****Testimonials****] just wanted to drop you guys a line and tell you that I passed my final CLEP exam last Monday which gives me all of the credits I need to graduate. I have taken 30 credits worth of CLEP exams and I've passed them all by using your study guides. I actually purchased one of your study guides and failed my first test. I didn't fail because of your guide though, I failed because I didn't manage my time effectively and I ran short. I looked at your study guide after failing though, and a lot of the information on your study guide was very relevant to what was on the test. So, I tried again with a different test and

a different study guide of yours. I passed. This pattern continues for 30 credits. I graduate on June 9th thanks to you guys, so I wanted to say thank you. The guides were worth every penny. Thanks, -John S.****I would like to thank you for your study guides. I will be graduating in December with two bachelor degrees and CLEP helped me get there quickly. I gained 36 credits through CLEP and your study guides helped me through almost all of them. I can honestly say that I would not have passed many of the tests without your guides. Great products. Thanks!! -Erin W.****

The Skills That Matter Simon and Schuster

Beginning with the foundations of community development, *An Introduction to Community Development* offers a comprehensive and practical approach to planning for communities. Road-tested in the authors' own teaching, and through the training they provide for practicing planners, it enables students to begin making connections between academic study and practical know-how from both private and public sector contexts. *An Introduction to Community Development* shows how planners can utilize local economic interests and integrate finance and marketing considerations into their strategy. Most importantly, the book is strongly focused on outcomes, encouraging students to ask: what is best practice when it comes to planning for communities, and how do we accurately measure the results of

planning practice? This newly revised and updated edition includes: increased coverage of sustainability issues, discussion of localism and its relation to community development, quality of life, community well-being and public health considerations, and content on local food systems. Each chapter provides a range of reading materials for the student, supplemented with text boxes, a chapter outline, keywords, and reference lists, and new skills based exercises at the end of each chapter to help students turn their learning into action, making this the most user-friendly text for community development now available.

This concise composition handbook offers innovative design features that make it the most accessible tabbed handbook available: moveable KeyTabs that allow students to personalize the book, a menu-driven Key to the Book, and color-coded divider tabs to help students find information quickly.

Complete coverage of grammar and the writing, research, and documentation processes are complemented by helpful multilingual/ESL material, Writing Across the Curriculum elements, and The 5Cs of

Style. In recent years, technology has touched every aspect of writing and research and the Third Edition of Keys for Writers keeps pace with students' changing needs. This thorough revision now offers a full-color design; substantial new material on evaluating sources and the use of technology for research and writing; expanded coverage of writing online and document design; the most up-to-date MLA, APA, CMS, CBE, and CGOS guidelines; integrated ESL resources; and an expanded section on argument. New! A new Part 5, Technology: For Communication, Document Design, and Work, presents the latest information on writing for online readers, e-mail discussion lists, and chatrooms. Ample illustrations--including a sample student web site and an online scannable resume--and easy-to-understand explanations address web site and document design as well as work-related documents. New! The new full-color design highlights important information and clearly depicts web graphics, charts, and other visuals. New! Completely up-to-date documentation coverage features the latest MLA and APA styles, as updated on their respective web sites, the Columbia Guide to Online Style, many new student examples, and a new student paper. Two rows of color-coded divider tabs aid students in finding information quickly. Red tabs (Parts 1-5) cover whole paper issues: the writing process, research and documentation, online and business writing, and document design. Gold tabs (Parts 6-10) cover sentence-level issues such as usage, grammar, punctuation, and mechanics. Color-coded Key to the Book, an initial menu page, aligns the table of contents with the divider tabs to help students flip directly to the part they need. Its colors correspond to those

of the divider tabs. Unique moveable KeyTabs serve as bookmarks, extended margins, or note cards, and enable students to customize the book for quick access to the information they decide they need most. Key Points boxes present concise summaries and checklists to highlight vital information and encourage the development of editing and critical-thinking skills. New! Updated and expanded information includes a new section on evaluating sources, a new source list for 24 disciplines, compiled in consultation with 19 college librarians, and a thoroughly revised section on the process of writing a research paper. New! The expanded Writing an Argument section includes a sample student argument paper on telemarketing. Students learn to formulate an argument, support it with evidence, and address opposing views. New! Content changes and additions include integrated ESL coverage throughout, and increased emphasis on style, critical thinking, and writing across the curriculum.

Fifteen years ago, Gloria Naylor burst onto the American literary scene with *The Women of Brewster Place*. Now she has focused her attention on the other side of the story - the men of Brewster Place. Like the women, they are committed to one another and to their community. Ben, who died in the first *Brewster Place* novel, is resurrected to narrate the tales of seven men and the women who love them. The complexity

of their personal issues and how they are resolved leaves the reader with renewed hope and optimism.

Measurement in Marketing John Wiley & Sons

As the current recession ends, many workers will not be returning to the jobs they once held--those jobs are gone. In *The New Division of Labor*, Frank Levy and Richard Murnane show how computers are changing the employment landscape and how the right kinds of education can ease the transition to the new job market. The book tells stories of people at work--a high-end financial advisor, a customer service representative, a pair of successful chefs, a cardiologist, an automotive mechanic, the author Victor Hugo, floor traders in a London financial exchange. The authors merge these stories with insights from cognitive science, computer science, and economics to show how computers are enhancing productivity in many jobs even as they eliminate other jobs--both directly and by sending work offshore. At greatest risk are jobs that can be expressed in programmable rules--blue collar, clerical, and similar work that requires moderate skills and used to pay middle-class wages. The loss of these jobs leaves a growing division between those who can and cannot earn a good living in the computerized economy. Left unchecked, the division threatens the nation's democratic institutions. The nation's challenge is to recognize this division and to prepare the population for the high-wage/high-skilled jobs that are rapidly growing in number--jobs involving extensive problem solving and interpersonal communication. Using detailed examples--a second grade classroom, an IBM managerial training program, Cisco Networking Academies--

the authors describe how these skills can be taught and how our adjustment to the computerized workplace can begin in earnest.

"A fascinating and genuinely accessible guide....Educating, enjoyable, and delightfully unscary."—Classical Music What if Bach and Mozart heard richer, more dramatic chords than we hear in music today? What sonorities and moods have we lost in playing music in "equal temperament"—the equal division of the octave into twelve notes that has become our standard tuning method? Thanks to *How Equal Temperament Ruined Harmony*, "we may soon be able to hear for ourselves what Beethoven really meant when he called B minor 'black'" (Wall Street Journal). In this "comprehensive plea for more variety in tuning methods" (Kirkus Reviews), Ross W. Duffin presents "a serious and well-argued case" (Goldberg Magazine) that "should make any contemporary musician think differently about tuning" (Saturday Guardian). Workkeys Secrets Study Guide - Exam Review and Practice Test for the Act's Workkeys Assessments: [2nd Edition] Wiley

This book describes standards for the English language arts and defines what K-12 students should know about language and be able to do with language. The book presents the current consensus among literacy teachers and researchers about what students should learn in the English language arts--reading, writing, listening, speaking, viewing, and visually representing. The first chapter of the book (Setting Standards in the English Language Arts) addresses defining the standards and the need for standards. The second chapter (Perspectives Informing the English Language Arts Standards) discusses the content, purpose, development, and context of the

standards. The third chapter presents the 12 standards in detail. The fourth chapter (Standards in the Classroom) presents elementary, middle-school, and high-school vignettes which illustrate how the standards might be implemented in the classroom. The book concludes that these standards represent not an end but a beginning--a

starting point for discussion and action. A glossary (containing more than 100 terms), a list of participants, a history of the standards project, an overview of standards projects, state and international English language arts standards, a 115-item annotated list of resources for teachers, and a comment form are attached.
