daughters as they recount tales of the Anglo-Boer War, the

diamond diggings, court cases and stokvels: the tricksters and the tricked, marriages and funerals, love and betrayal. A Place Called Vatmaar is a panoramic novel: compelling, wise and humane.

In both Europe and North America during the past 20 years, controversy has surrounded the education of children from linguistic minority backgrounds. An increasing number of minority children are experiencing difficulties at school and many leave school with no formal qualifications. There are fears among many educators and policy-makers that an entire generation of alienated youth with no future prospects is being produced by western educational systems. This book analyses policy issues regarding the education of minority students in western

industrialised societies and presents a number of case studies of programs that have been successful in reversing the pattern of minority students' academic failure. A central theme throughout the volume is that the causes of minority students' academic difficulties are rooted in the power relations between the dominant and subordinate groups in society. Schools have typically reflected and reinforced these power relations through strategies such as punishment of children for speaking their mother tongue at school with the result that minority students have not developed confidence in their own cultural identity or academic abilities. Reversal of minority students' school failure requires that educators set out to enable both minority students and communities to empower themselves. The presentation of case studies in which this empowerment has been successfully achieved is complemented by the perspectives of individuals and minority communities who have been involved in the struggle for educational and linguistic rights of minority children.

Reading Success for Struggling

Adolescent Learners Springer Nature
A wide-ranging guide to language and society in South Africa. The book surveys the most important language groupings in the region in terms of wider socio-historical processes; contact between the different language varieties; language and public policy issues associated with post-apartheid society and its eleven official languages.

This is the first of a series of five volumes on the ASEAN countries being published by Oxford University Press in collaboration with the Southeast Asian Studies Program. In 1819 Thomas

Stamford Raffles established an outpost of British India on a sparsely populated island at the southern end of the Straits of Malacca. This book tells how that settlement became a Crown Colony that was for over 100 years one of the most prosperous ports not just of British Malaya, but in the entire British Empire. This multi-faceted historical process is discussed by eighteen Singapore scholars. Starting with a short survey of the pre-modern history of Singapore, their work provides both a chronological account of events and specialized studies including community, the family, education, mass media, housing, health care, welfare, population growth, and national identity.

Set in nineteenth-century rural Africa, *Fie! s Child* tells the gripping story of Fie! a Komoetie and a white, three-year old child, Benjamin, whom she finds crying on her doorstep. For nine years Fie! raises Benjamin as one of her own children. But when census takers discover Benjamin, they send him to an illiterate white family of woodcutters who claim him as their son. What follows is Benjamin's search for his identity and

the fundamental changes affecting the white and black families who claim him. "Everything a novel can be: convincing, thought-provoking, upsetting, unforgettable, and timeless."—Grace Ingoldby, *New Statesman* "Fiela's Child is a parade that broadens and humanizes our understanding of the conflicts still affecting South Africa today."—Francis Levy, *New York Times Book Review* "A powerful creation of time and place with dark threads of destiny and oppression and its roots in the almost Biblical soil of a storyteller's art."—Christopher Wordsworth, *The Guardian* "The characters in the novel live and breathe; and the landscape is so brightly painted that the trees, birds, elephants, and rivers of old South Africa are characters themselves. A book not to miss."—Kirkus Reviews

After being released from prison and winning South Africa's first free election, Nelson Mandela presided over a country still deeply divided by fifty years of apartheid. His plan was ambitious if not far-fetched: Use the national rugby team, the Springboks--long an embodiment of white supremacist rule--to embody and engage a new South Africa as they prepared to host the 1995 World Cup. The string of wins that followed not only defied the odds, but capped Mandela's miraculous effort to bring South Africans together in a hard-won, enduring bond.

The book also provides a detailed biographical introduction and a commentary on the growth of ideas over three decades.

Jy-weet-wie Multilingual Matters

In a world first, almost incredibly, Riaan Manser rode a bicycle right around the continent of Africa. It took him two years, two months and fifteen days. He rode 36 500 kilometres through 34 different countries. In *Around Africa on my Bicycle*, Manser tells the story of this epic journey. It is a story of blood, sweat, toil and tears. It is a story of triumph and occasional disaster. Of nights out under the stars, of searing heat and rain, of endless miles of Africa and of pressing on and never surrendering whatever the odds. Mostly however it is the story of one man's courage and determination to escape the mundane and see the continent he loves and feels so much a part of. It is a story of the human warmth he encounters, and occasionally human wrath and hostility as he crosses troubled countries and borders.

This publication sets out to give content to the debate about multilingual education by providing both a conceptual framework and example of successful practice in bi/multilingual classrooms. Based on the firm belief in the maintenance and development of first-language medium of instruction throughout schooling, and on the need to learn at least a second language, the book argues strongly in favour of a policy of additive bi/multilingualism for formal schooling.
