## LEON COWAN

**Good Dinosaur Look and Find** Random House Books for Young Readers

Explains introductory physical science concepts about magnetism through real-world observation and simple scientific diagrams.

**The 7 Laws of Magical Thinking** Prima Lifestyles

Color and learn fun facts about 25 of the greatest dinosaurs that ever lived! Meet 25 of the world's most amazing dinosaurs! This learn-through-coloring book provides kids with hours of coloring fun and teaches them exciting facts about these prehistoric beasts at the same time. Did you know that Triceratops had up to 800 teeth? Or that Dilophosaurus could run almost as fast as an Olympic runner? Here's what the dinosaurs looked like, how they protected themselves, how big they were, and so much more. Children will have fun coloring the dinosaurs, learning about them, and becoming dinosaur experts. Dinosaur Book for Kids features: Learning while having coloring fun!

Kids will discover amazing facts for each dinosaur that they can share with family and friends. 50 age-appropriate illustrations, perfect for little hands. Name and pronunciation guide for every dinosaur, so kids can proudly (and accurately) show off what they know.

**The Complete Lockpick Pornography** Scholastic UK

Meet some amazing prehistoric creatures that weren't dinosaurs. Simple rhyming text and bright illustrations introduce us to creatures who we have come to know through fossils-- but they are NOT dinosaurs!

**Dinosaur Magnets** Macmillan

Ideal for preschool kids. Helps with first learning skills such as word and color recognition, counting and sorting. Magnetic pieces allow activities to be repeated over and over. Warning: Choking Hazard - Small parts. Not intended for children under 3 yrs.

**Curious George My First Bedtime Stories** Clarion Books

This book takes the guesswork out of finding the best products for kids from infancy to age ten. Here are over 1,000 expert- and kid-tested products that are guaranteed to entertain as well as

educate. You will also find safety tips and a key to buying the best new and classic products your kids will love. This fun, easy-to-use guide includes: Learning toys that work Brand-name comparisons Baby shower and birthday gifts for every budget Products for kids with special needs And much, much more!Revised every year, this complete guide helps you make choices your kids will love! About the Authors Joanne Oppenheim is one of today's leading authorities on child development and education. She is the author of more than forty books for children, including "Have You Seen Birds?" and "Not Now! Said the Cow." Her daughter, Stephanie Oppenheim, a former corporate attorney, is cofounder and publisher of the "Oppenheim Toy Portfolio" and a mother of two.

**Magnetic Learning Colors** Campbell Books

This Companion offers a thorough, concise overview of the emerging field of humanities computing. Contains 37 original articles written by leaders in the field. Addresses the central concerns shared by those interested in the subject. Major sections focus on the experience of particular disciplines in applying computational methods to research problems; the basic principles

of humanities computing; specific applications and methods; and production, dissemination and archiving. Accompanied by a website featuring supplementary materials, standard readings in the field and essays to be included in future editions of the Companion.

[Science And Space Activity Book For Kids Ages 4-8](#) Tiger Tales

Hours of dinosaur fun for you and your child in this action-packed magnetic book and play set.

There's so much happening in the dinosaur world. Go back in time and visit four colourful pre-historic scenes. Watch the book come to life as you sort the dinosaurs, fly with a Pterosaur, make dinosaur noises "Roaaar!" and position the 16 magnetic play-pieces with your child. Then when playtime is over, put the magnetic dinosaurs back for another day- they'll stay put in the book, so no more searching for lost pieces. Move-around magnetic fun encourages learning and keeps little hands busy!

*Dino Tracks* Simon and Schuster

A lovely magnet book full of Peppa's favourite things! Peppa and her family are out for a fun day in town and they are having the best day ever! Move your magnets to create exciting adventures for Peppa, Mummy Pig, Daddy Pig and George. Help build storytelling and imagination skills with this lovely, bright book.

[Animal Magnets](#) McFarland

Can you help the Very Hungry Caterpillar find all his favourite foods in this magnificent magnet book? Read the story and play with the magnets to bring The Very Hungry Caterpillar's world to life. · Learn your first numbers, shapes and colours · Use your imagination and creativity to help finish the adventure · Read, learn and play all at the same time · Includes 8 chunky magnets, perfect for little hands · Help develop fine motor skills · Can be read and played with again and again What adventures will you go on with the Very Hungry Caterpillar?

*Dinosaur Book for Kids* Ladybird

Ideal for preschool kids. Helps with first learning skills such as word and color recognition, counting and sorting. Magnetic pieces allow activities to be repeated over and over. Warning: Choking Hazard - Small parts. Not intended for children under 3 yrs.

*My First Shapes with Frank Lloyd Wright* ECW Press

Invites young readers to place magnets in the shape of such dinosaurs as a tyrannosaurus, triceratops, and stegosaurus next to the text describing them.

[Jane Foster's Dinosaurs](#) I Am Prehistoric

What would it be like to live as a dinosaur? Young readers will discover that dinosaur lives had many similarities to present-day animals: they hatched, ran, hunted, hid from predators, and grew to adulthood. However, the world these creatures from the far past inhabited was very different from that of today; a great example is that a simple thing like grass didn't yet exist. Repetitive sight words make this a great story for beginning readers and dinosaur enthusiasts alike.

[Thomas' Magnetic Play Book \(Thomas and Friends\)](#) Independently Published

The perfect space and science activity book for kids ages 4-8! Oodles of fun and beautiful coloring pages abound in this activity book. Kids won't even realize they are learning! Topics touched on include: atoms, magnets, planets, organisms, insects, dinosaurs, satellites, molecules,

photosynthesis, DNA, amoebas, and MORE! Makes a great workbook for kids to keep them busy on road trips, waiting rooms, or to use as part of your comprehensive home school curriculum. Great Christmas gift for kids! Fonts are specifically chosen for correct letter formation for the handwriting / spelling practice all with a fun science theme and beautifully drawn pictures abounding throughout! FEATURING: Coloring Crossword Puzzles Word Searches Handwriting Practice Dot-To-Dots Word Scrambles Vocabulary AND MORE Search My Activity Engine or click our brand at the top for more high end activity books!

*Dinosaur* Indiana University Press

Includes a wooden stylus and 20 bonus notebook pages. Jurassic World Franchise (c) 2021 Universal City Studios LLC and Amblin Entertainment, Inc. All Rights Reserved.

*Dinosaurs* Chicago Review Press - Fulcrum

In association with the Smithsonian, this classic picture book introduces dinosaurs of all shapes and sizes in bold, rhyming text! Dinosaur weak, dinosaur strong, dinosaur short or very, very long. There are all sorts of dinosaurs, from sweet to grumpy, from spiky to lumpy. Introduce young children to prehistoric pals and the concept of opposites as the dinos race, roar, and stomp their way to their lunch!

**Earth's First Steps** Bellwether Media

A rhythmic rhyme describes the different types of tracks made by dinosaurs that depict their movement and behavior.

*The Storytime Handbook* Penguin

Combining two novellas into one volume, this collection explores the effects of prejudice and the ramifications of violence with a slightly unhinged sense of humor and unexpected tenderness. Lockpick Pornography, originally published in 2005, is a gender-queer adventure story that was not widely available until now. We All Got It Coming presents the experiences of a young couple dealing with the aftermath of an act of violence. From kidnapping the son of a "family values" politician to violent confrontation, these are characters who fight back.

[The Publishers Weekly](#) Harry N. Abrams

A fascinating study of the thousands of new animal species that walked in the footsteps of the dinosaurs—and the climate changes that brought them forth. The fascinating group of animals called dinosaurs became extinct some 65 million years ago (except for their feathered descendants). In their place evolved an enormous variety of land creatures, especially mammals, which in their way were every bit as remarkable as their Mesozoic cousins. The Age of Mammals,

the Cenozoic Era, has never had its Jurassic Park, but it was an amazing time in earth's history, populated by a wonderful assortment of bizarre animals. The rapid evolution of thousands of species of mammals brought forth many incredible creatures—including our own ancestors. Their story is part of a larger story of new life emerging from the greenhouse conditions of the Mesozoic, warming up dramatically about 55 million years ago, and then cooling rapidly so that 33 million years ago the glacial ice returned. The earth's vegetation went through equally dramatic changes, from tropical jungles in Montana and forests at the poles. Life in the sea underwent striking evolution reflecting global climate change, including the emergence of such creatures as giant sharks, seals, sea lions, dolphins, and whales. Engaging and insightful, *After the Dinosaurs* is a book for everyone who has an abiding fascination with the remarkable life of the past.

**I Am Allosaurus** Z Kids

Shortlisted for Waterstones Book of the Year In difficult times, what children really need is hope. And in that spirit, bestselling author Katherine Rundell emailed some of the children's writers and artists whose work she loved most: 'I asked them to write something very short, fiction or non-fiction, or draw something that would make the children reading it feel like possibility-ists: something that would make them laugh or wonder or snort or smile. The response was magnificent, which shouldn't have surprised me, because children's writers and illustrators are professional hunters of hope ... I hope that the imagination can be a place of shelter for children and that The Book of Hopes might be useful in that, even if only a little.' This collection, packed with short stories, poems and pictures from the very best children's authors and illustrators, aims to provide just that. Within its pages you'll find animal friends from insects to elephants, high-flying grandmas, a homesick sprite, the tooth fairy, and even extra-terrestrial life. There are 133 contributions from authors and illustrators, including Anthony Horowitz, Axel Scheffler, Catherine Johnson, Jacqueline Wilson, Katherine Rundell, Lauren Child, Michael Morpurgo and Onjali Q. Raúf. A donation from the sale of each book will go to NHS Charities Together, in gratitude for the incredible efforts of all those who worked in hospitals over the quarantine period.

'An anthology on the theme of hope ... it includes a rich range of images, poetry, stories and non-fiction' - Sunday Times, 'Stories to charm on endless days' Proceeds from this book will be donated to NHS Charities Together. In respect of UK sales, this will be £2.10 and in respect of sales in other territories this will be 16% of net receipts (at least 62p). NHS Charities Together is a charity registered in England and Wales (registered charity no. 1186569).

*Cruisin' the Fossil Coastline* Priddy Books

Following in the footsteps of the groundbreaking Alphablock and Countablock, Dinoblock features thick pages cut into the shapes of dinosaurs Readers will be introduced to more than 20 different kinds of dinos via die-cuts of their unique silhouettes and the illuminating comparisons to familiar things from a young child's world. I stretch high like the ladder on a fire truck. I am a Brachiosaurus. As children touch the pages, they have a chance to guess the dinosaur and appreciate the uniqueness of its silhouette. A final gatefold delivers a roundup of all the dinos included. This hands-on approach, delivered in colorful pages by hip British design team Peskimo, makes for an immersive, age-appropriate introduction to a favorite topic of childhood.
