Spanish in 100 Days (Libro + 3 CDs) / Spanish in 100 days Audio Pack Penguin Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on

your list?  
What's  
holding you  
back from  
getting  
started? Are  
you worried  
about the time  
and effort it  
takes to  
acquire new  
skills—time  
you don't  
have and  
effort you  
can't spare?  
Research  
suggests it  
takes 10,000  
hours to  
develop a new  
skill. In this  
nonstop world  
when will you  
ever find that  
much time  
and energy?  
To make  
matters  
worse, the  
early hours of  
practicing

something  
new are  
always the  
most  
frustrating.  
That's why it's  
difficult to  
learn how to  
speak a new  
language, play  
an instrument,  
hit a golf ball,  
or shoot great  
photos. It's so  
much easier  
to watch TV or  
surf the web .  
. . . In *The First  
20 Hours*, Josh  
Kaufman  
offers a  
systematic  
approach to  
rapid skill  
acquisition—  
how to learn  
any new skill  
as quickly as  
possible. His  
method shows  
you how to  
deconstruct

complex skills,  
maximize  
productive  
practice, and  
remove  
common  
learning  
barriers. By  
completing  
just 20 hours  
of focused,  
deliberate  
practice you'll  
go from  
knowing  
absolutely  
nothing to  
performing  
noticeably  
well. Kaufman  
personally  
field-tested  
the methods  
in this book.  
You'll have a  
front row seat  
as he  
develops a  
personal yoga  
practice,  
writes his own  
web-based

computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches:

Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able

to do when you're done. The more specific, the better.

Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary

effort makes it much easier to sit down and focus on deliberate practice.

Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve.

Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of

any skill in  
record time . .  
. and have  
more fun  
along the way.

One of the twentieth century's enduring works, One Hundred Years of Solitude is a widely beloved and acclaimed novel known throughout the world and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the

history of the Buendía family. Rich and brilliant, it is a chronicle of life, death, and the tragicomedy of humankind. In the beautiful, ridiculous, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility, the variety of

life, the endlessness of death, the search for peace and truth—these universal themes dominate the novel. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an account of the history of the human race.
