For the twice-published novelist, reading an article about herself in the National Enquirer—under the headline "Here's One for the Books: Cleaning Lady Is an Acclaimed Author"—was more than a shock. It was an inspiration. In *A Broom of One's Own*, Nancy Peacock, whose first novel was selected by the New York Times as a Notable Book of the Year, explores with warmth, wit, and candor what it means to be a writer. An encouragement to all hard-working artists, no matter how they make a living, Peacock's book provides valuable insights and advice on motivation, craft, and criticism while offering hilarious anecdotes about the houses she cleans.

Principles of Demography Canongate Books

This collection of eleven essays originally appeared in France thirty years ago and created a literary whirlwind on the Left Bank. Cioran writes incisively about Western civilizations, the writer, the novel, mystics, apostles, and philosophers. *The Temptation to Exist* first introduced this brilliant European thinker twenty years ago to American readers, in a superb translation by Richard Howard. This literary mystique around Cioran continues to grow, and *The Temptation to Exist* has become an underground classic. In this work Cioran writes about Western civilizations, the writer, the novel, about mystics, apostles, philosophers. For those to whom the very word philosophy brings visions of arduous reading, be assured: Cioran is crystal-clear, his style quotable and aphoristic. "A sort of final philosopher of the Western world. His statements have the compression

of poetry and the audacity of cosmic clowning"—The Washington Post

"Designing the School Curriculum" takes a practical, step-by-step approach, giving students the thorough grounding in the process that leads to confident and effective practitioners. The author emphasizes the discretionary judgment of the individual teacher and acknowledges that the curriculum design process is completed only in the unique and spontaneous learning exchanges between students and teachers. Practical ideas on the formation of school purposes, the design of school-wide experiences, effective implementation, and the creation of responsive evaluative mechanisms help students to fulfill the goal of the text to design an authentic and effective curriculum. After an introductory chapter examining the role of the teacher in the design process and two brisk chapters leading students through the theoretical foundations of curriculum development, the text launches into the curriculum design process, giving a close look to each element. Hlebowitsh makes a valuable contribution to the field with this new text, offering a contemporary treatment of classic curriculum design theory and, most importantly, equipping students to engage in effective curriculum design themselves.
