Alfa Romeo Giulia 1750, 2000 1962-73 Autobook ... Veloce Publishing Ltd

The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay

homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.

 There is something special about Alfa Romeo cars which can't be defined precisely but is, perhaps, best described as a vitality that creates a symbiosis between driver and machine: a oneness that no other marque seems to replicate. Alfa's Berlinas have always tended to be overshadowed by their spotlight-grabbing Coupé and Spider siblings, but enthusiasts with family car needs have always known that any saloon/sedan with the famous Alfa Romeo badge would deliver pure driving pleasure in equal measure. Here is the full story of Alfa's quirky but characterful Berlinas, from their beginnings in the early 1900s through to the start of a new millennium. Not only does the book describe and picture every model, it also contains useful information on restoring classic Alfa Romeos and details of marque specialists.

1999 Manual Changes Taylor & Francis

From the earliest curvaceous coupes by Bertone, through the more aggressively styled Zagato SS to the very special TZ models and on to the final 1750 and 2000 cars, the Giulia coupes offer a remarkable variety. In the 1960s and 70s enthusiasts could delight to the sight and sound of the Alfas on the race tracks, but now that they are no longer in production, surviving examples of the Giulia coupes are greatly appreciated by those same enthusiasts. So many Giulias succumbed to the rust for which Italian cars of the 60s and 70s were notorious only makes the possession of a good example all the more desirable and this book will persuade many more people of the undoubted merits of these sporting coupes.

Alfa Romeo Berlinas

Immortalized as Dustin Hoffman's transport in *The Graduate*, Alfa Romeo's Spider enjoyed an extraordinarily long production span of 27 years. Launched as the 1600cc Duetto with Pininfarina's simply-styled round-tailed body, it got a 1750cc engine and its tail sawed off in 1967, grew into a 2000cc in 1970, and was saddled with rubber bumpers in the '80s, but lost them in 1990, by which time it was the second oldest car on sale in the U.K.

Alfa Romeo Giulia 1600, 1750 1962-72 Autobook

Launched in 1971, the Alfasud was an all-new departure for Alfa Romeo, both in its design and its execution and became the best-selling model in the history of Alfa Romeo. Originally it was developed with the dual intentions of launching the company into

large volume production and providing a more affordable model than their highly regarded sports cars. However, its story was far from straightforward. Although respected for its technically brilliant design and universally praised for its ride and handling, the model never quite reached its full sales potential and its reputation was marred by problems that could not have been foreseen. With over 240 colour photographs, the book includes a brief history of Alfa Romeo to the end of the 1960s. The development of the Alfasud's design and the political reasons for

building a new factory are given along with the car's reception from both the press and owners. The evolution of the model from initial prototypes, to the improvements to build quality and performance, including the Giardinetta and Sprint variations are covered as well as Alfasuds in competition. The political and labour problems, as well as the early quality control issues are discussed. Finally, there are numerous specification tables, performance data, chassis numbers, engine codes and colour charts.
