An ever-increasing proportion of our lives is spent in supermarkets, airports and hotels, on motorways or in front of TVs, computers and cash machines. This invasion of the world by what Marc Augé calls "non-space" results in a profound alteration of awareness: something we perceive, but only in a partial and incoherent manner. Augé uses the concept of "supermodernity" to describe a situation of excessive information and excessive space. In this fascinating essay he seeks to establish an intellectual armature for an anthropology of supermodernity.

In *Surviving the Ghetto*, Serena Di Nepi recounts the first fifty years of the ghetto, exploring the

Miközben egy az Inkvizíció által halottnak hitt veszedelmes eretneket, a rettenetes Quixost veszi űzőbe, Gregor Eisenhorn maga is gyanúba keveredik. Az egykori szövetségesei, mint radikális eretnekre, az Impérium ellenségére vadásznak rá. Ahogy egyre inkább elveszíti a lába alól a talajt, Eisenhorn egyre sötétebb eszközöz nyúlcéljainak elérése érdekében. Vajon meddig mehet el? Meddig használhatja az ellenség fegyvereit, amíg maga is azzá nem válik, aminek az elpusztítására felelős?

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

This book examines the evolution of the phenomenon and explores the genesis of overtourism and the system dynamics underlining it. The 'overtourism' phenomenon is defined as the excessive growth of visitors leading to overcrowding and the consequential suffering of residents, due to temporary and often seasonal tourism peaks, that lead to permanent changes in lifestyles, amenities and well-being. Enormous tensions in overtourism affected destinations have driven the intensification of policy making and scholarly attention toward seeking antidotes to an issue that is considered paradoxical and problematic. Moving beyond the 'top 10 things you can do about

overtourism', this book examines the evolution of the phenomenon and explores the genesis of overtourism as well as the system dynamics underpinning it. With a rigorous scientific approach, the book uses systems-thinking and contemporary paradigms around sustainable development, resilience planning and degrowth; while considering global economic, socio-political, environmental discourses. Researchers, analysts, policy makers and industry stakeholders working within tourism as well as those within the private sector, community groups, civil society groups and NGOs will find this book an essential source of information.

Sixteenth in a series of annual reports comparing business regulation in 190 economies, *Doing Business 2019* measures aspects of regulation affecting 10 areas of everyday business activity: • Starting a business • Dealing with construction permits • Getting electricity • Registering property • Getting credit • Protecting minority investors • Paying taxes • Trading across borders • Enforcing contracts • Resolving insolvency These areas are included in the distance to frontier score and ease of doing business ranking. *Doing Business* also measures features of labor market regulation, which is not included in these two measures. This edition also presents the findings of the pilot indicator entitled 'Contracting with the Government,' which aims at benchmarking the efficiency, quality and transparency of public procurement systems worldwide. The report updates all indicators as of May 1, 2018, ranks economies on their overall 'ease of doing business', and analyzes reforms to business regulation -- identifying which economies are strengthening their business environment the most. *Doing Business* illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank Group that garners worldwide attention on regulatory barriers to entrepreneurship. Almost 140 economies have used the *Doing Business* indicators to shape reform agendas and monitor improvements on the ground.

Now she's back with a new face, a new magic, and a new name—Aurelia Ryder—drawn by the urgent need to protect the family she left behind. An ancient power is stalking her adopted mother, Kate Daniels, an enemy unlike any other, and a string of horrifying murders is its opening gambit. If Aurelia's true identity is discovered, those closest to her will die. So her plan is simple: get in, solve the murders, prevent the prophecy from being fulfilled, and get out without being recognized. She expected danger, but she never anticipated that the only man she'd ever loved could threaten everything. One small misstep could lead to disaster. But for Aurelia, facing disaster is easy; it's relationships that are hard.

Dosso Dossi has long been considered one of Renaissance Italy's most intriguing artists. Although a wealth of documents chronicles his life, he remains, in many ways, an enigma, and his art continues to be as elusive as it is compelling. In *Dosso's Fate*, leading scholars from a wide range of disciplines examine the social, intellectual, and historical contexts of his art, focusing on the development of new genres of painting, questions of style and chronology, the influence of courtly culture, and the work of his collaborators, as well as his visual and literary sources and his painting technique. The result is an important and original contribution not only to literature on Dosso Dossi but also to the study of cultural history in early modern Italy.

Che cosa hanno in comune le rovine del Palatino e le sedie impagliate di una latteria d'epoca? E

cosa unisce il sapore unico della pajata al profumo conturbante dei roseti in piena fioritura? L'eternità della capitale è il filo rosso che si srotola passo dopo passo, colle dopo colle, secolo dopo secolo abbracciando i mille volti della città, i suoi monumenti più noti, ma anche i luoghi segreti e gli angoli in cui una storia imponente svela la ricchezza di tutti i suoi anni. I centouno itinerari che in questo libro tentano di raccontare Roma invitano ad attraversare la Città Eterna passando dai capolavori di Caravaggio alle periferie raccontate da Pier Paolo Pasolini; dalla contemplazione delle architetture barocche alla degustazione dei piatti più antichi della tradizione; dalle testimonianze dell'epoca imperiale ai suoi mercati più colorati e rappresentativi. È una Roma, questa, da scovare nel grande e nel piccolo, fra i fasti di una nobiltà antichissima così come nella memoria e fra le vie appartenute al suo popolo sovrano. Una Roma immortale da conoscere in centouno mosse. Centouno passeggiate e altrettante esperienze che bisognerebbe proprio fare almeno una volta nella vita. «Leggendo questa guida originalissima ci rendiamo conto di quanto poco ci concediamo, di come abitiamo malamente il posto più bello del mondo. Basta sfogliare l'indice del libro perché ritorni quella voglia di quando eravamo ragazzi e le mattine erano piene di sorprese e rivelazioni. Regaliamoci questi centouno momenti di meraviglia.» Marco Lodoli, la Repubblica «Si tratta di un libro che riesce a tracciare un percorso originale nell'urbe restando in equilibrio fra spunti storici ed aneddoti originali.» Doriana Torriero, Corriere della Sera Ilaria Beltramme è nata a Roma nel 1973 e spera di morirvi vecchia e felice il più tardi possibile. Nel bailamme di insegne che affollano le serate meneghine con le proposte molecolari e fusion di etnici, fast-food, ristoranti all'ultimo grido in fatto di menu e design, Carlo Cambi ci riporta alla Milano che fu, segnalandoci le 101 osterie e trattorie più caratteristiche di Milano, dove recuperare la dimensione più popolare e autentica di questa metropoli considerata la città più europea d'Italia. Perché la Milano di una volta resiste, con le sue atmosfere d'antan, in queste roccaforti dell'anima cittadina, dove ancora risuonano i vecchi proverbi in dialetto, dove la cucina è genuina, l'atmosfera casalinga, e il servizio senza troppi fronzoli ma attento e sincero. E ancora vivono, nell'impegno e nella passione dei gestori di queste osterie e trattorie, i profumi, i gesti e i sapori di una cucina mai perduta. Una cucina che affonda le sue radici nella milanesità più autentica, quella di Giorgio Gaber e dei suoi "trani a go go", della Milano delle latterie, con la testa a New York e i piedi in Puglia, sempre in bilico tra miseria e nobiltà. In un'atmosfera che richiama le grida dei facchini che accompagnavano il passaggio delle chiatte su e giù per i Navigli, o lo sciamare degli operai a sera diretti all'osteria, o le biografie minime di nobili, cabarettisti e poeti che hanno fatto la storia di Milano, il libro, che è insieme una guida e un racconto, vi accompagnerà negli angoli più nascosti di questa città. Per scoprire che a Milano si può ancora passare il tempo in compagnia degli amici posando gli affanni e gustando ottimo cibo a un prezzo onesto, accompagnato da un buon bicchiere di vino. Carlo Cambi toscano di nascita e di cultura, ha esordito giovanissimo nel giornalismo prima a «Il Tirreno» e poi a «la Repubblica» dove ha lavorato per vent'anni. Nel 1997 ha fondato «I viaggi di Repubblica», primo e unico settimanale di turismo in Italia, che ha diretto fino al 2005. Ha scritto per «L'Espresso», «il Venerdì di Repubblica», «Affari e Finanza», «Epoca» e «Panorama», collabora con «Il resto del Carlino» ed è il curatore dell'inserito enogastronomico "Libero Gusto" che esce ogni sabato sul quotidiano Libero. Sommelier honoris causa dell' AIS, è tra i fondatori del Movimento Turismo del Vino, membro del Comitato Scientifico della Fondazione Qualivita per i marchi europei, già Presidente della Strada del Vino Terre di Arezzo. Autore televisivo e radiofonico è stato relatore in numerosissimi convegni e ha prodotto diversi saggi di argomento enogastronomico, turistico, antropologico ed economico. Nel 2009 è stato insignito del premio internazionale AIS, già Oscar del Vino, quale miglior giornalista scrittore enoico. Di formazione economico-giuridica tiene docenze ai master dell'Università Bocconi e de "la Sapienza" di Roma. Con la Newton Compton ha pubblicato *Il Mangiarozzo*, un bestseller dell'editoria enogastronomica; *Le ricette e i vini del Mangiarozzo 2009 e 2010*; *101 Trattorie e Osterie di Milano dove mangiare almeno una volta nella vita* e *Le ricette d'oro delle migliori osterie e trattorie italiane del Mangiarozzo*. "We appreciate Roger Stone, he is one tough cookie." - President Trump The sensational New York Times bestseller, now in paperback. Find out how and why LBJ had JFK assassinated. The Man Who Killed Kennedy: The Case Against LBJ hit the New York Times bestseller list the week of the 50th Anniversary of the assassination of President John F. Kennedy. Consummate political insider Roger Stone makes a compelling case that Lyndon Baines Johnson had the motive, means, and opportunity

to orchestrate the murder of JFK. Stone maps out the case that LBJ blackmailed his way on the ticket in 1960 and was being dumped in 1964 to face prosecution for corruption at the hands of his nemesis attorney Robert Kennedy. Stone uses fingerprint evidence and testimony to prove JFK was shot by a long-time LBJ hit man—not Lee Harvey Oswald. President Johnson would use power from his personal connections in Texas, from the criminal underworld, and from the United States government to escape an untimely end in politics and to seize even greater power. President Johnson, the thirty-sixth president of the United States, was the driving force behind a conspiracy to murder President Kennedy on November 22, 1963. In *The Man Who Killed Kennedy*, you will find out how and why he did it. Legendary political operative and strategist Roger Stone has gathered documents and uses his firsthand knowledge to construct the ultimate tome to prove that LBJ was not only involved in JFK's assassination, but was in fact the mastermind. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a national

bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

"The book is like a dream you want to last forever" (Roberta Silman, *The New York Times Book Review*), now with a gorgeous new cover by the famed designer Peter Mendelsund A masterwork of W. G. Sebald, now with a gorgeous new cover by the famed designer Peter Mendelsund *The Rings of Saturn*—with its curious archive of photographs—records a walking tour of the eastern coast of England. A few of the things which cross the path and mind of its narrator (who both is and is not Sebald) are lonely eccentrics, Sir Thomas Browne's skull, a matchstick model of the Temple of Jerusalem, recession-hit seaside towns, wooded hills, Joseph Conrad, Rembrandt's "Anatomy Lesson," the natural history of the herring, the massive bombings of WWII, the dowager Empress Tzu Hsi, and the silk industry in Norwich. W.G. Sebald's *The Emigrants* (New Directions, 1996) was hailed by Susan Sontag as an "astonishing masterpiece perfect while being unlike any book one has ever read." It was "one of the great books of the last few years," noted Michael Ondaatje, who now acclaims *The Rings of Saturn* "an even more inventive work than its predecessor, *The Emigrants*."
