Marital problems are common. All of us require answers to be correct before the Lord in how we handle these problems in a godly fashion. This is especially true when the problems end in a divorce. Divorce is always attended with pain and devastation. This tearing always includes far-reaching relational and practical problems. What does the Bible reveal about God's intention for divorce and remarriage? Does one commit sin by divorcing and remarrying? What is church leadership's role in divorce and remarriage? Are the common church teachings limited in this subject? To have peace and hope in the midst of marriage problems, Christians must know how they stand before the Lord and how He views their decisions and dealings. Peace after divorce and before remarriage is impossible without an understanding of scriptural truth. In *A Guide to Christian Divorce and Remarriage: A Scriptural Exposition*, John DeVries investigates divorce and remarriage for Christians. You will gain a greater understanding of this sensitive topic through DeVries's research into: a centsThe causes of divorce a centsThe scriptural evidence of God's intention for divorce and remarriage a centsThe church's responsibility in divorce and remarriage a centsAnd the duty of the remarried Christian in their new marriage Join DeVries in *A Guide to Christian Divorce and Remarriage: A Scriptural Exposition* to gain greater knowledge of God's principles and instructions when dealing with divorce

and remarriage."

A charming and engrossing novel for fans of Southern fiction and the recent hit memoir *Hillbilly Elegy* about a lush and storied coal-mining town—and the good people who live there—in danger of being destroyed for the sake of profit. Will the truth about the town's past be its final undoing or its saving grace? 1933. In the mining town of Beulah Mountain, West Virginia, two young girls form an unbreakable bond against the lush Appalachian landscape, coal dust and old hymns filling their lungs and hearts. Despite the polarizing forces of their fathers—one a mine owner, one a disgruntled miner—Ruby and Bean thrive under the tender care of Bean's mama, blissfully unaware of the rising conflict in town and the coming tragedy that will tear them apart forever. 2004. Hollis Beasley is taking his last stand. Neighbors up and down the hollow have sold their land to Coleman Coal and Energy, but Hollis is determined to hold on to his family legacy on Beulah Mountain. Standing in his way is Buddy Coleman, an upstart mining executive who hopes to revitalize the dying town by increasing coal production and opening the Company Store Museum. He'll pay homage to the past—even the massacre of 1933—while positioning the company for growth at all costs. What surprises them all is how their stories will intersect with a feisty octogenarian living hundreds of miles away. When Ruby Handley Freeman's grown children threaten her independence, she takes a stand of her own and disappears, propelling her on a journey to face a decades-old secret that will change everything for her and those she meets.

Great-Aunt Chris had begun Helens story, but her death left Helen alone to scribble and scratch out a life now deprived of her deepest friend, whose greatest gift to Helen was a garden, a magical moonlit dance of crystal and gold and silver faeries. The stories of three girls verging on the precipice of womanhood intertwine. Each girl is a victim to brutality, and each was somehow dragged down into servitude and humiliation, yet each life is briefly illuminated by flashes of magic along her journey. The world is full of magic not that witching magic of sorcery and spells, but the subtle glimpses of magic found in the wrinkles and smiles of those whose wisdom and affection illuminate our journeys. They're like fireflies flitting and dancing along a country road at night or the moonlit lace of branches along the forest floor. Magic is sometimes found in the fleeting passing of someone whose momentary flare of kindness and beauty enriches our hearts and souls. And that kind of magic can only be found between the stepping stones in those places where people dare not tread because they are so afraid of the unknown. Helen, Miramund, and Kathleen find themselves in places deep and dark and seemingly hopeless, and only the kind intervention of another can lift them back into the light. Shall each heroine be destined to be a laundress all her life, or can each break with destiny and become a magician in her own right? The stories seek to merge at a place and time preordained by the efforts and struggles of each girl, not by a fickle destiny, and hopefully, each girl will have earned through her own heroic efforts and at that time and place the gift of true balance and insight.

Home with God was written to honor the kinship of all people. The stories and lessons it contains are designed to rekindle the readers memory of their true spiritual nature as sons and daughters of God, experiencing themselves as sovereign beings who have inadvertently forgotten their true identity. Following the advice of the last chapters twenty Frequency Elevators can lead to the readers mind/body/spirit healing and the potential restoration of his or her spiritual self. My mother (a retired nurse now living in a nursing home) re-reads Home with God every day! Sandra Worthington, CMT, HHSced Th is book is for anyone wanting to grow spiritually. Since reading this my perceptions have changed and I am more aware of my life, almost like waking from a dream. Thank you Jan for sharing this part of your life with all of us. Warning...once you pick up and start reading this book, you won't be able to put it down. K. Peterson <http://www.youtube.com/watch?v=R0MVhQX4Pqk>

When planning buildings in which people are to work and live, the efficient use of natural daylight and solar energy is increasingly important. The challenge is to compensate the different lighting requirements in winter and summer. Integrated daylight deflection systems buildings, utilize and store solar energy to save artificial lighting, air-conditioning and heating costs. Extensively researched and impressively illustrated with a large number of computer simulations and photographs of built examples, this volume is more than an introduction to the basic principles, functions, designs and calculation methods of advanced light-guidance technology for architects, lighting designers, building and climate engineers. In particular it provides detailed documentation of the new Retro-Technology systems, explaining the role they can and do play in integrated façade and building design and planning processes. distributed by Syndetic Solutions, Inc.

A New York Times Book Review Editors' Choice "A radiant first novel. . . . [Neon in Daylight] has antecedents in the great novels of the 1970s: Renata Adler's Speedboat, Elizabeth Hardwick's Sleepless Nights, Joan Didion's Play It as It Lays. . . . Precision—of observation, of language—is Hoby's gift.

Her sentences are sleek and tailored. Language molds snugly to thought." —Parul Sehgal, The New York Times New York City in 2012, the sweltering summer before Hurricane Sandy hits. Kate, a young woman newly arrived from England, is staying in a Manhattan apartment while she tries to figure out her future. She has two unfortunate responsibilities during her time in America: to make regular Skype calls to her miserable boyfriend back home, and to cat-sit an indifferent feline named Joni Mitchell. The city has other plans for her. In New York's parks and bodegas, its galleries and performance spaces, its bars and clubs crowded with bodies, Kate encounters two strangers who will transform her stay: Bill, a charismatic but embittered writer made famous by the movie version of his only novel; and Inez, his daughter, a recent high school graduate who supplements her Bushwick cafe salary by enacting the fantasies of men she meets on Craigslist. Unmoored from her old life, Kate falls into an infatuation with both of them. Set in a heatwave that feels like it will never break, Neon In Daylight marries deep intelligence with captivating characters to offer us a joyful, unflinching exploration of desire, solitude, and the thin line between life and art.

F. B. Meyer gifts Christian believers with this guidance on attaining spiritual union with God, by being virtuous and achieving victory over sin and wrongdoing. Drawing upon the Bible and the life of Christ as a wellspring of spiritual knowledge, Meyer instructs the reader on becoming a better and more effective Christian, living true to the example set by Jesus. Drawing on the inner strength conferred by the timeless Holy Spirit, practicing virtuous deeds and enshrining a moral code in one's day-to-day behavior are two qualities of the Christians seeking to live the blessed life. Being honest with oneself about wrongheadedness and character flaws, and taking action to correct these, is likewise vital. Meyer frequently quotes passages of scripture, in particular the New Testament, to clarify the guidance given. Writing with the clearheaded and reverential style he was famous for in life, the books he wrote - be they guides for believers or Biblical biographies - remain resonant in modern times. He worked as a Baptist pastor educating thousands of believers, and channeled that experience of working with and spiritually guiding ordinary Christian people into his many written works.

Illumination conditions are evaluated in typical building spaces based on detailed computer simulations, in order to characterize and quantify the effects of daylighting on task visibility. Examined are the effects of fenestration location and type on task contrast under daylit, electric-lit and combined conditions. The implications of the illumination conditions with daylighting on lighting and daylighting system design are discussed.

"The natural world has inspired artists, seekers, and thinkers for millennia, but in recent times, as the pace of life has sped up, its demands have moved us in doors. Yet nature's capacity to lead us to important truths, to invigorate and restore our imagination and equilibrium, is infinite. Step Into Nature is a guide to make nature personal again, to stimulate awareness and increase our understanding of the environment while inspiring readers to develop and strengthen their imaginations. But being in nature doesn't mean flying off to remote, faraway places. Nature is as close as opening your front door--the sky above, the miniature gardens that insist their way up between the sidewalk cracks, the river just down the road. Patrice Vecchione shows readers how nature can support and enhance their own creative output, invigorate their curiosity, and restore their sense of connection to the earth. Plus, included in each chapter is "The Cabinet of Curiosities," exercises and suggestions for practical and unexpected ways that readers can stimulate their imaginations, deepen their relationships with nature, and experience the harmony between creativity and the natural world"--
