Letter Writing e-artnow

Letter writing was widespread in the Graeco-Roman world, as indicated by the

large number of surviving letters and their extensive coverage of all social categories. Despite a large amount of work that has been done on the topic of ancient epistolography, material and formatting conventions have remained underexplored, mainly due to the difficulty of accessing images of letters in the past. Thanks to the increasing availability of digital images and the appearance of more detailed and sophisticated editions, we are now in a position to study such aspects. This book examines the development of letter writing conventions from the archaic to Roman times, and is based on a wide corpus of letters that survive on their original material substrates. The bulk of the material is from Egypt, but the study takes account of comparative evidence

from other regions of the Graeco-Roman world. Through analysis of developments in the use of letters, variations in formatting conventions, layout and authentication patterns according to the sociocultural background and communicational needs of writers, this book sheds light on changing trends in epistolary practice in Graeco-Roman society over a period of roughly eight hundred years. This book will appeal to scholars of Epistolography, Papyrology, Palaeography, Classics, Cultural History of the Graeco-Roman World.

Arihant CBSE English Core Term 2 Class 12 for 2022 Exam (Cover Theory and MCQs) University of Chicago Press

Luther is a six volume biography of Martin Luther, German professor of theology and the Church reformer, famous for his Ninety-five Theses of 1517 and recognized as a seminal figure in the Protestant Reformation. The aim of the work was to present accurate historical and psychological portrait of Luther's personality, which is still a mystery from many points of view. While presenting Luther's psychological picture the author chooses to do so in Luther's own words, analyzing his writings and letters. Analyzing Luther's writings he opts not to write about Luther's teachings and the history of dogma, but

reaches deeper in his endeavor to supply an exact portrayal of Luther as a whole, which should emphasize various aspects of his mind and character.
