## **HANA BETHANY**

### Two Leaves and a Bud

Penguin UK

Coolie portrays the picaresque adventures of Munoo, a young boy forced to leave his hill village to fend for himself and discover the world. His journey takes him far from home to towns and cities, to Bombay and Simla, sweating as servant, factory-worker and rickshaw driver. It is a fight for survival that illuminates, with raw immediacy, the grim fate of the masses in pre-Partition India.

### The Book of Indian Birds

Samurai Media Limited

The gripping biography of R.K. Dalmia, the last century's most flamboyant Indian industrialist, written by his daughter, who loved and loathed him equally.

A Simple Account of the World History 'Glimpses of the World History' is an account of the progress of the world through centuries and ages. This book is a collection of letters that Jawaharlal Nehru wrote to his daughter Indira when he

was in various Indian prisons for three years. The letters were meant to introduce her to the world and its history. In the first few letters, Nehru expresses his sadness for not being able to be around his daughter and give her the materialistic gifts that other parents could but he promises to give her a gift that he could afford; in the form of knowledge and wisdom through words that come from the very core of his heart. Nehru wrote 196 letters and covered the history of mankind from 6000 BC to the time he was writing the letters. Tales of Empires A major part of these letters talks extensively about the rise and fall of empires around the world and development of civilizations as well. Nehru talks about the histories of every significant place ranging from Greece in the far West to China in the east. The book talks about the wars that were fought during these years and the greatest revolutions that overthrew established dynasties. Nehru has also written about the legendary leaders and kings who have walked the earth including right from Alexander the Great to Mahatma Gandhi. A

Different View Unlike many other books that talk more or less about particular history of specific cultures, this book is a panoramic view of the history of mankind. It talks about the barbarians as well as the well behaved societies in the far west. Nehru has written this book with lot of wit which makes it an interesting read.

Bison is a general-purpose parser generator that converts an annotated context-free grammar into a deterministic LR or generalized LR (GLR) parser employing LALR(1) parser tables. As an experimental feature, Bison can also generate IELR(1) or canonical LR(1) parser tables. Once you are proficient with Bison, you can use it to develop a wide range of language parsers, from those used in simple desk calculators to complex programming languages. Bison is upward compatible with Yacc: all properly-written Yacc grammars ought to work with Bison with no change. Anyone familiar with Yacc should be able to use Bison with little trouble. You need to be fluent in C or C++ programming in order to use Bison or to understand this manual.

Java is also supported as an experimental feature. We begin with tutorial chapters that explain the basic concepts of using Bison and show three explained examples, each building on the last. If you don't know Bison or Yacc, start by reading these chapters. Reference chapters follow, which describe specific aspects of Bison in detail. Bison was written originally by Robert Corbett. Richard Stallman made it Yacc-compatible. Wilfred Hansen of Carnegie Mellon University added multi-character string literals and other features. Since then, Bison has grown more robust and evolved many other new features thanks to the hard work of a long list of volunteers. This edition corresponds to version 3.0.4 of Bison.

#### Unto Him a Witness

Popular Prakashan

The story of an entrepreneur who moved from a single, family style restaurant, to create a chain known across India. But his passion for hospitality did not stop there. Vithal Kamat had a dream to make a five star hotel. He went on to make THE ORCHID, a five-star ecotel, which won numerous awards for being the world's best

environmentally sensitive hotel. The Orchids multiplied and today stand as icons of hospitality. This is the story of what went into the making of this empire. This is an inspiring story of a man willing to face any odds for his dream, armed with determination, dedication and discipline. There are moments in our lives, where we feel like giving up on our vision and aspirations. This true life story of hotelier Vithal Kamat shows that all it takes to make it, is the belief in your dreams and the conviction to see them through.

Kasturba Gandhi is the fictionalised biography of Kasturba Gandhi, a lady as strong and great as Mahatma Gandhi. A lady who earned a place in history because of her personal sacrifices and strength of conviction in what was right as much as on account of being the wife of Mahatma Gandhi in his fight for basic human rights for Indians in South Africa and the Indian Freedom Movement. She was the first Indian woman who voluntarily faced a jail sentence in a foreign soil - in South Africa - in her

fight for basic rights for Indian women. The book gives a glimpse of how a strong woman can empower herself staying within the folds of tradition and convention. It offers a rarely portrayed facet of Gandhi - a family man, a father, a husband. It shows how his transformation from Mr Mohandas Karamchand Gandhi to Mahatma Gandhi happened with the support of a woman who was a silent partner in the struggle. How she let him realise his larger goals at a cost to herself and family in the larger interests of mankind. How she willingly courted jail terms in Africa, an alien land with no grip on the language and keeping her vegetarian habits intact. How she took up the causes started by Bapu, when he was jailed in India and was imprisoned. How she breathed her last in jail - in Agha Khan Palace where she was jailed last.

Taxi driver Jeet Singh is cruising for fare when a man being tailed by a bunch of goons blocks his way. Entrusting Jeet Singh with a briefcase full of secrets, classified government documents to be delivered in lieu of a

huge compensation to a girl in Jogeshwari, he jumps off the moving taxi. The next morning, his dead body is found by the railway track in a suburb, while Jeet Singh finds he has nobody to give the briefcase to for the girl died the previous night from a massive cardiac arrest. He decides to open the briefcase, and then a free-for-all begins for diamonds worth millions. **Diamonds Are for All**, a spectacular new novel from the Jeet Singh series is being published simultaneously with the Hindi edition, Heera Pheri.

I am Lakshmi Prasad, native of Bitihar. I am doing PhD on a very important subject -Mating habits of gay chimpanzees in West Africa- at PANU University, the best University in India and possibly the best University in the world. My idols are -Faizal Guru-, -Janab Kasab Sahib-, -Focus Carat-, -Baba Badkar-, -Zakir Nalayak-, -Gharkha Dutt-, -Dr. Kana Ayyub- and all PhD students who had committed suicide since they failed to solve their PhD problems. I personally feel that, all deprived Indians should

automatically be awarded a PhD degree coupled with a free pension of 1 lakh rupees/month to be delivered in cash via post at door step. Till then we are going to fight for azaadi from India. Imagine a day, when no PhD student would have to commit suicide, imagine a day, when no lower caste will be humiliated by upper caste, s/he can use his/her doctorate degree and force others to call him/her Dr. X, Dr. Y, etc. Imagine a day, when all deprived people can take part in active politics and -Make Communism Great Again- thanks to my -one lakh per month- pension idea.

The goal of this book is to teach you to think like a computer scientist. This way of thinking combines some of the best features of mathematics, engineering, and natural science. Like mathematicians, computer scientists use formal languages to denote ideas (specifically computations). Like engineers, they design things, assembling components into systems and evaluating tradeoffs among alternatives. Like scientists, they observe the behavior of complex

systems, form hypotheses, and test predictions. The single most important skill for a computer scientist is problem solving. Problem solving means the ability to formulate problems, think creatively about solutions, and express a solution clearly and accurately. As it turns out, the process of learning to program is an excellent opportunity to practice problem-solving skills. That's why this chapter is called, The way of the program. On one level, you will be learning to program, a useful skill by itself. On another level, you will use programming as a means to an end. As we go along, that end will become clearer.

Mumbai is an ever-evolving city, bustling and

brimming, never sleeping for a wink. But the past four decades brought upheavals of great magnitude that shaped the city as we know today. Marred by communal riots, gang wars and terrorism, the spirit of Mumbai has emerged indomitable every single time. Born and raised in the lanes of Bombay 3, this is the story of Jagan Kumar who dreams of being a television journalist and changing the world. But once he achieves this, he realises that television journalism has lost its path, now afflicted with sensationalism, corruption and bias. As a crime reporter, he comes across various unscrupulous means that law enforcement agencies adopt to combat organised crime syndicates. He is shocked to witness interdepartmental rivalry that often jeopardises public security. Disenchanted, in conflict with his conscience and confused about his calling, he is about to quit when something happens

that changes the course of his life. Bombay 3 begins from the bylanes of old Bombay of the seventies and then takes you to Mosul in ISIS's Iraq of 2014 and finally to the streets of Bangkok where the underworld of Mumbai has spread its tentacles. A fast-paced thriller, it answers certain questions about life in Mumbai and raises a few new ones.
