 Now everyone can understand the legal terms and issues governing hundreds of situations they may face throughout their lives -- without racking up huge legal bills and lawyers' fees. The Lifetime Family Legal Guide empowers consumers to understand the law and their rights, enabling them to make informed decisions when seeking professional legal assistance. Sections are arranged alphabetically and cover everything from insurance, real estate, taxes, and wills to accidents, divorce, discrimination, and

worker's compensation. Along with clear explanations and advice, the book contains more than 200 sample letters, forms, and agreements that are also included on the companion disk (Windows-compatible). These forms can be easily customized for review by a lawyer, saving valuable time, money, and worry. Like a legal first-aid kit, this manual helps people take care of themselves, safeguard their families, and protect their peace of mind. The New Lifetime Legal Guide Jeffrey Frank Jones
 This work represents a collection of the most pertinent writing of the past fifteen years in the United States and Canada on the topic of lesbians and child custody. Articles were selected on the basis of their relevance, succinctness, and

representativeness of the various aspects of child custody involving lesbians. Some of the original psychological studies comparing lesbian mothers to heterosexual mothers were sacrificed in favor of the piece by Patricia Falk, a thorough review of the psychological literature. For others, the length of the manuscript was prohibitive as was the case with the thorough, step-by-step Lesbian Mothers Litigation Manual by Donna Hitchens and Roberta Achtenberg of the National Center for Lesbian Rights. *Conducting Child Custody Evaluations* American Bar Association

Taxation for Lawyers Aspen Publishing Long before the courtroom, deposition table, or settlement meeting, legal cases are won or lost on the strength of the information lawyers glean from clients and witnesses. Unfortunately, gleaning that information is a skill too often overlooked in the rush to form legal theories and determine goals. In this new experiential learning workbook, Professor Cristina Tilley provides practical advice for improving those skills. Marrying the interviewing techniques she developed as a journalist with her litigation experience and doctrinal skills, Professor Tilley has developed Loyola School of Law's Interviewing Skills curriculum, spending several years honing her techniques. *Legal Interviewing* draws on the insights Prof. Tilley has gained over years of interviewing subjects from all walks of life and shapes the resulting information in a clear and persuasive narrative form. The students then take the lessons taught into lively, interactive exercises that allow the students to practice the multiple steps of successfully interviewing clients, witnesses (both friendly and hostile), and administrators. The unique design of this program provides participants with hands-on experience by presenting materials for two hypothetical legal matters: Dashwood, a civil case involving an elderly woman's independence; and Moore, a criminal case involving a young African-American woman accused of shoplifting. To create the interactive experience, participants receive one of two versions: Materials for A's or Materials for B's. Both versions

include Part One: Interviewing Theory. Part Two of the A's version contains the attorney materials for Dashwood and the interviewee materials for Moore; the B's version contains the attorney materials for Moore and the interviewee materials for Dashwood. The participants experience hands-on learning as Group A interviews Group B, and Group B in turn interviews Group A. These interview exercises coordinate with the book chapters, guiding participants through each the stage of the interviewing process.
