Insect Detective
HarperCollins
In this new

edition of a wordless modern classic, a frog picks a beautiful flower. When a mouse sees him with it, his jealousy overcomes him, and he grabs it for himself. Then Frog's friends chase the mouse away. But before the frogs can celebrate, a counter-attack from Mouse's friends surprises them—and the conflict soon escalates into a full-blown war. When the dust finally clears, all either side

can ask is: Why? With an afterword by children's literature expert Leonard S. Marcus, this seemingly simple book is an invaluable way to talk to young children about conflict and warfare.

In this extraordinary Caldecott Medal winner

and New York Times bestseller by David Wiesner, a beach day is the springboard to a wildly imaginative exploration of fantastical mysteries of the deep—and of human connections through time. A young boy comes to the beach eager to collect and examine flotsam—anything floating that has been washed ashore. But nothing among his usual finds compares with the discovery

of a barnacle-encrusted underwater camera with its own secrets to share...and to keep. Meet unexpected underseas denizens and enter fascinating worlds within worlds in this entrancing celebration of imagination, creativity, and the impulse to share that which delights and amazes us. A beautiful picture book by a master of the form, David Wiesner, who has been awarded the Caldecott

Medal three times and the Caldecott Honor twice. *Flotsam* Astra Publishing House
When a curious little crab tip-taps out of her rock pool to explore the big blue sea, she discovers a world full of wonderful creatures. But after she's counted everything from one noisy seagull and two sleepy sea lions to nine silent sharks at the bottom of the sea, the little crab soon realizes that her very

own rock pool is the most amazing place of all. And so she tip-taps happily home... closely followed by her ten baby crabs. TIP TAP Went the Crab is an engaging board book about counting from Tim Hopgood, the winner of the Best Emerging Illustrator, Booktrust Early Years Awards. Big Blue Whale Candlewick Press
Explore an informative, playfully illustrated

story about one of the world's most dangerous animals: the crocodile. You probably know a little about crocodiles already. They're reptiles, they have an awful lot of teeth, and they're pretty scary — at least, the big ones are! They're not very fussy about what they eat, and when it comes to hunting down dinner, crocodiles are very determined . . . and very cunning. But there's more to crocodiles

than just their appetites. They love to nap on warm sandbanks and cool off in calm waters, and crocodile mothers are very gentle with their babies. This fascinating look at one of Earth's most infamous creatures is full of information for amateur scientists, with back matter that includes an index, notes on species, and suggestions for further reading.

Our Great Big Backyard

Random House

"A stunningly beautiful book as well as an eloquent appeal and a consciousness raiser." — The

Horn Book

Tigers, ground iguanas, partula snails, and even white-rumped vultures are in danger of disappearing altogether. Using the experiences of a few endangered species as examples, Martin Jenkins highlights the ways human behavior can either threaten or conserve the amazing animals that share our planet. Vicky White's stunning portraits of rare creatures offer a

glimpse of nature's grace and beauty — and give us a powerful reason to preserve it.

QEB Publishing
Through their earliest years of play, children develop a substantial body of skills and knowledge. The goal of this book is to bring children's play and curriculum expectations together, so that children are engaged in learning that honours their existing knowledge,

and to help build a strong literacy foundation. A perfect blend of theory and instruction, this timely book offers background, research, ideas, and strategies to create an exciting array of possibilities for using children's play as an infinitely rewarding learning resource. It asks and answers fundamental questions about preparing young children for lifelong learning.

Fabulous Friends and Other Storybook Themes

Simon and Schuster
#1 New York Times bestselling authors
former First Lady Laura Bush and her daughter Jenna Bush Hager have created an exuberant picture book tribute to our national parks and the importance and fun of connecting with nature. Our Great Big Backyard follows Jane, whose plans of spending

the summer playing video games with her friends are dashed when her parents announce that her family is going on a road trip to national parks around the country. Yet somewhere between the Everglades and Big Bend National Park, things begin to change. Jane starts paying attention to the magnificent sights and spends less time looking at her screen. The stunning views open up her

imagination as she and her brother see everything that nature has to offer. And the more Jane discovers, the more she realizes how much there is to love about the outdoors—whether she's in a national park across the country or right in her own backyard. **Beware of the Crocodile** Monday Morning Books Tadpole loves his rainbow friend, the caterpillar, and she tells him she loves

everything about him. "Promise that you will never change," she says. But as the seasons pass and he matures, his legs grow, and then his arms - and what happens to his beautiful rainbow friend? As he sits on his lily pad, digesting a butterfly, Tadpole little realises that now he will never know! Follow the predictable changes of a tadpole and a caterpillar to their natural conclusion in this award winning

<p>picture book. Crafty Makes: Nature Craft Sourcebooks, Inc. “Gently encourages young readers to explore their natural surroundings and observe some of the more commonly found insects in it.” — School Library</p>	<p>Journal (starred review) Right now, all around us, thousands of insects are doing strange and wonderful things: wasps are building nests, ants are collecting food, and dragonflies are readying for the hunt. But it's not</p>	<p>always easy to catch sight of these six- legged creatures; you have to know where to look. Guided by this book, readers will happily become insect detectives and find out just what those bugs are up to. Back matter includes an index.</p>
