Field & Stream Penguin

To create a distinctive interior you don't have to be an ergonomics engineer.

Within are details on leathers and fabrics, hand-stitching and sewing machine use, making patterns choosing designs and adding the final touch from seats, headliner, dash, panels and carpeting to the trunk and engine compartment. Features more than 300 step-by-step photos and easy-to-follow instructions.

The Automobile Trade Directory

California Bill's Automotive Handbooks

After disassembling and gutting your car, it is easy to feel that you're in way over your head when it comes to the upholstery. This is why so many do-it-yourself restorers outsource the work, at considerable expense, to an experienced upholstery shop. Taking the time to acquire the skills for upholstery restoration may feel like a daunting task, but what if an experienced upholsterer presented every skill you needed to restore upholstery yourself? Starting with a list of necessary tools, author Fred Mattson guides you through all the required tasks, including seat restoration; door panel removal, patterning, assembly, and installation; headliner removal and installation; carpet cutting; and even convertible top restoration. The easy-to-follow step-by-step presentation allows for a thorough understanding of all the processes. Every photo in this book provides a hands-on approach that shows you how to repair and restore a car's interior to concours, show-quality specifications. Other restoration books may show you beautifully restored interiors, but they don't show you how to produce them. This book helps you develop the skills needed with instruction from a professional upholsterer, saving you thousands of dollars over outsourcing the restoration. If you are interested in saving money, doing a complete restoration yourself, or simply want to know how it's done, this book is a handy addition to your automotive library.

Motor Record

In this revised edition, learn to make and install complete interiors in your car, truck or van. The author teaches you how to sew like an expert, and avoid costly mistakes. Learn to recover and build bench bucket seats, make headliners and carpets, plus how to build boat seats from scratch. Materials are described with specific

recommendations for vinyl, cloth, velvet, leather, Nimbus, panel board, etc.

Indispensable for anyone interested in upholstery.

Ward's Automobile Topics

Frustrations from installing an aftermarket kit interior are now over with this easy-to-follow, illustrated, step-by-step book that shows you how to achieve professional results. We have all heard that premade seat covers and interior pieces are junk, but this is not true. The majority of problems encountered is due to installer error. All

old cars have fitment issues, and knowing how to overcome them will get you the desired results. This first-of-its-kind book walks you through how to properly install kits, including seat upholstery, door panels, carpet, and headliners. Tips are provided on ordering products and how to deal with a product that is defective. Installation tools, supplies and why you need them are all fully illustrated through color photos and easy-to-follow steps that will make your project look professionally done. Saving money and getting the satisfaction of doing a project yourself is what this book is all about. Learn tricks from a professional who has more than 46 years of installation experience and knows firsthand how to make a difficult project look great. It just takes a little guidance and patience to achieve that perfect fit.

FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

Catalog of Copyright Entries. Third Series

The car - once everybody's dream and a key status symbol in most countries and cultures - has been extensively questioned in the last decades and in the last few years particularly. Urbanisation, traffic congestion, pollution problems, heavy reliance on scarce oil supplies, safety issues and ever-growing competition, have all provided significant business challenges for the automotive industry. Many car manufacturers have had to fundamentally rethink their design, brand and marketing strategies to thrive in a savvy, consumer-led

culture, and markets that are becoming increasingly restrictive in size and opportunity. Auto Brand provides a roadmap to branding and marketing success in the automotive industry from a leading industry expert, featuring case studies from major car brands including Audi, BMW, Holden, Mercedes-Benz, Opel, Porsche, Saab, Seat, Skoda, Vauxhall, Volkswagen, and Volvo. It includes findings from 100 interviews conducted with CEOs, marketing managers, sales managers and sales people, from manufacturer level to small rural dealers, as well as industry experts, policy makers, free-stranding repair shops and professional organizations. Auto Brand is essential reading for marketing managers, sales managers, CEOs, development managers and dealers in all types of companies in the car industry including: manufacturers, national sales companies/importers, dealers, finance companies, insurance companies, free-standing repair shop channels and more. It is the first book to specifically address how to deal with the challenges facing the automotive industry and illustrates how companies can take advantage of new technologies, adapt to emerging trends in consumer behaviour, improve profitability and build even more successful brands in the future.
