An astounding new work by the author of *The Mind Tree* that offers a rare insight into the autistic mind and how it thinks, sees, and reacts to the world. When he was three years old, Tito was diagnosed as severely autistic, but his remarkable mother, Soma, determined that he would overcome the "problem" by teaching him to read and write. The result was

that between the ages of eight and eleven he wrote stories and poems of exquisite beauty, which Dr. Oliver Sacks called “amazing and shocking.” Their eloquence gave lie to all our assumptions about autism. Here Tito goes even further and writes of how the autistic mind works, how it views the outside world and the “normal” people he deals with daily, how he tells his stories to the mirror and hears stories back, how sounds become colors, how beauty fills his mind and heart. With this work, Tito—whom Portia Iversen, co-founder of Cure Autism Now, has described as “a window into autism such as the world has never seen”—gives the world a beacon of hope. For if he can do it, why can’t others? “Brave, bold, and deeply felt, this book shows that much

we might have believed about autism can be wrong.”—Boston Globe

“The best fantasy novel I’ve read in years, because it’s about real people... Impossible to put down.” —Stephen King
The smash New York Times bestseller from Leigh Bardugo, a mesmerizing tale of power, privilege, and dark magic set among the Ivy League elite. Goodreads Choice Award Winner Locus Finalist
Galaxy “Alex” Stern is the most unlikely member of Yale’s freshman class. Raised in the Los Angeles hinterlands by a hippie mom, Alex dropped out of school early and into a world of shady drug-dealer boyfriends, dead-end jobs, and much, much worse. In fact, by age twenty, she is the sole survivor of a

horrific, unsolved multiple homicide. Some might say she's thrown her life away. But at her hospital bed, Alex is offered a second chance: to attend one of the world's most prestigious universities on a full ride. What's the catch, and why her? Still searching for answers, Alex arrives in New Haven tasked by her mysterious benefactors with monitoring the activities of Yale's secret societies. Their eight windowless "tombs" are the well-known haunts of the rich and powerful, from high-ranking politicians to Wall Street's biggest players. But their occult activities are more sinister and more extraordinary than any paranoid imagination might conceive. They tamper with forbidden magic. They raise the dead. And, sometimes, they prey on the living. Don't miss the highly-

anticipated sequel, *Hell Bent*.

A Dirty Job Anchor

The powerful, moving and turbulent novel of Sally Porter and the multiple personalities she has no idea she lives with... From the award-winning bestselling author of *FLOWERS FOR ALGERNON*: 'Heartbreaking, and utterly, completely brilliant' *GUARDIAN* Sally Porter is perfectly 'ordinary'. A waitress, divorcee, and loner in the great city. But, though she is unaware of it, she is also four other, quite different people: Nola, the cold independent artist who has a studio in Greenwich Village; Derry, the happy-go-lucky tomboy; Bella, the highly-sexed live wire with a talent for singing and dancing; and finally Jinx, the hate-filled killer. Whenever events put too much of a strain on Sally Porter, she

feels a headache and a blackout coming on - and a new character takes over. If there is a man to be fascinated, she will become Bella. If there is an intellectual problem, she will become Nola. And - as happens in the opening scene of the novel - if there is a rapist to be dealt with, she becomes the vicious Jinx. It is the task of the wise and patient psychiatrist, Dr. Roger Ash - a man who nevertheless has severe problems of his own - to deal with this case of multiple personality and, through painstaking therapy, to try to fuse the four disparate personalities into "the fifth Sally."

Traditional Chinese edition of *Flowers for Algernon*, the Daniel Keyes classic.

Charlie, a simple young man who was born with a very low IQ, became a perfect subject for an experimental surgery to improve his intelligence, an experiment that was successful for Algernon, a mouse. A novella that won the Hugo Award in 1960 and the Nebula in 1966 and inspired the film *Charly* for which Cliff Robertson received an Oscar for Best Actor in 1969. In Chinese. Distributed by Tsai Fong Books, Inc.

"Maggie understands that splatter for splatter's sake is boring. Psychopathy is boring. Coldness is boring. She's interested in feeling, and when her stories turn violent (as they frequently do), it's with a surreal emotional barbarity that distorts the entire world. You can mop up blood with any fabric.

Maggie's concern is with the wound left behind, because the wound never leaves-it haunts. As a result, each of these stories leaves a wound of its own. Some weep, watching as you try (and fail) to recover. Others laugh. But never without feeling." -B.R. Yeager, author of Negative Space "And once finished, I felt like my tongue had been misplaced, guts heavy and expanded ... gums numb with a tongue that'd been put elsewhere, my mouth clean around a pipe weaving up through pitch and shadow ... and well past ready, primed for delight, waiting but knowing I had already been filled to skin; crying shit, hearing piss, fingernails seeping bile, pores dribbling blood, soles slopping off and out to meet a drain mid-floor ..." -Christopher Norris, author of Hunchback '88

The author of *Flowers for Algernon* discusses the highs & lows of the writing life, as well as his methods for creating fiction. In his bestselling novel *Flowers for Algernon*, Daniel Keyes created an unlikely duo—a laboratory mouse and a man—who captured the hearts of millions of readers around the world. Now, in *Algernon, Charlie, and I*, Keyes reveals his methods of creating fiction as

well as the heartbreaks and joys of being published. For the first time, readers, writers, teachers, and students can glimpse the creative life behind this cherished novel. Includes the original novelette version of *Flowers for Algernon*
The Socialist Decision Hachette UK
“A calculated nail-biter that shines a dark light on life in the 21st century.”
—The Washington Post “A story no one has ever written before, and one we all need to read . . . Impressive and keenly relevant to our time.” —Barbara Kingsolver
When Jessica, a young Air Force drone pilot in Nevada, is tasked with launching a missile against a suspected terrorist halfway across the world, she has no choice but to comply, even if it means women and children will be killed too. Meanwhile, Ethan, a young

Wall Street quant, develops an algorithm that enables his company's clients to profit by exploiting the international financial instability caused by exactly this kind of antiterrorist strike. These two are only minor players, but their actions have global implications that tear lives apart—including their own, as they are cast out by a flawed system and forced to take the blame for the orders of their superiors. Award-winning author Ron Childress has crafted a powerful, politically charged, and terrifyingly real novel for our time. "Extraordinary." —The Kansas City Star "This compelling debut novel . . . dramatically examines the insidious role unrestrained technology plays in the moral and ethical corruption of people, institutions, and government . . . An excellent story,

well told, suspenseful, and tragic." —Publishers Weekly "This powerful and morally chilling tale depicts the chasm modern technology can create between actions and consequences." —Library Journal "A smart, satisfying work about real people navigating the uneasy compromises of today's world. With sharp writing and likeable characters, Ron Childress has woven a very human story out of the tangle of conflicts--military, political, financial--that bind us together." —Washington Independent Review of Books, "2015 Best Novels of the Year" "A master study in how people can emotionally detach themselves from the damage they cause in our computer-driven world." —The Washington Post *Enrique's Journey* Watkins Media Limited In this procedural narrative, the shape of

the earth is the lesson of the day. The text provides opportunities to explore shapes, colors, and basic earth science.

Yukie Sakai is a sprightly young home health aide eager to help her elderly clients. But what seems like a straightforward job quickly turns into a series of increasingly surreal and bizarre adventures that put Yukie's wits to the test! Cartoonist Kago, who is well known for combining a more traditional manga

style with hyper realistic illustration technique, an experimental visual storytelling approach, and outrageously sexual and scatological subject matter, has single-handedly created his own genre: "fashionable paranoia."

Dementia 21 Wipf and Stock Publishers

A true crime story with a fascinating psychic twist, it began one night when club owner Mickey McCann, the go-go girl who lived with him, and McCann's elderly mother, were found shot to death in McCann's home. One month later Claudia Elaine Yasko confessed to the most explosive murder case in the history of Columbus, Ohio. After three years of research, Keyes (*The Minds of Billy Milligan*, *Flowers for Algernon*) provides the answers.

Flowers for Algernon Bantam

In the hell that was World War II, the Eastern Front was its heart of fire and ice. Gottlob Herbert Bidermann served in that lethal theater from 1941 to 1945, and his memoir of those years recaptures the sights, sounds, and smells of the war as it vividly portrays an army marching on the road to ruin. A riveting and reflective account by one of the millions of anonymous soldiers who fought and died in that cruel terrain, *In Deadly Combat* conveys the brutality and horrors of the Eastern Front in detail never before available in English. It offers a ground soldier's perspective on life and death on the front lines, providing revealing new information concerning day-to-day operations and German army life. Wounded five times and awarded numerous decorations for

valor, Bidermann saw action in the Crimea and siege of Sebastopol, participated in the vicious battles in the forests south of Leningrad, and ended the war in the Courland Pocket. He shares his impressions of countless Russian POWs seen at the outset of his service, of peasants struggling to survive the hostilities while caught between two ruthless antagonists, and of corpses littering the landscape. He recalls a Christmas gift of gingerbread from home that overcame the stench of battle, an Easter celebrated with a basket of Russian hand grenades for eggs, and his miraculous survival of machine gun fire at close range. In closing he relives the humiliation of surrender to an enemy whom the Germans had once derided and offers a sobering glimpse into life in

the Soviet gulags. Bidermann's account debunks the myth of a highly mechanized German army that rolled over weaker opponents with impunity. Despite the vast expanses of territory captured by the Germans during the early months of Operation Barbarossa, the war with Russia remained tenuous and unforgiving. His story commits that living hell to the annals of World War II and broadens our understanding of its most deadly combat zone. Translator Derek Zumbro has rendered Bidermann's memoir into a compelling narrative that retains the author's powerful style. This English-language edition of Bidermann's dynamic story is based upon a privately published memoir entitled *Krim-Kurland Mit Der 132 Infanterie Division*. The translator

has added important events derived from numerous interviews with Bidermann to provide additional context for American readers.
