DANIKA DOYLE

Guide du Routard Provence 2024/25 Springer

Sleeping Beauty is award-winning artist Lydia Panas' much-praised series of mesmerizing color portraits of reclining women and girls. Sleeping Beauty embodies Panas' complex relationship with portraiture. In an interesting reversal of roles, the artist's gaze and the models' are intertwined, incorporating the viewer as participant in an often uncomfortable connection. Critics and curators have praised the work for Panas' artistic and technical mastery, and all have noted and examined the powerfully affecting gaze of her subjects. Panas' work is rooted in experience, what she sees, and how she understands people, relationships and power dynamics. In Sleeping Beauty, her subjects lie down, a metaphor for the position girls and women have been placed in historically. Yet, her subjects look out with self-awareness. Through Panas' lens, their inescapable gaze signals a knowledge that they have been to some extent duped, one might say-and a sense that they are working it out. The girls and women look in a way that implies a lack of complicity. The

serial depictions and variations explore how difficult it feels to be a girl and a woman, subject to another's dominance. Viewers of the "Sleeping Beauty" portraits have aptly commented on the deeply compelling nature of the series-one viewer noting that it is "both difficult to approach and difficult to walk away from" and another describing the work as "unlike anything else I have seen before" and "causing me to wish to avert my eyes and yet I cannot do so. It is astonishingly memorable." Sleeping Beauty is a photography monograph for collectors of beautiful art and illustrated books; for anyone interested in portraiture and in representations of women and girls in visual culture; and for admirers of books and work by Panas. Her first monograph, *The Mark of Abel* (Kehrer, 2012), was hailed as one of the best books of the year. Lydia Panas' work is held in prestigious public collections and has been frequently exhibited in galleries and museums around the world.

Guide Vert Provence Vintage

The overuse of capitalization is rampant, and it's getting worse. People tend to capitalize when emphasizing a point or because they think the word is important and deserves to be capitalized. I looked up the following words in numerous dictionaries, and none

were listed. • Southern California • Southern Italy • West Texas • Texas Hill Country • Eastern Kentucky The proper nouns—California, Italy, Texas, and Kentucky—should be capitalized, but what about southern, eastern, west, and hill country? Or how about the words below? Is it . . . • French fries or french fries? • cheddar cheese or Cheddar cheese? • Chianti or chianti? • cabernet sauvignon or Cabernet Sauvignon? • Brussels sprouts or brussels sprouts? You may be surprised at some of the answers you'll find. Dictionaries may not list these words, and style guides avoid specifics. The good news is when using this book, you won't have to wonder again. The book covers geographical locations, compass points, religious deities, topographical locations, streets and roads, buildings, animal breeds (including dogs, cats, horses, cattle, donkeys, goats, sheep, and poultry), titles, academic degrees and courses, wine varietals, food groups, acronyms, eponyms, dialogue, brand names, titles of books, other works of art, and more. What do you do when the word you're looking up isn't in the dictionary and isn't covered by your style guide? Check *How to Capitalize Anything*.

Birds Hachette Tourisme

One of the greatest consequences of Rome's expansion across the Mediterranean world in the course of the Republic and the earliest years of the Empire was an exponential growth in the population and extent of the city itself. The emperors of the first three centuries AD faced major strategic challenges in ensuring a

regular annual supply of food to the city, as well as other goods. This volume brings together various contributions, to assess how far Portus, as the maritime port of Imperial Rome from the mid-first century ad, was the principal conduit for supplying Rome and the extent to which the commercial links that fed Portus were part of a single overarching network or a series of interlinked networks that extended across the Mediterranean. The volume begins with a detailed reconsideration of Portus and its relationship to Ostia and Rome, which is complemented by studies considering aspects of the commercial roles of Portus and Ostia, and of transport up the Tiber to Rome. It continues with studies that deal with a range of broader issues concerning the relationship of Mediterranean ports to Rome, Portus and Ostia, routes of commerce, and the archaeological evidence for commercial activity at a selection of ports (in Italy, Sicily, Hispaniae, Africa and the East); before returning to more general considerations of connectivity, networks, coastal geo-archaeology and computational methods.

Memoirs of Mistral Macmillan + ORM

Jakou výbavu měla speciální série vozů Aston Martin, nazvaná Alfred Dunhill? Jak souvisí logo Maserati s fontánou z 16. století? Je slovo Aero spojeno jen s českou automobilkou, nebo najdeme vozy tohoto jména i v jiných částech světa? Co přesně jsou „daňové koně“? Vymysleli název Citroën Elysée Číňané? Jak ovlivnil vývoj automobilového průmyslu fakt, že zakladatelé značek Ferrari a Lamborghini spolu nevycházel? Ing. Jiří Fiala (publicista, automobilový historik a sběratel automobilové literatury) a doc. Petr Strossa (vědec, expert přes jazyky a dorozumívání s počítači) předkládají všem automobilovým fanatikům unikátní výkladový slovník jmen značek a jejich typů, který obsahuje hesla o přibližně 1600 značkách a více než 5000 typech a modelech. Čtenáři v knize najdou mimo jiné základní informace o výrobcích automobilů, jejich filozofii označování typů, používání interních kódů či recyklování názvů vozů. Dozvědí se, proč se jeden automobil prodával pod různými názvy, proč se některá jména nesměla používat nebo jakých dosáhly jednotlivé vozy sportovních úspěchů. Vůbec poprvé je u nás pak publikován systém kódů sovětských vozidel a přehled čínských značek a výrobců. Zvláštní pozornost je věnována znakům (logům) všech důležitých značek, jejich vzniku a proměnám v čase. Celá tato speciální problematika je navíc zasazena do kontextu společenských a geopolitických událostí a okořeněná množstvím pozoruhodných historek a kuriozit souvisejících s auty, jejich jmény a výrobci.

Automobily: jména, značky a znaky Lonely Planet

NATIONAL BESTSELLER • In this witty and warm-hearted account, Peter Mayle tells what it is like to realize a long-cherished dream and actually move into a 200-year-old stone farmhouse in the remote country of the Lubéron with his wife and two large dogs. He endures January's frosty mistral as it comes howling down the Rhône Valley, discovers the secrets of goat racing through the middle of town, and delights in the glorious regional cuisine. A Year in Provence transports us into all the earthy pleasures of Provençal life and lets us live vicariously at a tempo governed by seasons, not by days.

Guide du Routard Provence 2023/24 Inferno Publishing Company

The Provence is the richest wildlife region of France. Whether you consider the flora and fauna in detail or simply take a broad view of the landscape, every corner of this region is different. There are the spectacular bird-filled wetlands of the Camargue, and right next to them, the arid, almost desert-like plateau of La Crau. Then there are the sizzling hot Mediterranean hillsides and the inviting clear seas of the Cote d'Azur. Just a little inland you can marvel at the fairylike, gnarled beech forests on the north slopes and the flower and butterfly rich subalpine plateaux in the mountains. All of this variety is present within the small region of Provence. The Crossbill Guide to the Provence and Camargue describes 25 routes and 20 sites found within the region and is complemented with extensive chapters on landscape, geology, history, flora and fauna, and tips to observe wildlife.

Markets of Provence Hachette Tourisme

'Memoirs of Mistral' is an autobiography written by Frédéric Mistral about his life. He was a French writer of Occitan literature and lexicographer of the Provençal form of the language. He received the Nobel Prize in Literature "in recognition of the fresh originality and true inspiration of his poetic production, which faithfully reflects the natural scenery and native spirit of his people, and, in addition, his significant work as a Provençal philologist".

Lonely Planet Provence & the Cote d'Azur Bloomsbury Pub Limited

Maximilian's Triumphal Arch Ulysses Travel Guides

The main focus of the book is the geological and geophysical interpretation of sedimentary basins along the South, Central and North Atlantic conjugate margins, but concepts derived from physical models, outcrop analogues and present-day margins are also discussed in some chapters. There is an encompassing description of several conjugate margins worldwide, based on recent geophysical and geological datasets. An overview of important aspects related to the geodynamic development and petroleum geology of Atlantic-type sedimentary basins is also

included. Several chapters analyse genetic mechanisms and break-up processes associated with rift-phase structures and salt tectonics, providing a full description of conjugate margin basins based on deep seismic profiles and potential field methods.--
