**The Mom Test** Microsoft Press

The Microsoft Official Academic Courseware (MOAC) Office 2010 Series is the only Official Academic Course program. Microsoft Office PowerPoint 2010 is built from the ground-up around the MOS® certification objectives, making it a great way to learn all the workforce-oriented tasks required for certification. The Test Bank now offers greater flexibility and provides more than 75 questions and 3 projects per lesson, as well as automated grading via OfficeGrader. Furthermore, the latest edition's use of color in screen captures allows users to follow on screen much easier, as screen captures will look the exact same as the application. Additional projects throughout the book help users comprehend how a task is applied on the job. OfficeGrader also helps instructors offer immediate feedback on all homework, assignments, and projects and additional animated tutorials on key Office tasks provides additional help on difficult topics.

This book titled "Fundamentals of Information Technology for Class 9 [Subject Code: 402]" fulfills all the needs and requirements of the latest syllabus released by the CBSE and it also comprises the recommendations of the National Education Policy 2020 which focusses on development of critical thinking, life skills, problem solving skills, experiential learning, etc. Salient features of this book are: • As per the latest curriculum and examination pattern prescribed by the Central Board of Secondary Education, New Delhi. • The book is divided into two sections: • Part A deals with the Employability Skills with chapters on the units: Communication Skills - I, Self-Management Skills - I, ICT Skills - I, Entrepreneurial Skills - I and Green Skills - I. • Part B deals with the Subject Specific Skills consists of four units. These units are Introduction to IT-ITeS industry, Data Entry and Keyboarding skills, Digital Documentation, Electronic Spreadsheet and Digital Presentation. • The last three units of Part B are based on MS Office suite of software. The version of this application used is MS Office 2010. These chapters of Part B respectively use the MS Word, MS Excel and MS PowerPoint software. Some of the features inside the chapters are: • Chapter content which has been kept logical to meet the requirements of the tech-savvy students. • Activity provides a useful way to check the knowledge given practically. • Fact gives an interesting historical fact related to the matter. • Did You Know? provides an interesting piece of knowledge to get them interested. • Summary summarises the chapter at its end. • Every chapter has its accompanying exercise. Also, each unit ends with its Question Bank consisting of competency based question, very short, short, long questions, etc. Video Lectures • Chapterwise video lectures are given for the students to understand better. • In order to access videos, Download Merit Box Android App from Playstore. Scan the QR code given in the chapter to watch the videos through the MERIT Box Android Mobile App. Online Support • E-books (for teachers only) Teacher's Resource Book • Overview of the chapters • Lesson plan • Answers of the exercise We hope that this book will meet the needs and requirements of the students and teachers as laid down in the syllabus. Any suggestions for further improvement of the book will be most welcomed. -Authors

**An Introduction to Financial Markets and Institutions** John Wiley & Sons

This timely book helps educators unleash the interactive potential of PowerPoint to build their own multimedia material that

perfectly matches the needs of their students. While PowerPoint affords powerful capabilities for creating dynamic classroom lessons and enriching curriculum, few educators understand how to take advantage of these built-in features. The second edition of this practical guide helps educators produce creative multimedia material for their students, regardless of their level of programming proficiency. **Powerful PowerPoint for Educators: Using Visual Basic for Applications to Make PowerPoint Interactive, Second Edition** discusses the educational benefits of multimedia instruction and provides a review of intermediate PowerPoint skills. Author David Marcovitz explains the concept of Visual Basic for Applications (VBA) scripting and provides progressively advanced skills and practice examples. While other books that describe VBA are written in a highly technical manner, this book is geared toward educators with little or no programming background and includes tips for modifying the practice examples for their own interactive multimedia projects. **Powerful PowerPoint for Educators** Bloomsbury Publishing USA This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. **Introducing Microsoft Power BI** enables you to evaluate when and how to use Power BI. Get inspired to improve business processes in your company by leveraging the available analytical and collaborative features of this environment. Be sure to watch for the publication of Alberto Ferrari and Marco Russo's upcoming retail book, *Analyzing Data with Power BI and Power Pivot for Excel* (ISBN 9781509302765). Go to the book's page at the Microsoft Press Store here for more details: <http://aka.ms/analyzingdata/details>. Learn more about Power BI at <https://powerbi.microsoft.com/>.
