The Life Map 2022 Creative Planner Distanz Germaine Krull (1897-1985) made a name for herself in avant-garde photography in the period between the two World Wars. After attending photography school in Munich, she launched her career in Berlin, and later worked in Paris and Monte Carlo. During World War II, her leftist political beliefs led her to spend time in Brazil and French Equatorial Africa, and afterward she traveled to Southeast Asia and later settled in Northern India. She was a

remarkable artist who was a pioneer in her field, particularly in regard to the development of the photographic book and photojournalism. This exhibition catalogue reveals how Krull balanced her avant-garde, artistic vision and her active role in the media, highlighting more than 150 images produced between 1924 and 1945, some of which appeared in her monographic books and others of which were produced for commercial publication. This major overview of Krull's work and career sheds new light on one of the great female photographers of the 20th century. In the city of Bogota, in the barrio of La Nueva Gloria, there live two Josés. One is a boy who dreams of Saturdays- that's the day he gets to

visit Paradise, the library. The second José is a garbage collector. From dusk until dawn, he scans the sidewalks as he drives, squinting in the dim light, searching household trash for hidden treasure . . . books! Some are stacked in neat piles, as if waiting for José. Others take a bit more digging. Ever since he found his first book, *Anna Karenina*, years earlier, he's been collecting books--thick ones and thin ones, worn ones and almost new ones-- to add to the collection in his home. And on Saturdays, kids like little José run to the steps of Paradise to discover a world filled with books and wonder. With an evocative text by a debut author, and rich, stunning illustrations from an up-and-coming Colombian illustrator, here is a celebration of perseverance, community, and the power of books.

Ellie Claire Regarding philosophical importance, Edmund Husserl is arguably "the" German export of the early twentieth century. In the wake of the linguistic turn(s) of the humanities, however, his claim to return to the "Sachen

selbst" became metonymic for the neglect of language in Western philosophy. This view has been particularly influential in post-structural literary theory, which has never ceased to attack the supposed "logophobie" of phenomenology. "Phenomenology to the Letter. Husserl and Literature" challenges this verdict regarding the poetological and logical implications of Husserl's work through a thorough re-examination of his writing in the context of literary theory, classical rhetoric, and modern art. At issue is an approach to phenomenology and literature that does not merely coordinate the two discourses but explores their mutual implication. Contributions to the volume attend to the interplay between phenomenology and literature (both fiction and poetry), experience and language, as well as images and embodiment. The volume is the first of its kind to chart a phenomenological approach to literature and literary approach to phenomenology. As such it stands poised to make a novel contribution to literary studies and philosophy.

Your Customers Will Never Stop to Use the Awesome Cookbook! The main principle behind the dash diet is focusing on sodium. Dietary factors have a large influence on blood pressure (as does obesity). Specifically, there are a few minerals that influence fluid levels and the relaxation or contraction of your blood vessels. The dash diet was developed to treat high blood pressure using natural methods. This isn't going to work for all people, some people simply need medications because of family history/genetic reasons. However, it's going to have some impact and might prevent you from developing high blood pressure and for those who already have it, it may reduce their blood pressure and reduce the need for medications. The dash diet worked for me, but I have to remind everyone that it does not provide an overnight solution to your health goals. Just like any diet

regimens, it takes time for you to be able to feel any difference. So, don't fret and just give it time. Thus, this book will serve as your guide when you start taking on the dash diet. It is my vision to help others achieve their health goals through this healthy diet. After all, the power to change our health is in our hands. When starting this eating plan there are a few things you need to consider. First of all, what you eat will depend on the limits you intend to set yourself. If you are using the dash diet for weight loss, you may want to lower the allowed daily calories. Also, the dash diet tends to be quite low in sodium, however, some people try to lower it even further. Nothing in this world comes easy. You deprive yourself of pleasure to achieve your ultimate goal. Being on a diet is no exception. Your dedication and determination will affect the end result. In this trombone duet, "Süsser die Glocken nie klingen," the theme is presented in 4/4, which appears to be a rather unusual measure to be chosen for this Christmas carol. The Latin groove is to be played rather laid back throughout the entire piece. The variations of the theme alternate between the two voices so that the lead voice and the accompaniment merge into one another. Arranged by Eberhard Michaely.

The photographic works of Viktoria Binshtok (b. Moscow, 1972; lives and works in Berlin) explore the idea of visibility. The artist uses surprising displacements of context to examine which contents are transmitted within the firmly defined boundaries of the picture

and which exceed these boundaries, being a matter of our own knowledge. In "World of Details," Viktoria Binshtok not only visualizes how we see the world; she also goes beyond documentary photography without relying on the expedients of staging.

Harold L. Poor's biography of the iconic German Jewish author, journalist, satirist, playwright, and poet is the most important and thorough work on Kurt Tucholsky in the English-speaking world--a labor of love by the Rutgers history professor that is still unmatched. For this book, Poor has not only spent years of research in American Universities, he also visited Tucholsky's widow Mary Gerold in her home in Germany, his family in tow, and unearthed materials, letters, and pictures that had previously been unpublished. This book is an entertaining and well-written gem that has finally been rediscovered.
