Recent scandals involving the use of human body parts have highlighted the need for legal clarification surrounding property law and the use of human tissue. This book advances the notion that the legal basis for dealing with this is already available in the law but has thus far neither been used nor discussed.

Proposing an alternative approach to constructing entitlements in human tissue and resolving resulting property conflicts, a new methodology is also advanced for abstracting different concepts within the debate which enables comparison and distinction between different cases of entitlement and retention.

Filled with practical advice that will help anyone obtain the information they seek

through Italian records, Italian Genealogical Records is a comprehensive guide to the complexities and nuances of what could otherwise be a daunting task. In this book, the author discusses the history and development of Italian record keeping, providing reproductions of typical records and a complete translation and thorough explanation of each. Among the many other topics covered in this book are the significance of Italian surnames and the relevance of Italian noble families in the search for Italian ancestors.

Reports of Cases Argued and Determined in the Supreme Court of Judicature

"One of the best accounts of the reality of gentrification and urban development in China . . . grounded with solid historical, ethnographic and legal evidence" (Urban

Studies). In recent decades, the centuries-old city of Shanghai has been demolished and rebuilt into a gleaming megacity. With its world famous skyscrapers, it now ranks with New York and London as a hub of global finance. But that transformation has come at a grave human cost. In *Shanghai Gone*, Qin Shao applies the concept of domicide—the eradication of a home against the will of its dwellers—to the sweeping destruction of neighborhoods, families, and life patterns that made way for the new Shanghai. Shao gives voice to the holdouts and protesters who resisted domicide and demanded justice. She follows, among others, a reticent kindergarten teacher turned diehard petitioner; a descendant of gangsters and squatters who has become an amateur lawyer for evictees; and a Chinese Muslim who has struggled to recover his ancestral home in Xintiandi, an infamous site of gentrification dominated by a well-connected Hong Kong real estate tycoon.

Highlighting the wrenching changes spawned by China’s reform era, Shao vividly portrays the corrupt and rapacious pursuit of growth and profit, the personal wreckage it has left behind, and the enduring human spirit it has unleashed. [The English Reports: Chancery](#) Virtual and augmented reality raise significant questions for law and policy. When should virtual world activities or augmented reality images count as protected First Amendment ‘speech’, and when are they instead a nuisance or trespass? When does copying them infringe intellectual property laws? When should a person (or computer) face legal consequences for allegedly harmful virtual acts? The Research Handbook on the Law of Virtual and Augmented Reality addresses these questions and others, drawing upon free speech doctrine, criminal law, issues of data protection and privacy, legal rights for increasingly

intelligent avatars, and issues of jurisdiction within virtual and augmented reality worlds.
