## MARITZA ELLEN

---

Cambridge University Press

Efraim's Book is the sophisticated, offbeat novel about the peculiar society of post-World-II Berlin. Its hero George Efraim is a Jewish reporter who has fought for the British on the Italian front and lost both parents to Auschwitz. He returns home to Berlin in 1962 for the first time since the war to investigate the wartime disappearance of his editor's daughter, only to begin writing a novel, which helps him "to embark on a certain arrangement of signs with the help of which I hope to chart my position." Like the great German novels of Günter Grass and Heinrich Böll, Alfred Andersch's Efraim's Book grapples with the legacy of World War II

and the Holocaust in all its horror and sad humanity. A troubling yet often humorous book, it offers a poignant account of the traumatized German state.

What induced the British to adopt foreign coffee-drinking customs in the seventeenth century? Why did an entirely new social institution, the coffeehouse, emerge as the primary place for consumption of this new drink? In this lively book, Brian Cowan locates the answers to these questions in the particularly British combination of curiosity, commerce, and civil society. Cowan provides the definitive account of the origins of coffee drinking and coffeehouse society, and in so doing he reshapes our understanding of the commercial and consumer revolutions in Britain during the long Stuart century. Britain's virtuosi, gentlemanly patrons of the arts and sciences, were profoundly

interested in things strange and exotic. Cowan explores how such virtuosi spurred initial consumer interest in coffee and invented the social template for the first coffeehouses. As the coffeehouse evolved, rising to take a central role in British commercial and civil society, the virtuosi were also transformed by their own invention.

In 1799, Alexander von Humboldt and Aimé Bonpland set out to determine whether the Orinoco River connected with the Amazon. But what started as a trip to investigate a relatively minor geographical controversy became the basis of a five-year exploration throughout South America, Mexico, and Cuba. The discoveries amassed by Humboldt and Bonpland were staggering, and much of today's knowledge of tropical zoology, botany, geography, and geology can be traced back to Humboldt's numerous records of these expeditions. One of these accounts, *Views of the Cordilleras and Monuments of the Indigenous Peoples of the Americas*, firmly established Alexander von Humboldt as the founder of Mesoamerican studies. In *Views of the Cordilleras*—first published in French between 1810 and 1813—Humboldt weaves together magnificently engraved drawings and detailed texts to achieve multifaceted views of cultures and landscapes across the Americas. In doing so, he offers an alternative perspective on the New World, combating presumptions of its belatedness and inferiority by arguing that the “old” and the “new” world are of the same geological age. This critical edition of *Views of the Cordilleras*—the second volume in the Alexander von Humboldt in English series—contains a new, unabridged English translation of

Humboldt's French text, as well as annotations, a bibliography, and all sixty-nine plates from the original edition, many of them in color.

German books in print Signet

In the immediate aftermath of World War II, more than a quarter million Jewish survivors of the Holocaust lived among their defeated persecutors in the chaotic society of Allied-occupied Germany. Jews, Germans, and Allies draws upon the wealth of diary and memoir literature by the people who lived through postwar reconstruction to trace the conflicting ways Jews and Germans defined their own victimization and survival, comprehended the trauma of war and genocide, and struggled to rebuild their lives. In gripping and unforgettable detail, Atina Grossmann describes Berlin in the days following Germany's surrender--the mass rape of German women by the Red Army, the liberated slave laborers and homecoming soldiers, returning political exiles, Jews emerging from hiding, and ethnic German refugees fleeing the East. She chronicles the hunger, disease, and homelessness, the fraternization with Allied occupiers, and the complexities of navigating a world where the commonplace mingled with the horrific. Grossmann untangles the stories of

Jewish survivors inside and outside the displaced-persons camps of the American zone as they built families and reconstructed identities while awaiting emigration to Palestine or the United States. She examines how Germans and Jews interacted and competed for Allied favor, benefits, and victim status, and how they sought to restore normality--in work, in their relationships, and in their everyday encounters. Jews, Germans, and Allies shows how Jews were integral participants in postwar Germany and bridges the divide that still exists today between German history and Jewish studies.

*The Global Coffee Economy in Africa, Asia, and Latin America, 1500-1989* Routledge

Wild, a coffee trader and historian delivers a rollicking history of the most valuable legally traded commodity in the world after oil, and an industry that employs 100 million people throughout the world.

*International Handbook of Violence Research* Reaktion Books  
At the center of a terrorized society buttressed by oppressive police protection and surveillance is the Tolm family, Fritz, the father, the elected head of the Association, and the children, part of the counter-culture.

**Coffee in the context of European drinking habits** Open Road + Grove/Atlantic

This is a 16th century Yiddish verse romance which relates the adventures of the hero Bovo d'Antona. The poet spins an episodic tale of friendship and betrayal, of disguise and discovery, and of knightly battles. Professor Smith's prose translation makes this little book accessible to the English-speaking public for the first time.

*The Penny Universities* W. W. Norton & Company  
Fragments of ancient belief mingle with folklore and Christian dogma until the original tenets are lost in the myths and psychologies of the intervening years. Hilda Ellis Davidson illustrates how pagan beliefs have been represented and misinterpreted by the Christian tradition, and throws light on the nature of pre-Christian beliefs and how they have been preserved. *The Lost Beliefs of Northern Europe* stresses both the possibilities and the difficulties of investigating the lost religious beliefs of Northern Europe.

**Jews, Germans, and Allies** Princeton University Press  
Amsterdam, 1659: On the world's first commodities exchange, fortunes are won and lost in an instant. Miguel Lienzo, a sharp-witted trader in the city's close-knit community of Portuguese Jews, knows this only too well. Once among the city's most

envied merchants, Miguel has suddenly lost everything. Now, impoverished and humiliated, living in his younger brother's canal-flooded basement, Miguel must find a way to restore his wealth and reputation. Miguel enters into a partnership with a seductive Dutchwoman who offers him one last chance at success—a daring plot to corner the market of an astonishing new commodity called “coffee.” To succeed, Miguel must risk everything he values and face a powerful enemy who will stop at nothing to see him ruined. Miguel will learn that among Amsterdam's ruthless businessmen, betrayal lurks everywhere, and even friends hide secret agendas.

*Coffee* Pluto Press

Most of us can't make it through morning without our cup (or cups) of joe, and we're not alone. Coffee is a global beverage: it's grown commercially on four continents and consumed enthusiastically on all seven—and there is even an Italian espresso machine on the International Space Station. Coffee's journey has taken it from the forests of Ethiopia to the fincas of Latin America, from Ottoman coffee houses to “Third Wave” cafés, and from the simple coffee pot to the capsule machine. In *Coffee: A Global History*, Jonathan Morris explains both how the world acquired a taste for this humble bean, and why the beverage tastes so differently throughout the world. Sifting through the grounds of coffee history, Morris discusses the diverse cast of caffeinated characters who drank coffee, why and where they did so, as well as how it was prepared and what it tasted like. He identifies the regions and ways in which coffee has been grown, who worked the farms and who owned them, and how the beans were processed, traded, and transported. Morris

also explores the businesses behind coffee—the brokers, roasters, and machine manufacturers—and dissects the geopolitics linking producers to consumers. Written in a style as invigorating as that first cup of Java, and featuring fantastic recipes, images, stories, and surprising facts, *Coffee* will fascinate foodies, food historians, baristas, and the many people who regard this ancient brew as a staple of modern life.

*Staden-Jahrbuch* New Directions Publishing

This book is the first to provide a history of Jewish writing and thought in the German-speaking world. Written by 119 of the most distinguished scholars in the field, the book is arranged chronologically, moving from the eleventh century to the present. Throughout, it depicts the unique contribution that Jewish writers have made to German culture and at the same time explores what it means to be the “other” within that mainstream culture. The contributors view German-Jewish literature as a historical and cultural phenomenon, from a wide array of critical perspectives. Many essays focus on significant social and political events that affected the relationship between Germans and Jews; others concentrate on a particular genre, author, group of writers, cultural debate, or literary movement. Entries include an account of the crusades in 1096, a treatment of Jewish mysticism in the Renaissance, a unique seventeenth-century memoir by a woman, the description of a meeting between Heinrich Heine and Karl Marx in 1843 and discussions of works by such twentieth-century luminaries as Sigmund Freud, Arthur Schnitzler, Joseph Roth, Martin Buber, Walter Benjamin, Elias Canetti, Hermann Broch, Hannah Arendt, Theodor Adorno, and Peter Weiss. By analyzing how individuals and groups defined and expressed themselves as

Jewish against the background of a dominant German culture, the contributors bring out the vital currents and crucial moments in two interlocking yet contradictory cultural histories in Germany.

Views of the Cordilleras and Monuments of the Indigenous Peoples of the Americas Routledge

DIVClaims that the history of commodities in Latin America (or anywhere) cannot be understood without considering their global context, often from a long-term perspective./div

Publik-Forum John Wiley & Sons

Emphasizing the nineteenth and early twentieth centuries, this volume brings together scholars from nine countries who study coffee markets and societies over the last five centuries in fourteen countries, on four continents, and across the Indian and Pacific Oceans. The chapters analyze the creation and function of commodity, labor, and financial markets; the role of race, ethnicity, gender, and class in the formation of coffee societies; the interaction between technology and ecology; and the impact of colonial powers, nationalist regimes, and the forces of the world economy in the forging of economic development and political democracy.

*Havel* Duke University Press

Traces the development of coffee-houses and their gradual evolution into the typical English institution, the club.

Yale Companion to Jewish Writing and Thought in German Culture, 1096-1996 Yale University Press

The English East India Company was the mother of the modern multinational. Its trading empire encircled the globe, importing Asian luxuries such as spices, textiles, and teas. But it also conquered much of India with its private army and broke open

China's markets with opium. The Company's practices shocked its contemporaries and still reverberate today. The Corporation That Changed the World is the first book to reveal the Company's enduring legacy as a corporation. This expanded edition explores how the four forces of scale, technology, finance, and regulation drove its spectacular rise and fall. For decades, the Company was simply too big to fail, and stock market bubbles, famines, drug-running, and even duels between rival executives are to be found in this new account. For Robins, the Company's story provides vital lessons on both the role of corporations in world history and the steps required to make global business accountable today.

**Hardtack & Coffee Or The Unwritten Story Of Army Life [Illustrated Edition]** Melville House

The “definitive biography” of the poet and political dissident who became the last president of Czechoslovakia—and first president of the Czech Republic (Walter Isaacson). This portrait of Vaclav Havel, iconoclast and intellectual, renowned playwright turned political dissident, president of a united then divided nation, and dedicated human rights activist, is written by his former press secretary, advisor, and longtime friend—and recounts the turbulent twentieth-century era through which he prevailed. Havel’s lifelong perspective as an outsider began with his privileged childhood in Prague and his family’s blacklisted status following the Communist coup of 1948. This feeling of being outcast fueled his career as an essayist and a dramatist writing absurdist plays as social commentary. His involvement during the Prague Spring and his leadership of Charter 77, his unflagging belief in the power of the powerless, and his galvanizing personality catapulted Havel into a pivotal role as the leader of

the Velvet Revolution in 1989. Although Havel was a courageous visionary, he was also a man of great contradictions, wracked with doubt and self-criticism. But he always remained true to himself. This “smart and exciting” biography is “both inspiring and filled with lessons for our time” (Walter Isaacson). “Havel was one of the most important intellectual-troublemaking statesmen of his time—a nonconformist, determined to live in truth, who questioned the system, his countrymen and himself constantly. No one is better suited than Michael Zantovsky to describe, interpret, and analyze this moral giant . . . A brilliantly informed intellectual and political history.” —Madeleine Albright

“Entertaining, intimate, and moving . . . Zantovsky’s voice—that of a natural storyteller with an eye for the memorable anecdote, a mischievous wit, an easy intelligence, and keen sense of balance and fairness—is so engaging.” —Paul Wilson, *The New York Review of Books*
