Situated on Lake Malaren on one of the world's most beautiful harbours, Stockholm has set the benchmark for civilized city-living since the time of the Vikings. Its medieval regal period saw the Vasa dynasty turn a small town in the shadow of Uppsala into the capital city of a dominant power in Europe and a major trading port. In the Napoleonic era Stockholm readjusted its priorities to establish itself as a centre of innovation, technical and social. While the city has suffered more than its fair share of disasters, Stockholm's cultural and commercial elite transformed it into a community which welcomed innovation and spread the fruits of its achievements far beyond its borders. From its celebrated Old Town, dating from the Middle Ages, to its Art Nouveau and modern quarters, Stockholm is a city rich in museums, theatres and landmarks. Tony Griffiths explores the Swedish capital, old and new, revealing a city of unexpected contradictions. CITY OF POWER, INTRIGUE AND MURDER: Gustav Vasa, Queen Christina and Voltaire; murder at a Masked Ball, Olaf Palme's assassination; Lindh, social democracy and armed neutrality; the rights of women and the impact of immigration CITY OF SCIENTISTS AND INVENTORS: Linnaeus and Nobel; Ericsson and new technology; Laval, Wenner-Gren and Kamprad. SENSUAL CITY: Strindberg, Greta Garbo, Ingrid and Ingmar Bergman; sculptors and painters; home of the smorgasbord; the church, lust and the alcohol monopoly.

DNA Sensors and Inflammasomes, Volume 625, the latest release in the Methods in Enzymology series, continues the legacy of this premier serial with quality chapters authored by leaders in the field. New sections in this release include Phosphorylation and dimerization of STING and IRF3, cGAS enzymology, Synthesis and identification of immuno-stimulatory CDNs, Tracking cGAS activity/ cGAMP formation using SPR/NMR, Using an enzyme coupled assay to track cGAS activity under steady states, Tracking the polymerization of DNA sensors, inflammasome receptors, and downstream signaling partners using FRET, NLRC4

structure, Tracking TREX1 activity, DNA association and dissociation kinetics of PARP1, and more. Provides the authority and expertise of leading contributors from an international board of authors Presents the latest release in the Methods in Enzymology series Includes the latest information on DNA sensors and inflammasomes

Translations of French romances into other vernaculars in the Middle Ages have sometimes been viewed as "less important" versions of prestigious sources, rather than in their place as part of a broader range of complex and wider European text traditions. This consideration of how French romance was translated, rewritten and interpreted in medieval Sweden focuses on the wider context. It examines four major texts which appear in both languages: *Le Chevalier au lion* and its Swedish translation *Herr Ivan*; *Le Conte de Floire et Blanche-flor* and *Flores och Blanzeflor*; *Valentin et Sansnom* (the original French text has been lost, but the tale has survived in the prose version *Valentin et Orson*) and the Swedish text *Namnlös och Valentin*; and *Paris et Vienne* and the fragmentary Swedish version *Riddar Paris och jungfru Vienna*. Each is analysed through the lens of different themes: female characters, children, animals and masculinity. The author argues that French romance made a major contribution to the Europeanisation of medieval culture, whilst also playing a key role in the formation of a national literature in Sweden.

Pars à la découverte de Stockholm avec Eva, une petite Suédoise de 7 ans. Elle te présente sa maison, sa famille, son école, ses copines, les balades en bateau dans l'archipel, la fête de Sainte Lucie et les délicieuses pâtisseries suédoises. Prêt(e) pour la visite ? Bienvenue à Stockholm ! Avec la collection Viens Voir Ma Ville, départ immédiat pour découvrir les villes du monde dès 5 ans ! Des illustrations magnifiques, des détails amusants et des textes

pleins d'humour! Sans oublier le lexique suédois-français d'Eva pour parler suédois lors de ton prochain voyagea Stockholm !

The History of Nations: Otte, E.C. Norway, Sweden and Denmark...Polar research by G.T. Surface Springer Science & Business Media

My name is Eva. I am seven years old. I live in Stockholm, the capital of Sweden. Here, we resurrounded by nature and the city is encircled in water. It s built on fourteen islands wherethe salt water of the Baltic Sea meets the fresh water of Lake M laren. In Stockholm, you can get around on foot or by bike, bus, car or boat. You can even ride the metro to the forest.

Fiction. Translated from the Swedish by Jennifer Hayashida. INNER CHINA is the first of Eva Sjödin's books to be translated into English. It is the poetic narrative of a young girl navigating a tenuous yet vibrant landscape of hardship and neglect, resilience and self-reliance. "By turns catastrophic and luminous, INNER CHINA, in Jennifer Hayashida's translation, is unflinching in its gaze, economical in its language, and fearless as it enters the difficult terrain that is childhood. Here the interior and exterior worlds, the magical and the mundane collide--brutally and beautifully."--Genya Turovskaya "In Eva Sjödin's INNER CHINA, the imaginative life born of the desire for heaven, for somewhere else, is the starkest reminder that we reside not there, but here: on earth. While 'heaven and dirt cave in, twist together,' the young narrator makes a life and language of the fertile and porous nature beyond her cold realities, an emotional world marked by decay and resilience. This tale is then, also, a map of the human psyche as it maneuvers around that which threatens its body."--E. Tracy Grinnell "INNER CHINA, the first of Sjödin's works to be translated into English, consists of a series of poems that form a narrative about a young girl dealing with hard times and being neglected; by relying on herself and never giving up, she embarks on a moving journey of self-discovery."--Translation Review

The American Year Book John Murray

In 1921, MI5 commissioned a comprehensive, top-secret review of the organisation's operations during the First World War. Never intended for circulation outside of the government, all seven

volumes of this fascinating and unique document remained locked away in MI5's registry ... until now. Recently declassified and published here for the first time, MI5 in the Great War is filled with detailed, and previously undisclosed, accounts centring on the Security Service's activities during the conflict. The main narrative examines MI5's various attempts to both manage and detect double agents; the detection and execution of enemy spies; its study of German pre-war espionage; and the Kaiser's personal network of spies seeking to infiltrate British intelligence. Coinciding with the centenary of the start of the Great War, this historically significant document has been edited and brought up to date by bestselling writer and historian Nigel West, providing an extraordinary insight into the early years of MI5 and its first counterintelligence operations.

Rembrandt? Tattered Flag

LONGLISTED FOR THE 2019 ORWELL PRIZE FOR POLITICAL WRITING 'Davies's absorbing study serves up just enough sensationalism - and eccentricity - along with its serious inquiry' SUNDAY TIMES '[A] revealing account of the jail's 164-year history' DAILY TELEGRAPH, 5* review 'Insightful and thought-provoking and makes for a ripping good read' JEREMY CORBYN 'A much-needed and balanced history' OBSERVER 'Davies explores how society has dealt with disobedient women - from suffragettes to refugees to women seeking abortions - for decades, and how they've failed to silence those who won't go down without a fight' STYLIST Society has never known what to do with its rebellious women. Those who defied expectations about feminine behaviour have long been considered dangerous and unnatural, and ever since the Victorian era they have been removed from public view, locked up and often forgotten about. Many of these women ended up at HM Prison Holloway, the self-proclaimed 'terror to evil-doers' which, until its closure in 2016, was western Europe's largest women's prison. First built in 1852 as a House of Correction, Holloway's women have come from all corners of the UK - whether a patriot from Scotland, a suffragette from Huddersfield, or a spy from the Isle of Wight - and from all walks of life - socialites and prostitutes, sporting stars and nightclub queens, refugees and freedom fighters. They were imprisoned for treason and murder, for begging, performing abortions and stealing clothing coupons, for masquerading as men, running brothels and attempting suicide. In *Bad Girls*, Caitlin Davies tells their stories

and shows how women have been treated in our justice system over more than a century, what crimes - real or imagined - they committed, who found them guilty and why. It is a story of victimization and resistance; of oppression and bravery. From the women who escaped the hangman's noose - and those who didn't - to those who escaped Holloway altogether, *Bad Girls* is a fascinating look at how disobedient and defiant women changed not only the prison service, but the course of history.

Eva Gabriellsson and Stieg Larsson. In "There Are Things I Want You to Know" About Stieg Larsson and Me, Gabriellsson accepts the daunting challenge of telling their story, steeped in love and sharpened in the struggle for justice and human rights. She chooses to tell it in short, spare, lyrical chapters, like snapshots, regaling Larsson's readers with how he wrote, why he wrote, who the sources were for Lisbeth and his other characters—graciously answering Stieg Larsson's readers' most pressing questions—and at the same time telling us the things we didn't know we wanted to know—about love and loss, death, betrayal, and the mistreatment of women.

Decorating the Lord's Table Routledge

Traces the development of Sweden from a poor, backward, warrior nation to a prosperous modern one.

Stockholm: A Cultural and Literary History Biteback Publishing

Taking a fresh look at the history of diplomacy, this book looks at the fight for hegemony between France and Austria after the Peace of Westphalia 1648, showing how their clashes dragged the Scandinavian kingdoms into European top-level politics and forced them to take part in the play, constantly negotiating risks and profits. Historians Peter Lindström and Svante Norrhem discuss how the Great Powers were binding allies to their side, and how the Scandinavian countries and their political elites responded. Many of the diplomatic strategies were solidified through family alliances, patronage, and economic politics, something quite different from what is expected from today's diplomatic neutralities.

The National Union Catalogs, 1963- Springer

Linnaeus' mature theodicy, his attempt to reconcile the suffering and evil of the world with the omnipotence and goodness of God, is presented in a condensed form in the final editions of his *Systema Naturae* (1758/68). In this comprehensive compendium

of our knowledge of the three great realms of organic nature, he outlines the significance of the sub-conscious, social awareness and theological orientation in the spiritual life of man, and indicates how fate, fortune, and Providence interrelate within his conception of the Deity. In the *Nemesis Divina* this general undertaking is developed into an 'experimental theology', which is exactly analogous to Linnaeus' work in the natural sciences, in that it involves the collecting and classifying of concrete and carefully described case-studies. He never prepared the manuscript for publication, however, and for many years it was regarded as lost, and it is only very recently that any attempt has been made to publish it in its entirety. This is the first English translation of all the relevant manuscript material. It is also the first attempt to analyse the case-studies in the light of what we know of Linnaeus' general taxonomic principles, and to relate each of them to its historical context.

Flattering Alliances University of Pennsylvania Press

Raoul Wallenberg is remembered for his humanitarian activity on behalf of the Hungarian Jews at the end of World War II, and as the Swedish diplomat who disappeared into the Soviet Gulag in 1945. This book examines how thirty-one Wallenberg monuments, in twelve countries on five continents commemorate the man.

Premodern Beliefs and Witch Trials in a Swedish Province, 1669-1672 Boydell & Brewer

Place-Keeping presents the latest research and practice on place-keeping - that is, the long-term management of public and private open spaces - from around Europe and the rest of the world. There has long been a focus in urban landscape planning and urban design on the creation of high-quality public spaces, or place-making. This is supported by a growing body of research which shows how high-quality public spaces are economically and socially beneficial for local communities and contribute positively to residents' quality of life and wellbeing. However, while large amounts of capital are spent on the creation of open spaces, little thought is given to, and insufficient resources made available for, the long-term maintenance and management of public spaces, or place-keeping. Without place-keeping, public spaces can fall into a downward spiral of disrepair where anti-social behaviour can emerge and residents may feel unsafe and choose to use other spaces. The economic and social costs of restoring such spaces can therefore be considerable where place-keeping does not

occur. Place-Keeping also provides an accessible presentation of the outputs of a major European Union-funded project MP4: Making Places Profitable, Public and Private Open Spaces which further extends the knowledge and debate on long-term management of public and private spaces. It will be an invaluable resource for students, academics and practitioners seeking critical but practical guidance on the long-term management of public and private spaces in a range of contexts.

Biographie Universelle, Ancienne Et Moderne Apress

Drawing on letters, poems, notebooks, and secret diaries, Lisbet Koerner tells the moving story of one of the most famous naturalists who ever lived, the Swedish-born botanist and systematizer, Carl Linnaeus. The first scholarly biography of this great Enlightenment scientist in almost one hundred years, Linnaeus also recounts for the first time Linnaeus' grand and bizarre economic projects: to teach tea, saffron, and rice to grow on the Arctic tundra and to domesticate buffaloes, guinea pigs, and elks as Swedish farm animals. Linnaeus hoped to reproduce the economy of empire and colony within the borders of his family home by growing cash crops in Northern Europe. Koerner shows

us the often surprising ways he embarked on this project. Her narrative goes against the grain of Linnaean scholarship old and new by analyzing not how modern Linnaeus was, but how he understood science in his time. At the same time, his attempts to organize a state economy according to principles of science prefigured an idea that has become one of the defining features of modernity. Meticulously researched, and based on archival data, Linnaeus will be of compelling interest to historians of the Enlightenment, historians of economics, and historians of science. But this engaging, often funny, and sometimes tragic portrait of a great man will be valued by general readers as well.

Historical Dictionary of World War I Intelligence Harvard University Press

Oxbow says: The six essays featured in this study originated as papers given at the 36th International Congress of Medieval Studies at Kalamazoo. The contributors survey the ornate altars produced from the early 8th to 13th century in Europe, with specific examples taken from Italy, Germany and Scandinavia.
