*Planet Earth* Wayland

A look at our globe from the perspective of the wildlife and geology of Earth. Using an innovative design, maps are populated by infographics, graphs, and icons to represent information and statistics about a subject in a very visual way

[Our Planet](#) White Star Kids

Which ocean is the largest? What pet is most popular in different parts of the world? How far away is each planet from the sun? Learn these and dozens of other fascinating facts about our planet and its inhabitants in Lonely Planet Kids' Infographic Guide to the Globe, a dynamically-illustrated guide full of graphs and charts. Colorful graphics featuring fun facts keep kids entertained and learning. Plus, you'll find engaging questions on every page that encourage readers to assess the information and draw conclusions about our world. Whether you're wondering how many years the average American goes to school compared to the average Nigerian or what percentage of the globe is covered with salt water, Infographic Guide to the Globe has the answer! About Lonely Planet Kids: Lonely Planet Kids - an imprint of the world's leading travel authority Lonely Planet - published its first book in 2011. Over the past 45 years, Lonely Planet has grown a dedicated global community of travelers, many of whom are now sharing a passion for exploration with their children. Lonely Planet Kids educates and encourages young readers at home and in school to learn about the world with engaging books on culture, sociology, geography, nature, history, space and more. We want to inspire the next generation of global citizens and help kids and their parents to approach life in a way that makes every day an adventure. Come explore!

[Our Amazing Planet](#) Ten Speed Press

This unique series harnesses the immediacy and visual appeal of infographics to present scientific facts, information and processes

in a whole new way.

**Infographics: Climate Change** NG Sticker Activity Books

An easy-to-understand overview of the state of our planet and its future, using eye-opening and accessible charts, graphs, and infographics. By 2050, the global population is expected to reach 9 billion. *What's Really Happening to Our Planet?* uses a graphic approach to chart the dramatic explosion of the human population and consumption and its impact on the planet. Based on unmatched scientific data, *What's Really Happening to Our Planet?* brings together major areas of public concern, such as deforestation, climate change, water shortages, and inequality. Easy-to-reference charts and infographics illustrate key findings, while clear, jargon-free text explains the science behind the figures. In addition to charting global trends and showing how they are connected, this book articulates how we can live more sustainably in the future. *What's Really Happening to Our Planet?* is a new and heart-stopping analysis of the latest chapter in human history and offers a fresh perspective on our future.

**Life on Earth** HarperCollins

Trying to breeze through weather and climate facts just might cause a brain freeze! You're showered with details about extreme temperatures (Earth's record high is 134°F and record low is -129°F), crazy heights (our atmosphere extends 6,200 miles above Earth), and even huger mysteries (how predictions in weather and climate work). How can all these big numbers and concepts make more sense? Infographics! The charts, maps, and illustrations in this book tell a visual story to help you better understand key concepts about weather and climate. Crack open this book to explore mind-boggling questions such as: ? How do cold and warm fronts change weather? ? How can cities at similar latitudes have significantly different climates? ? How do ocean currents help create winds, temperature changes, and storms? The answers are sure to blow you away!

**Our Planet** Charlesbridge Publishing

An exciting interactive title chock-full of stars, planets, aliens, and

everything out of this world brings National Geographic Kids signature content to a sticker and activity book format. For kids who love our universe, this book features the coolest science kids can't get enough of: our planet Earth, cool asteroids, fun aliens, comets, and so much more. Packed with mazes, spelling and pattern games, drawing activities, and more, kids are sure to love these pages loaded with fun.

*100 Things to Know about the Planet Earth* Owlkids

Welcome to The World in Infographics! This highly visual title uses beautifully designed infographics to look at the amazing world around us from the natural world to the human body. Compare the world's longest rivers and the fastest animals. See the life of a star and the effects of climate change explained with these clever graphic images. Covering key scientific subject areas, this title is not only endlessly fascinating to dip in and out of, but is also very useful for homework help and school science projects for children aged 7+. Includes material from the Blue Peter Awards shortlisted title *Animal Kingdom*.

**Graphic Guide to the Globe** Lerner Publications
