The Oxford History of Western Music is a magisterial survey of the traditions of Western music by one of the most prominent and provocative musicologists of our time. This text illuminates, through a representative sampling of masterworks, those themes, styles, and currents that give shape and direction to each musical age. Taking a critical perspective, this text sets the details of music, the chronological sweep of figures, works, and musical ideas, within the larger context of world affairs and cultural history. Written by an authoritative, opinionated, and controversial figure in musicology, The Oxford History of Western

Music provides a critical aesthetic position with respect to individual works, a context in which each composition may be evaluated and remembered. Taruskin combines an emphasis on structure and form with a discussion of relevant theoretical concepts in each age, to illustrate how the music itself works, and how contemporaries heard and understood it. It also describes how the c

FriesenPress

Library Journal praises the book as "an excellent one-volume ready reference resource for students, researchers, and others interested in music history." Historical Dictionary of Romantic Music, Second Edition covers the persons, ideas, practices, and works that made up the worlds of Western music during the long 19th century (ca. 1780-1918). It's the first book to recognize that Romantic music was very nearly a global phenomenon. It includes more women, more Black musicians and other musicians of color, and more exponents of musical Romanticism from Central and South America as well as Central and Eastern Europe than any other single-volume study of Romantic music—thus challenging the conventional hegemony of musical Romanticisms by men and by Western European nations. This book includes entries on topics including anti-Semitism, sexism, and racism that were pervasive and defining to the worlds of musical Romanticism but are rarely addressed in general studies of that subject. It includes Romantic musicians who were not primarily composers, as well as topics such as the Haitian Revolution, spirituals, and ragtime that were more important for music in the long 19th century than is generally acknowledged. The result is an expansive, inclusive, diverse, and more richly textured portrayal of Romantic music than is elsewhere available. Historical Dictionary of Romantic Music, Second Edition contains a chronology, an introduction, an extensive bibliography, and a dictionary section with more than 600 cross-referenced entries on traditions, famous pieces, persons, places, technical terms, and institutions of Romantic music. This book is an excellent resource for students, researchers, and anyone wanting to know more about Romantic music.

Edward Elgar: Lux Aeterna (SSAATTBB) Sourcebooks, Inc.
Edward Elgar occupies a pivotal place in the British cultural imagination. His music has been heard as emblematic of Empire and the English landscape. The recent success of Anthony Payne's elaboration of the sketches for Elgar's Third Symphony has prompted a critical reevaluation of his music. This Companion provides an accessible and vivid account of Elgar's work in its historical and cultural context. Established authorities on British music and scholars new in the field examine Elgar's music from a range of critical perspectives, including nationalism, post-colonialism, decadence, reception and musical influences. There are also chapters on interpretation, including his own (Elgar was the first major composer to commit a representative quantity of his own work to record), and on Elgar's relationships with the BBC and with his publishers. The book includes much new material, drawing on original research, as well as providing a comprehensive introduction to Elgar's major musical achievements.

Enigma Variations and Pomp and Circumstance Marches in Full Score Eulenburg

Identifies almost two hundred forty composers whose works are most important to an understanding of classical music, with essays on sixty of the most significant. Presented in chronological order for the Medieval, Renaissance, and Elizabethan ages, the age of the Baroque, the age of Classicism, the Romantic age, and the age of Modernism.

Nimrod (from Elgar's Variations) Enigma variations ; and, Pomp and circumstance marches
Elgar's Variations for Orchestra, commonly known as the 'Enigma' Variations, marked an epoch both in his career, and in the renaissance of English music at the turn of the century. First performed in 1899 under Hans Richter, the work became his passport to national fame and international success. From the first it intrigued listeners to know why it was called 'enigma', and who were the 'friends pictured within', to whom the work is dedicated. Appearing in the centenary year of the work's composition, this book elucidates what is known, and what has been said about the work and the enigma, and directs future listeners to what matters most: the inspired qualities of the music.

Nimrod Enigma Variations Easy Piano Sheet Music White Lion Publishing

Accessible Orchestral Repertoire is a reference volume for conductors who lead non-professional symphonic orchestras, offering practical and insightful commentary on music appropriate for intermediate and advanced youth, community, and collegiate orchestras. Modeled on and complimentary to Daniels' Orchestral Music, it is a repertoire and programming resource for youth, academic, and community orchestras. The works included in this book are a combination of well-known warhorses and lesser known gems—clear favorites for young or amateur players and as well as more challenging pieces. Functioning like an annotated bibliography, entries on individual works include information about the composer, instrumentation, movement length, and publisher. Each entry also features notes regarding the particular pedagogical, stylistic, logistical, and technical strengths and challenges of the specific work. Accessible Orchestral Repertoire will help every conductor in the process of selecting repertoire that will both feature and enrich any individual non-professional ensemble for which thoughtful and strategic programming is required.

At the Organ with Virgil Fox Alfred Music

This method begins with a review of the concepts presented in Level 2, then introduces new pieces and lessons in new keys to prepare the student for more advanced studies. Includes a "Just for Fun" section and an "Ambitious" section for the student who will devote a little extra effort toward learning some of the great masterworks that require additional practice.

The Classical Music Experience Alfred Music

This record of Elgar's intimate friendship with Alice Stuart Wortley--daughter of the painter Millais and wife of an MP--and her family chronicles a period of great artistic accomplishment set against a brilliant background of Edwardian theater, Royal Academy dinners, and private concerts. Containing some of Elgar's finest letters, many never before published, the volume also draws on diaries, manuscript notes, and personal recollections to fill gaps in the correspondence, creating a rich and full portrait of a fascinating society and a great artist at the

height of his powers.

Bibliography of Cello and Double Bass Ensemble Music for Three or More Celli and/or Double Basses

Bulletin of the University School of Music Rowman & Littlefield
First published in 1988, this encyclopedia serves as an overview and point of entry to the complex interdisciplinary field of Victorian studies. The signed articles, which cover persons, events, institutions, topics, groups and artefacts in Great Britain between 1837 and 1901, have been written by authorities in the field and contain bibliographies to provide guidelines for further research. The work is intended for undergraduates and the general reader, and also as a starting point for graduates who wish to explore new fields.

Accessible Orchestral Repertoire Macmillan

Accent on Achievement is a revolutionary, best-selling band method that will excite and stimulate your students through the most complete collection of classics and world music in any band method. The comprehensive review cycle in books 1 & 2 will ensure that students remember what they learn and progress quickly. Also included are rhythm and rest exercises, chorales, scale exercises, and 11 full band arrangements among the first two books. Book 3 includes progressive technical, rhythmic studies and chorales in all 12 major and minor keys. Also included are lip slur exercises for increasing brass instrument range and flexibility. Accent on Achievement meets and exceeds the USA National Standards for music education, grades five through eight. The Teacher's Resource Kit includes special assessment materials for student testing, reproducible music theory and composer worksheets, sample letters to parents, rhythm flash cards, and more.

Historical Dictionary of Romantic Music Routledge

This expanded and completely revised fifth edition is a unique ebook, spanning a thousand years of music from Gregorian chant via Bach and Beethoven to current leading lights such as Thomas Adès and Kaija Saariaho. There are concise biographical profiles of more than 200 composers and informative summaries of the major compositions in all genres, from chamber works to operatic epics. Topics such as the influence of jazz, notation, conducting, the madrigal, and why Stradivarius made such great violins are covered fully in feature boxes. The Rough Guide to Classical Music in a new ebook (PDF) format has been praised for its mix of well-known composers with more obscure, but interesting, figures (like Antoine Brumel and Barbara Strozzi), and for the way it takes contemporary music seriously.

The Essential Canon of Classical Music Penguin

Until recently, ideas of creativity in music revolved around composers in garrets and the lone genius. But the last decade has witnessed a sea change: musical creativity is now overwhelmingly thought of in terms of collaboration and real-time performance. Music as Creative Practice is a first attempt to synthesize both perspectives. It begins by developing the idea that creativity arises out of social interaction-of which making music together is perhaps the clearest possible illustration-and then shows how the same thinking can be applied to the ostensibly solitary practices of composition. The book also emphasizes the contextual dimensions of musical creativity, ranging from the prodigy phenomenon, long-term collaborative relationships within and beyond the family, and creative learning to the copyright system that is supposed to incentivize creativity but is widely seen as inhibiting it. Music as Creative Practice encompasses the classical tradition, jazz and popular music, and music emerges as an arena in which changing concepts of creativity-from the old myths about genius to present-day sociocultural theory-can be traced with particular clarity. The perspective of creativity tells us much about music, but the reverse is also true, and this fifth and last instalment of the Studies in Musical Performance as Creative Practice series offers an approach to musical creativity that is attuned to the practices of both music and everyday life.
