NEOBEL (New era of Blended Learning): Upaya Recovery Pandemic Covid-19 di Sekolah Dasar

Bumi Aksara
 Science/Technology/Society (S/T/S) is a reform effort to broaden science as a discipline in schools and colleges; to relate science to other facets of the curriculum; and to relate science specifically to technology and to the society that supports and produces new conceptualizations of both. S/T/S is also defined as the teaching and learning of science/technology in the context of human experience. It focuses on a method of teaching that recognizes the importance that experience in the real world has on the learning process. And it recognizes that real learning can occur only when the learner is engaged and able to construct her or his own meaning. Science/Technology/Society as Reform in Science Education, is rich with examples of such teaching and learning. It includes impressive research evidence that illustrates that progress has been made and goals have been met. For teachers and administrators alike, this book provides and validates new visions for science education.

MODEL WORKSHOP PEMBELAJARAN ABAD 21 BAGI GURU

Ika Maryani

Buku Instrumen Penelitian Penilaian Bahan Ajar dilatarbelakangi oleh pentingnya produk ajar sebagai hasil dari pengembangan bahan ajar yang sangat krusial dan harus selalu dikembangkan berdasarkan analisa kebutuhan. Kebutuhan para pembelajar, pebelajar, masyarakat, stakeholder dan pemerintah menuntut para peneliti dan pengembang untuk selalu berimprovisasi dan berinovasi terhadap perubahan-perubahan yang terjadi di dunia pendidikan, baik dari sisi kurikulum, isi materi, strategi pembelajaran, dan implementasinya. Produk ajar sebagai hasil dari pengembangan bahan ajar tidak disarankan untuk dikembangkan secara asal karena akan memberi dampak yang cukup signifikan tidak hanya pada kualitas para pebelajar, tetapi juga pada kebutuhan masyarakat, pemerintah dan pembelajar. Untuk ini, produk ajar yang dihasilkan harus diujicobakan dan diteliti terlebih dahulu melalui beberapa instrumen penelitian yang dapat memberikan penilaian objektif sehingga hasilnya akan valid, praktikal, dan efektif untuk digunakan saat pembelajaran. Instrumen yang dapat menilai produk ajar ini diulas oleh Dr. Yudi Hari Rayanto, M.Pd., Supriyo, M.Pd., dan Suwadi, M.Pd secara gamblang dengan merefleksikan penggunaan instrumen yang utuh pada riset pengembangan di tesis, artikel

tentang pengembangan instrumen tes, pengembangan media pembelajaran, dan laporan akhir penelitian dosen pemula.

Laporan kegiatan Pusat Pengembangan Kurikulum dan Sarana Pendidikan dan Kebudayaan, BP3K. MacMillan Publishing Company

Prosiding Seminar Nasional Seni Dan Budaya "Poshuman dan Interdisiplinartitas" ini menguraikan tentang refleksi kritis atas budaya dengan kacamata poshuman. Prosiding ini diharapkan memberikan orientasi atas situasi tanpa pijakan bagi bertumbuhnya budaya yang lebih memberikan kemungkinan eksistensi manusia dalam tantangan perubahan iklim yang juga menjadi tantangan dalam mendorong poshuman. Materialisasi budaya dalam wujud seni juga layak untuk dikaji ulang agar mampu memberikan jalan yang dapat diterima dalam membantu manusia mengarungi tantangan biologis dan non biologisnya. Posthuman lahir dari sebuah situasi bahwa manusia didorong ke batas-batas yang sebelumnya tidak pernah dijumpai. Manusia menjadi perlu mempertanyakan kemanusiaannya karena perkembangan teknologi yang sangat pesat yang memberikan kemampuan augmentasi teknologi pada manusia. Bahkan augmentasi teknologi ini dapat melebihi batas-batas biologis dan mental manusia. Pada saat yang sama, kesadaran akan eksistensi manusia yang terancam dalam perubahan iklim global, perubahan anthroposen juga membuatnya perlu bertanya tentang kemanusiaan yang menempatkan dirinya sebagai pusat dari gagasan kemanusiaan. Dalam anthroposentrisme, manusia dengan kemanusiaannya adalah pusat gagasan. Namun, konsekuensi menempatkan dirinya tidak lagi sebagai pusat telah berimplikasi yang sangat serius pada eksistensinya sendiri. Perubahan pusat gagasan dan hilangnya batas-batas mengakibatkan perubahan yang sangat signifikan terhadap budaya yang menaungi perkembangan manusia. Budaya sebagai sistem dan struktur yang membentuk manusia kehilangan jangkar yang memberi pijakan atas basis-basis metode yang berkembang selama ini. Norma-norma yang berakar pada tradisi maupun konsep-konsep yang ada sebelumnya menjadi semakin kabur. Sekalipun demikian, tidak semua pijakan menjadi tidak relevan karena kepentingan praktis eksistensi manusia. Penataan ulang pijakan-pijakan budaya menjadi perlu untuk dilakukan untuk memberikan kepastian bagi berkembangnya budaya yang relevan dalam menjawab pertanyaan tentang kemanusiaan dan eksistensinya.

Motivational Enhancement Therapy Manual Teachers College Press

Pembelajaran abad 21 merupakan paradigma baru dalam Pendidikan global. Paradigma pendidikan bergeser dari conventional learning approach menjadi hybrid learning approach. Guru profesional diharapkan adaptif dan responsive dengan adanya perubahan ini. Guru harus senantiasa meningkatkan kompetensinya melalui berbagai workshop. Sesuai amanat dalam UU Guru dan Dosen tahun 2005 Pasal 10 bahwa kompetensi guru meliputi kompetensi pedagogik, kompetensi profesional, kompetensi social, dan kompetensi kepribadian. Hal ini yang melandasi disusunnya buku ini.

Laporan Pelaksanaan Program Tahunan Departemen Pendidikan dan Kebudayaan Springer Nature

Buku Pendamping Siswa Cerdas (BPSC) Modul Ilmu Pengetahuan Sosial SD/MI Kelas V ini merupakan buku yang khusus ditujukan bagi siswa kelas V. Setelah mempelajari buku ini, siswa kelas V diharapkan dapat lebih memahami materi mata pelajaran Ilmu Pengetahuan Sosial. Buku ini disusun dengan cukup praktis dan ringkas sehingga siswa kelas V dapat mempelajarinya dengan mudah. Buku ini dilengkapi dengan ringkasan materi yang berisi materi secara garis besar disertai contoh soal dan pembahasan. Selain itu, terdapat soal latihan dan aktivitas yang disajikan

dalam berbagai variasi. Di akhir soal latihan, terdapat penilaian yang dapat membantu siswa untuk mengevaluasi kemampuannya dalam memahami materi.

The 3rd International Conference on Science Education in Industrial Revolution 4.0 (ICONSEIR 4.0) is a forum of scientists, academics, researchers, teachers and observers of education and students of post-graduate who care of education. This event was held by the Faculty of Education, Universitas Negeri Medan - Indonesia, on December 21st, 2021.

Agenda penelitian IKIP Yogyakarta Aqilian Publika

This is an open access book. Related to the big theme of the SDGs reinforcement at our previous conference, we try to invite all academics and researchers around the world to participate in the 4th Borobudur International Symposium 2022 (4thBIS 2022). As we know, the COVID-19 pandemic and its impact on all the 17 SDGs have demonstrated how what began as a health catastrophe swiftly transformed into a human, socioeconomic and environmental crisis. The 4th BIS brought up "The Innovation Chain: A Contribution to Society and Industry" as the main theme to respond this condition. This conference is expected to support the UN Agenda. Additionally, this conference will also provide avenues for participants to exchange ideas and network with each other as well as domain experts from their fields. Overall, this event is aimed at professionals across all spheres of technology and engineering including the experienced, inexperienced, and students as well. The conference will be held virtually on Wednesday, December 21st, 2022 in Magelang, Central Java, Indonesia.

How to Integrate the Curricula Sanata Dharma University Press

This is an open access book. The 6th International Conference on Learning Innovation and Quality Education (ICLIQE 2022) is organized by Faculty of Teacher Training and Education. The purpose of the ICLIQE 2022 activity is as a forum to accommodate researchers, academics, educators and education staff, consultants, government and other stakeholders to share perspectives related to educational trends seen from the perspective of society 5.0 era which includes the fields of science and technology education, social and humanities, management education, basic education, special education, early childhood education, guidance and counseling, curriculum, and educational evaluation and innovation.

Peranan pendidikan dalam pembinaan kebudayaan nasional di daerah Kabupaten Dili, Timor Timur Ika Maryani

This is an open access book. The COVID-19 pandemic in the last two years has influenced how educational system works. Online learning became the primal policy taken by all institutions in the world to lower the risk of the virus spread. Despite the drawbacks of the online learning, teachers and students were accustomed with the distant learning through web meetings, Learning Management Systems (LMS) and other online learning platforms. In that time, topics under digital learning and education 5.0 were the main stakes in academic disseminations. This year some institutions start to conduct their teaching and learning process classically as before the pandemic, others are still continuing online and not few are in hybrid. This leaves a question: what learning reform should be made in post-pandemic era? This conference invites researchers, experts, teachers and students to discuss the coping solutions of the question. It is important for them to contribute to the understanding of re-imagining online education for better futures, innovative learning design, new skills for living and working in new times, global challenge of education, learning and teaching with blended learning, flipped learning, integrating life skills for students in the curriculum, developing educators for the future distance learning, humanities

learning in the digital era, assessment and measurement in education, challenges and transformations in education, technology in teaching and learning, new learning and teaching models. Not limited to these, scholars may add another interesting topic related to learning reform in post-pandemic era to present.

Proceedings of the 6th International Conference on Learning Innovation and Quality Education (ICLIQE 2022)

Springer Nature

This updated resource offers ten models that allow teachers to work together to create learner-centered classrooms by grouping elements from various content areas into a coherent, standards-based curriculum.

Tempo Springer Nature

Kurikulum selalu mengalami revisi dan penyempurnaan yang didasarkan kepada perkembangan ilmu pengetahuan dan teknologi yang menuntut pendidikan di persekolahan selalu menyesuaikan dengan kemajuan zaman. Atas dasar kebutuhan tersebut, buku ini disusun sebagai bahan rujukan minimal dalam perkuliahan. Buku ini berisi 1) Hakikat dan Teori Kurikulum; 2) Pengembangan Kuri-kulum; 3) Kurikulum Jenjang Sekolah Dasar dan Menengah; 4) Kurikulum Merdeka; 5) Kajian Materi IPS dan Geografi dalam Kurikulum; 6) Kurikulum Jenjang Perguruan Tinggi; 7) Pengajar dan Kurikulum sebagai Tantangan Pendidikan Abad ke-21; dan 8) Pengembangan Sumber Belajar Geografi. Kehadiran buku ini diharapkan dapat mendorong semangat atau minat para pendidik dan pembaca secara umum untuk mengkaji lebih dalam mengenai kurikulum dan pengembangan sumber belajar geografi.

We are delighted to introduce the proceedings of the third edition of the International Conference on of Education and Science. The 3rd International Conference of Education and Science (ICES) Universitas Kristen Indonesia will be an annual event hosted by Education and Teacher Training Faculty, Universitas Kristen Indonesia. This year (2021), will be the third ICES UKI will be held on 17-18 November 2021 at Education and Teacher Training Faculty, Universitas Kristen Indonesia, Indonesia. This conference

has brought researchers, developers and practitioners around the world. The theme of ICES 2021 was "Research and Education Sustainability Post COVID-19 in Asian Context" . The 3rd International Conference of Education and Science (ICES) 2021 consisted of 46 full papers. The conference tracks were teaching and learning, education technology, educational psychology, and christian education. "Research and Education Sustainability Post COVID-19 in Asian Context" has been chosen at the main theme for the conference. Science and education underlie all human life, especially in the face of the Industrial Revolution 4.0, which is clearly stated in RIRN. Thus, science and education will become a special field of study in the 3rd ICES 2021. Through this activity, it is expected to increase the number of international publications by Indonesian academics in the fields of natural science, social science, and education. The conference invites delegates from across Indonesian and Asian region and beyond, and is usually attended by more than 1000 participants from university academics, researchers, practitioners, and professionals across a wide range of industries. We strongly believe that The 3rd International Conference of Education and Science (ICES) 2021 provides a good forum for all researcher, developers and practitioners to discuss all science and education aspects that are relevant to The 3rd ICES 2021. We also expect that the future The 4rd ICES 2022 will be as successful and stimulating, as indicated by the contributions presented in this volume.

Air Pollution Bumi Aksara

Science, engineering, and technology permeate nearly every facet of modern life and hold the key to solving many of humanity's most pressing current and future challenges. The United States' position in the global economy is declining, in part because U.S. workers lack fundamental knowledge in these fields. To address the critical issues of U.S. competitiveness and to better prepare the workforce, A Framework for K-12 Science Education proposes a new approach to K-12 science education that will capture students' interest and provide them with the necessary foundational knowledge in the field. A Framework for K-12 Science Education outlines a broad set of expectations for students in science and engineering in grades K-12. These expectations will inform the development of new standards for K-12 science education and, subsequently, revisions to curriculum, instruction, assessment, and professional development for educators. This book identifies three dimensions that convey the core ideas and practices around which science and engineering education in these grades should be built. These three dimensions are: crosscutting concepts that unify the study of science through their common application across science and engineering; scientific and engineering practices; and disciplinary core ideas in the physical sciences, life sciences, and earth and space sciences and for engineering, technology, and the applications of science. The overarching goal is for all high school graduates to have sufficient knowledge of science and engineering to engage in public discussions on science-related issues, be careful consumers of scientific and technical information, and enter the careers of their choice. A Framework for K-12 Science Education is the first step in a process that can inform state-level decisions and achieve a research-grounded basis for improving science instruction and learning across the country. The book will guide standards developers, teachers, curriculum designers, assessment developers, state and district science administrators, and educators who teach science in informal environments.
