With its vivid descriptions of courtly society, gardens, and architecture in early eleventh-century Japan, *The Tale of Genji*—recognized as the world's first novel—has captivated audiences around the globe and inspired artistic traditions for one thousand years. Its female author, Murasaki Shikibu, was a diarist, a renowned poet, and, as a tutor to the young empress, the ultimate palace insider; her monumental work of fiction offers entry into an elaborate, mysterious world of court romance, political intrigue, elite customs, and religious life. This handsomely designed and illustrated book explores the outstanding art associated with *Genji* through in-depth essays and discussions of more than one hundred works. *The Tale of Genji* has influenced all forms of Japanese artistic expression, from intimately scaled albums to boldly designed hanging scrolls and screen paintings, lacquer boxes, incense burners, games, palanquins for transporting young brides to their new homes, and even contemporary manga. The authors, both art historians and *Genji* scholars, discuss the tale's transmission and reception over the centuries; illuminate its place within the history of Japanese literature and calligraphy; highlight its key episodes and characters; and explore its wide-ranging influence on Japanese culture, design, and aesthetics into the modern era. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}

The art of Japanese woodblock printing, known as ukiyo-e ("pictures of the floating world"), reflects the rich history and way of life in Japan hundreds of years ago. *Ukiyo-e: The Art of the Japanese Print* takes a thematic approach to this iconic Japanese art form, considering prints by subject matter: geisha and courtesans, kabuki actors, sumo wrestlers, erotica, nature, historical subjects and even images of foreigners in Japan. An artist himself, author Frederick Harris—a well-known American collector who lived in Japan for 50 years—pays special attention to the methods and materials employed in Japanese printmaking. The book traces the evolution of ukiyo-e from its origins in

metropolitan Edo (Tokyo) art culture as black and white illustrations, to delicate two-color prints and multicolored designs. Advice to admirers on how to collect, care for, view and buy Japanese ukiyo-e woodblock prints rounds out this book of charming, carefully selected prints.

What Argenteuil in the 1870s was to French Impressionists, Cos Cob between 1890 and 1920 was to American Impressionists Childe Hassam, Theodore Robinson, John Twachtman, J. Alden Weir, and their followers. These artists and writers came together to work in the modest Cos Cob section of Greenwich, Connecticut, testing new styles and new themes in the stimulating company of colleagues. This beautiful book is the first to examine the art colony at Cos Cob and the role it played in the development of American Impressionist art. During the art-colony period, says Susan Larkin, Greenwich was changing from a farming and fishing community to a prosperous suburb of New York. The artists who gathered in Cos Cob produced work that reflects the resulting tensions between tradition and modernity, nature and technology, and country and city. The artists' preferred subjects -- colonial architecture, quiet landscapes, contemplative women -- held a complex significance for them, which Larkin explores. Drawing on maritime history, garden design, women's studies, and more, she places the art colony in its cultural and historical context and reveals unexpected depth in paintings of enormous popular appeal.

This collection of projects by the "father of modern origami" contains detailed instructions for 60 of the master's original works. Master origami artist Akira Yoshizawa was a true innovator who played a seminal role in the rebirth of origami in the modern world. He served as a bridge between past and present--between the ancient traditional craft and the development of origami as a modern practice--in terms of inventing new techniques and in preserving the traditional Japanese forms. In fact, the notational system of diagrams widely used today to indicate how models are folded was largely invented by him. Above all, Yoshizawa was responsible for elevating origami to the status of an art form. This beautiful origami book is the first comprehensive survey of the extraordinary work of Akira Yoshizawa. In addition to 60 models from his private collection, it features over 1,000 original drawings by the artist, and English translations of his writings in Japanese on origami, all of which

are published here for the very first time. Origami projects include: The Koinobori and the Helmet Butterflies of Every Kind Fairy Tale Crowns and Caps The Lion Mask The Tengu Masks and many more! Akira Yoshizawa also contains an explanation of the Master's personal philosophy of origami by Yoshizawa's widow, Kiyoko Yoshizawa and an insightful introduction from Robert Lang, a leading artist and exponent of origami art in the West.

At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. The Hasegawa Reader is an open access companion to the bilingual catalogue copublished with The Noguchi Museum to accompany an international touring exhibition, Changing and Unchanging Things: Noguchi and Hasegawa in Postwar Japan. The exhibition features the work of two artists who were friends and contemporaries: Isamu Noguchi and Saburo Hasegawa. This volume is intended to give scholars and general readers access to a wealth of archival material and writings by and about Saburo Hasegawa. While Noguchi's reputation as a preeminent American sculptor of the twentieth century only grows stronger, Saburo Hasegawa is less well known, despite being considered the most literate artist in Japan during his lifetime (1906-1957). Hasegawa is credited with introducing abstraction in Japan in the mid 1930s, and he worked as an artist in diverse media including oil and ink painting, photography, and printmaking. He was also a theorist and widely published essayist, curator, teacher, and multilingual conversationalist. This valuable trove of Hasegawa material includes the entire manuscript for a 1957 Hasegawa memorial volume, with its beautiful essays by philosopher Alan Watts, Oakland Museum Director Paul Mills, and Japan Times art writer Elise Grilli, as well as various unpublished writings by Hasegawa. The ebook edition will also include a dozen essays by Hasegawa from the postwar period, and one prewar essay, professionally translated for this publication to give a sense of Hasegawa's voice. This resource will be an invaluable tool for scholars and students interested in midcentury East Asian and American art and tracing the emergence of contemporary issues of hybridity, transnationalism, and notions of a "global Asia."

Remembering those we've lost, and empowering those of the future Stitching Stolen Lives is an in-depth look at the mission and work of the Social Justice Sewing Academy Remembrance Project. Together, we remember the lives lost due to racial injustices, with an in-depth sharing of their story.

The SJSJ compiled extraordinary portrait art quilts that memorialize the individuals and say their names, over and over. SJSJ also works with young adults and teens to help find their voice through the art of fabric and quilting, shown through student gallery photography. By working with SJSJ, students learn how to cut fabric and make quilt blocks, and along the way, find the strength to express the systemic problems that plague their everyday life through their artwork. This book shares stories and insight into the lives lost and the long overlooked, heartrending truths shared by teens and young adults. Personal stories of individuals and their families whose lives have been cut short by racially motivated crime Includes thought-provoking portrait art quilt blocks in the likeness of those whose lives were stolen Valuable resource section provides information on how to talk about racial equity, use art as a tool to aid self-expression, and get started on your own social justice initiative

Louis loves to watch birds. He takes care of injured birds and studies how they look and how they move. His father wants him to become an engineer, but Louis dreams of being a bird artist. To achieve this dream, he must practice, practice, practice. He learns from the art of John James Audubon. But as Louis grows up, he begins to draw and paint living, flying birds in their natural habitats. Louis Agassiz Fuertes (1874-1927) is now known as the father of modern bird art. He traveled with many scientific expeditions all over the world. His best-known works--paintings for habitat exhibits at the American Museum of Natural History in New York--are still beloved by visitors today. His art helped to encourage wildlife conservation, inspiring people to celebrate and protect the world of wings. Poems by Newbery Honor-winning author Margarita Engle and illustrations by Aliona Bereghici capture the life of Louis Fuertes and the deep sense of wonder that he felt when he painted the sky.

Hokusai was one of the great masters of the Japanese woodblock print. His exquisite compositions and dynamic use of color set him apart from other printmakers, and his unequalled genius influenced both Japanese and a whole generation of Western artists. Now available for the first time in paperback, this book reproduces the artist's finest works in plates that convey the full variety of his invention, each of which is provided with an informative commentary. In his introduction, Hokusai expert Matthi Forrer traces the artist's career and defines his place in relation to his contemporaries and to the history of Japanese art. Examining all genres of the artist's prolific output -- including images of city life, maritime scenes, landscapes, views of Mount Fuji, bird and flower illustrations, literary scenes, waterfalls and bridges -- Hokusai, Prints and Drawings provides a detailed account of the artist's genius.

In this Japanese ink painting book renowned Japanese master Shozo Sato offers his own personal teaching on the beautiful art of sumi-e painting. Sumi-e: The Art of Japanese Ink Painting provides step-by-step, photo-by-photo instructions to guide learners in the correct form, motions and techniques of Japanese sumi-e painting. Featuring gorgeous images and practical advice, it includes guided instructions for 35 different paintings. From waterfalls to bamboo, learners paint their way to understanding sumi-e--a style of painting that is characteristically Asian and has been practiced for

well over 1,000 years. Although it's sometimes confused with calligraphy, as the tools used are the same, sumi-e instead tries to capture the essence of an object or scene in the fewest possible strokes. This all-in-one resource also provides a timeline of brush painting history, a glossary of terms, a guide to sources and an index--making it a tool to use and treasure, for amateurs and professionals alike. This sumi-e introduction is ideal for anyone with a love of Japanese art or the desire to learn to paint in a classic Asian style.

America grows older yet stays focused on its young. Whatever hill we try to climb, we're "over" it by fifty and should that hill involve entertainment or athletics we're finished long before. But if younger is better, it doesn't appear that youngest is best: we want our teachers, doctors, generals, and presidents to have reached a certain age. In context after context and contest after contest, we're more than a little conflicted about elders of the tribe; when is it right to honor them, and when to say "step aside"? In *Lastingness*, Nicholas Delbanco, one of America's most celebrated men of letters, profiles great geniuses in the fields of visual art, literature, and music--Monet, Verdi, O'Keeffe, Yeats, among others - searching for the answers to why some artists' work diminishes with age, while others' reaches its peak. Both an intellectual inquiry into the essence of aging and creativity and a personal journey of discovery, this is a brilliant exploration of what determines what one needs to do to keep the habits of creation and achievement alive.
